Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District, McKinney Texas (the District) as of and for the year ended June 30, 2013, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express an opinion on them based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District as of June 30, 2013, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 3 through 11 and the budgetary comparison information on page 48 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 3, 2012 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the T.E.A. required schedules listed in the table of contents are presented for additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, combining and individual nonmajor fund financial statements and the T.E.A. required schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the McKinney Independent School District annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2013. Please read in conjunction with the District's financial statements, which follow this section.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position (Exhibit A-1) and the Statement of Activities (Exhibit B-1). These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (Exhibits C-1 and C-3) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (following Exhibit D-2) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA and begin with Exhibit F-1. Exhibits labeled Exhibit G, TEA Required Schedules, and Federal Awards, contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

### REPORTING THE DISTRICT AS A WHOLE

#### *Government-wide Statements: The Statement of Net Position and the Statement of Activities*

The government-wide statements (Exhibits A-1 and B-1) report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position, Exhibit A-1, includes all of the government's assets and liabilities. The Statement of Activities, Exhibit B-1, accounts for all of the current period's revenues and expenses.

The two government-wide statements report the District's *Net Position* and how it has changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, consider additional non-financial factors such as changes in the District's tax base.

Within the government-wide financial statements of the District, most of the District's basic services are included, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes, grants and state revenues finance most of the activities.

## REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

### *Fund Financial Statements*

The fund financial statements (Exhibits C-1 and C-3) provide more detailed information about the District's most significant funds, not the District as a whole. Funds are a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives.

- Some funds are required by State law and bond covenants.
- Other funds are established to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are reported in governmental funds. The funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances at the end of the fiscal period. The governmental funds statements provide a detailed, short-term view of the District's general operations and the basic services it provides. The differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are described in reconciliation narratives following each of the fund financial statements. (Exhibits C-2 and C-4)
- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for money raised by student activities and alumnae scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position, Exhibits D-1 and D-2 respectively. These resources are excluded from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purpose.

## FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

**Net Position.** The District's combined net position was \$100,202,374 on June 30, 2013. (See Table A-1).

## Governmental Activities-Changes in Net Position

- Operating grants and contributions decreased with the completion of the Education Jobs Funds grant in fiscal year (FY) 2012.
- Investment earnings decreased as interest rates declined.
- Grants and contributions not restricted decreased as reimbursements for School Health and Related Services (SHARS) were adjusted for previous years' overpayments.
- Expenses for Data Processing services increased due to purchases of non capital technology equipment.

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this period was \$243,130,009.
- The amount paid by MISD taxpayers for these governmental activities through property taxes was \$138,794,222.
- Some of the cost (\$8,760,826) was paid by those who directly benefited from the programs or by grants and contributions of \$19,801,833
- State aid formula grants paid for \$63,769,503 of the costs.

Debt service charges increased with the issuance of capital project and refunding bonds in FY 13.

## FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As the District completed the year, governmental funds (as presented in the balance sheet on Exhibit C-1) reported a combined fund balance of \$90,513,457 as compared to a fund balance ending June 30, 2012 of \$118,125,309. The decrease was due to an excess of expenditures over revenues in the general fund due to a reduction in state funding. In addition, capital projects fund balance decreased as bond proceeds were used for capital projects.

## General Fund Budgetary Highlights

During the course of the fiscal year, the District reviews and revises its budget on a monthly basis in accordance with Texas Education Agency Financial Accountability System Resource Guide standards. General Fund revenues for the fiscal year ended June 30, 2013 exceeded budget by \$811,580 due primarily to tax collections exceeding expectations. Total expenditures for the fiscal year were \$5,748,134 under budget. This was attributable primarily to the categories of Instruction where the budget was based on full staffing for the entire year; however, there were miscellaneous vacancies throughout the year. Facilities Maintenance and Operations also under spent a significant portion of their non-payroll budget.

At the end of fiscal year 2012, the ending general fund balance of \$62.4 million represented 34.4% of the 2012-2013 final operating budget. At fiscal year-end 2013, the ending fund balance of \$54.5 million represented 29.1% of the 2013-2014 operating budget.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of 2013, the District had invested \$487,642,607 in a broad range of capital assets, including land, equipment, buildings, and construction in progress. (See Table A-4) Construction in Progress increased due to the ongoing remodeling of two schools. Additional information on capital assets is contained in Note 4, Section D of the Notes to the Financial Statements.

**Table A-4**  
**District's Capital Assets**  
**Governmental Activities**

	<u>2013</u>	<u>2012</u>	<u>Total %</u> <u>Change</u>

Net capital assets	<u>\$ 487,642,607</u>	<u>\$ 451,567,237</u>	7.99%

At the 2013 year-end, the District had \$474,748,187 in bonds outstanding as compared to \$463,143,551 at 2012 year-end. More detailed information about the District's debt is presented in the Notes to the Financial Statements.

**Table A-5**  
**District's Long Term Debt**

	<u>2013</u>	<u>2012</u>	<u>Total % Change</u>
Bonds payable	\$ 474,748,187	\$ 461,310,705	2.91%
Total bonds & notes payable	<u>\$ 474,748,187</u>	<u>\$ 461,310,705</u>	2.91%

All of the District's bonds except the Series 2009 and 2010 Bonds presently carry AAA Ratings by virtue of the Texas Permanent School Fund Bond Guarantee Program. The District's underlying ratings (and stand alone ratings in the case of the Series 2009 and 2010 Bonds) are as follows:

Moody's Investor Services "Aa2"  
Standard & Poor's "AA"

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Net taxable appraised value used for the 2014 budget preparation has increased approximately \$573.2 million, which represents an increase of 6.3% from 2013 values. New construction for 2014 amounts to approximately \$200.6 million. Value lost for new exemptions totals \$17.7 million.
- A comparison of budgeted general operating fund spending per pupil (based on fall enrollment) in the 2012-13 fiscal year of \$7,386 to the budgeted 2013-14 spending per pupil of \$7,604 represents a budgeted increase in spending per pupil of 3.0%.
- The District's 2014 fall enrollment is expected to be approximately 24,596 which represents a .8% increase over 2013.
- These indicators were taken into account when adopting the general fund budget for 2013-14. Revenues available for appropriation in the general fund budget are \$185,940,657 an increase of 11.4% over the final 2012-13 budget of \$166,277,281. The difference is due to an increase in the tax rate for 2013-14 and growth in enrollment.

A tax ratification election in September 2013 brought the District's tax rate to \$1.670. The following chart demonstrates the relationship of state and local funding for the past four years along with estimated amounts for 2013-14.

**State vs. Local Revenue (in millions)  
(General & Debt Service Funds)**

General fund expenditures for 2013-14 are budgeted to increase 3.8% to \$187.0 million. The largest increase is expected in payroll costs due to district wide salary increases granted in FY 14.

### 2013-2014 Percent of General Fund Budget by Object

The District passed a Tax Ratification Election in September 2013. The tax rate will be \$1.670 in 2014, with the debt portion at \$0.500 and the M & O portion at \$1.17. The average taxable value of an average residence is expected to increase from \$213,136 in 2013 to \$221,821 in 2014.

### Historic Tax Rate Comparison

TEA implemented and has annually assigned financial accountability ratings to Texas state school districts since the 2001-2002 fiscal audit. The McKinney ISD has received a ‘Superior Achievement’ rating for all applicable fiscal years, which represents the highest rating that a district can achieve.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE  
STATEMENT OF NET POSITION  
JUNE 30, 2013

<b>Total Fund Balances - Governmental Funds</b>	\$	90,513,457
<b>1</b> Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$587,391,368 and the accumulated depreciation was \$135,824,131. In addition, long-term liabilities, including bonds payable of \$447,520,000 are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.		4,047,237
<b>2</b> Current year capital outlays of \$50,933,515 and long-term debt principal payments of \$23,680,000 are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net position.		74,613,515
<b>3</b> Accrued interest payable on long-term debt is not reflected on the fund financial statements, but is shown on the government-wide financial statements. The effect of showing accrued interest payable is to decrease net position.		(7,845,218)
<b>4</b> The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(14,467,623)
<b>5</b> Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net position.		(46,658,994)

MCKINNEY INDEPENDENT SCHOOL DISTRICT  
Notes to the Financial Statements  
at and for the  
Year Ended June 30, 2013

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

McKinney Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

**A. Reporting Entity**

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

**B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

MCKINNEY INDEPENDENT SCHOOL DISTRICT  
Notes to the Financial Statements  
at and for the  
Year Ended June 30, 2013  
-continued-

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unma-tured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the “susceptible to accrual” concept, that is, when they are both measurable and available. The District considers them “available” if they will be collected within sixty days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities

associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

**D. Fund Accounting**

The District reports the following major governmental funds:

1. **General Fund** - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund types(s):

**Governmental Funds:**

1. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

**Fiduciary Funds:**

2. **Private Purpose Trust Fund** - The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds are for scholarships.
3. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is for student groups.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Liabilities, and Net Position or Equity**

**1. Deposits and Investments**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**2. Due From (To) Other Funds**

Interfund receivables and payables arise from interfund transactions and are recorded in all affected funds in the period in which transactions are executed in the normal course of operations.

**3. Inventories and Prepaid Items**

In the General Fund, reported inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

**4. Capital Assets**

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

**5. Vacation and Sick Leave**

Vacations are allowed to be accumulated but do not vest. Therefore, no liability has been accrued in the accompanying basic financial statements. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, a liability for unused sick leave has not been recorded in the accompanying basic financial statements.

**6. Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**7. Fund Equity**

**Fund Balance Classification:** The governmental fund financial statements present fund balance classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Liabilities, and Net Position or Equity (continued)

7. Fund Equity (continued)

- **Nonspendable**: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- **Restricted**: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Committed**: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees. These amounts cannot be used for any other purpose unless the Board of Trustees removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District did not have any committed resources as of June 30, 2013.
- **Assigned**: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by an official to which the Board of Trustees delegates this authority.
- **Unassigned**: This classification includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

As of June 30, 2013, fund balances are composed of the following:

**8. Data Control Codes**

The Data Control Codes refer to the account code structure prescribed by T.E.A. in the *Financial Accountability System Resources Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.

9. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. Budgetary Data**

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit E-1 and the other two reports are in Exhibit G-4 and G-5.

The following procedures were followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 19, the District prepares a budget for the next succeeding fiscal period beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days’ public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. The budget was properly amended throughout the year by the Board of Trustees.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

**June 30, 2013 Fund Balance**

Appropriated budget funds - Food Service Special Revenue Fund	\$2,683,604
Nonappropriated budget funds	<u>3,522,768</u>
All Special Revenue Funds	<u><u>\$6,206,372</u></u>

**NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (continued)**

**B. Encumbrance Accounting**

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment or Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at June 30 and encumbrances outstanding at that time are either cancelled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at year end.

**NOTE 4 DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At June 30, 2013, the carrying amount of the District's cash, savings, and time deposits was \$(4,040,311). The bank balance was \$768,238. The District's combined deposits at June 30, 2013 and during the year ended June 30, 2013 were fully insured by federal depository insurance or collateralized with securities pledged to the District and held by the District's agent.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Name of bank American National Bank of Texas.
- b. The market value of securities pledged as of the date of the highest combined balance on deposit was \$ 7,365,143.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$ 1,095,499 and occurred during the month of November.
- d. Total amount of FDIC coverage at the time of highest combined balance was \$250,000.

**NOTE 4 DETAILED NOTES ON ALL FUNDS (continued)**

**A. Deposits and Investments (continued)**

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit; (3) certain municipal securities; (4) money market savings account; (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Fund; (8) Investment pools; (9) guaranteed investment contracts; and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. **Custodial Credit Risk - Deposits:** In the case of deposits this is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's policy regarding types of deposits allowed and collateral requirements is: the Depository may be a state bank authorized and regulated under Texas law; a national bank, savings and loan association, or savings bank authorized and regulated by federal law;
- a. **Custodial Credit Risk - Deposits: (continued)**  
or a savings and loan association or savings bank organized under Texas law; but shall not be any bank the deposits of which are not insured by the Federal Deposit Insurance Corporation (FDIC). The District is not exposed to custodial credit risk for its deposits, as all are covered by depository insurance and pledged securities.
- b. **Custodial Credit Risk - Investments:** For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District investments are with American National Bank of Texas, Texas Local Government Investment Pool ("TexPool"), and the TexStar Investment Pool ("TexStar"). The pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investments. Local investment pools operate in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940. The Texas Comptroller of Public Accounts exercises oversight responsibility over TexPool. Administration

of TexStar is performed by a Board of Directors, which is an administrative agency created under the Interlocal Act. The District is not exposed to custodial credit risk for its investments.
- c. **Credit Risk -** This is the risk that an issuer of an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for TexPool at year end was AAAm by Standard & Poor's. The credit quality rating for TexStar at year end was Aaa by Moody's Investor Service.
- d. **Interest Rate Risk -** This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the District's investment in external investment pools is less than 60 days.
- e. **Foreign Currency Risk -** This is the risk that exchange rates will adversely affect the fair value of an investment. The District is not exposed to foreign currency risk.
- f. **Concentration of Credit Risk -** This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investments issued by the U. S. Government and investments in investment pools are excluded from the 5 percent disclosure requirement. The District is not exposed to concentration of credit risk.

The District's temporary investments at June 30, 2013, were as follows:

<u>Investment type:</u>	<u>Fair Value</u>
TexStar investment pool	\$33,294,490
State Treasurer's investment pool	49,549,833

**B. Property Taxes**

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the period following the October 1 levy date. The assessed value of the property tax roll on August 1, 2012, upon which the levy for the 2012-13 fiscal period was based, was \$9,017,549,918. The roll was subsequently increased to a period end assessed value of \$9,119,879,868. Taxes are delinquent if not paid by January 31. Delinquent taxes are subject to both penalty and interest charges plus 15% delinquent collection fees for attorney costs after June 30.

The tax rates assessed for the period ended June 30, 2013, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$1.04 and \$0.50 per \$100 valuation, respectively, for the total of \$1.54 per \$100 valuation.

Total tax collections for the year ended June 30, 2013, were 100% of the period end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2013, property taxes receivable, net of estimated uncollectible taxes, totaled \$2,576,837 and \$1,126,133 for the General and Debt Service Funds, respectively.

**C. Due From Other Governments**

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2013, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

**NOTE 4 DETAILED NOTES ON ALL FUNDS (continued)**

**G. Defeasance of Debt**

On September 27, 2012, the District issued general obligation bonds (building and refunding bonds) of \$53,975,000 (par value) with an effective interest rate of 3.32 percent to advance refund a portion of the Unlimited Tax School Building and Refunding Bonds, Series 2004 (refunded bonds), with an effective interest rate of 4.97 percent and par value of \$25,885,000. The building and refunding bonds were issued at par and, after paying issuance costs of \$221,872 and underwriter's discount of \$329,661, and receiving a premium of \$9,335,020, the net proceeds were \$62,758,486. \$27,758,487 of the net proceeds were used to purchase U.S. Government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the refunded portion is paid. The advance refunding met the requirements of an in-substance debt defeasance and the refunded bonds were removed from the District's Long-Term Debt Payable.

As a result of the advance refunding, the District decreased its total debt service requirements by \$3,814,809, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$3,536,376. The District issued the refunding bonds in order to restructure the District's debt service payments.

In prior years, the District defeased previously issued and outstanding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2013, \$46,200,000 of the bonds outstanding (including those defeased in 2013) are considered defeased.

**NOTE 5 OTHER INFORMATION**

**A. Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2012, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

**B. Litigation and Contingencies**

The District is currently involved in various litigation. Management believes the District will prevail in each matter.

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2013, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

**C. Revenues from Local and Intermediate Sources**

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Special Revenue Fund	Debt Service Fund	Capital Projects Fund	Private Purpose Funds	Total

**D. Deferred Inflow of Resources**

Governmental funds report *deferred inflow of resources* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred inflow of resources* reported in the governmental funds were as follows:

**E. Health Care Coverage**

For the year ended June 30, 2013, employees of the District were covered by the TRS active care insurance plan (the plan). The District paid premiums of \$306, per month per employee to the plan and employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to licensed insurer. The plan was authorized by Article 3.51-2., Texas Insurance Code, and was documented by contractual agreement.

Latest financial statements for the Blue Cross Blue Shield are available for the year ended December 31, 2012, are filed with the Texas State Board of Insurance, Austin, Texas and are public records.

**F. Pension Plan Obligations**

**1. Teacher Retirement System of Texas**

Plan Description - The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by

**Funding Policy** - Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2011, 2012 and 2013 and a state contribution rate of 6.644% for calendar year 2011, 6% for calendar year 2012, and 6.4% for calendar year 2013. In certain instances the reporting district is required to make all or a portion of the state's contribution. State contributions to TRS made on behalf of the District's employees for the years ended June 30, 2011, 2012 and 2013 were \$6,057,706, \$6,858,300, and \$6,859,622 respectively. The District paid additional state contributions for the years ended June 30, 2011, 2012 and 2013 in the amount of \$1,858,617, \$1,497,697, and \$1,588,134 respectively, on the portion of the employees' salaries that exceeded the statutory minimum.

**2. Teacher/Employee Recruitment and Retention Program Trust**

**Plan Description** - The District contributes to the Teacher/Employee Recruitment and Retention Program Trust. The Trust is a defined contribution retirement plan. The Trust's annual financial report and other required disclosure information are available by writing the TERRP Plan Administrator, JEM Resource Partners, 4201 Bee Caves Road, Suite C-101, Austin, Texas 78746.

**Funding Policy** - Under the plan provisions, the District contributes 100% of plan members contributions to their 403(b) or 457 plan, up to one-half of one percent of the plan member's gross annual compensation. District contributions for the year ended June 30, 2013 were \$142,789. Plan members are 100% vested in their account after attaining five credited years of participation in the plan. Upon meeting the requirements of "qualification for unreduced retirement" in accordance with the Teacher Retirement System of Texas, obtaining normal retirement age, or upon death or permanent disability, a plan member shall be 100% vested regardless of years of service.

**G. Retiree Health Plan**

Plan Description - The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at [www.trs.state.tx.us](http://www.trs.state.tx.us), by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2011, 2012, and 2013. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended June 30, 2011, 2012, and 2013, the State's contributions to TRS-Care were \$1,247,754, \$1,205,492, and \$1,216,311 respectively, the active member contributions were \$811,043, \$783,547, and \$790,718 respectively, and the school district's contributions were \$686,267, \$662,996, and \$669,056 respectively, which equaled the required contributions each year. In addition to the pension plan and TRS-Care on behalf, the District is allocated a portion of the Medicare Part D retiree drug subsidy the TRS-Care receives. The amount allocated on behalf for the year ended June 30, 2013 is estimated by TRS at \$289,474.

**H. Workers' Compensation Insurance**

During the year ended June 30, 2013, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the District is responsible for a certain amount of claims liability as outlined on the District's Contribution and Coverage Summary document. After the District's deductible has been met, the Fund is responsible for additional claims.

**H. Workers' Compensation Insurance (continued)**

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.5 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully fund those reserves. As of August 31, 2012, the Fund carries a discounted reserve of \$68,883,628 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2012, member districts will have no additional liability beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each plan year on August 31 and is approved by the Fund's Board of Trustee in February of the following year. The Fund's audited financial statements as of August 31, 2012, are available at the TASB offices and have been filed with the Texas State Board of Insurance in Austin.

**I. Restatement of Net Position**

As required by GASB statement number 63, the prior years' Net Position has been restated as a result of fully writing off unamortized bond issuance costs.

**NOTE 6 EVALUATION OF SUBSEQUENT EVENTS**

On August 29, 2013, the District issued \$39,305,000 of Unlimited Tax School Building Bonds, Series 2013 to provide new funds for construction.

The District has evaluated subsequent events through September 3, 2013, the date which the financial statements were available to be issued.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**INDEPENDENT AUDITOR'S REPORT**

Board of School Trustees  
McKinney Independent School District  
1 Duvall Street  
McKinney, Texas 75069

Members of the Board:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the McKinney Independent School District, as of and for the year ended June 30, 2013, which collectively comprise the McKinney Independent School District's basic financial statements and have issued our report thereon dated September 3, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered McKinney Independent School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of McKinney Independent School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of McKinney Independent School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether McKinney Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information and use of management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT  
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON  
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Trustees  
McKinney Independent School District  
1 Duvall Street  
McKinney, Texas 75069

Members of the Board:

**Compliance**

We have audited the McKinney Independent School District's compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013. The McKinney Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the McKinney Independent School District's management. Our responsibility is to express an opinion on the McKinney Independent School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the McKinney Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the McKinney Independent School District's compliance with those requirements.

In our opinion the McKinney Independent School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Internal Control Over Compliance

The administration of McKinney Independent School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered McKinney Independent School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion of the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the McKinney Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards

For Year Ended June 30, 2013

1. For all federal programs, the District uses the fund types specified in Texas Education Agency's "Financial Accountability System Resource Guide." Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance is generally accounted for in a Special Revenue Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund that is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred expenditures until earned.

3. The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions of Section H, Period of Availability of Federal Funds, Part 3, OMB Circular A-133 Compliance Statement - Provisional 6/97.
4. The District participates in numerous Federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, in any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2013, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying financial statements for such contingencies.
