Independent Auditor's Report

Board of School Trustees
McKinney Independent School District
1 Duvall Street
McKinney, Texas 75069

Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District, McKinney Texas (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express an opinion on them based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District as of June 30, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 3 through 11 and the budgetary comparison information on page 46 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2009 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the T.E.A. required schedules listed in the table of contents are presented for additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, combining and individual nonmajor fund financial statements and the T.E.A. required schedules (except for Exhibit G-3, the Fund Balance and Cash Flow Calculation Worksheet, which is marked UNAUDITED and on which we express no opinion) have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the McKinney Independent School District annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2009. Please read in conjunction with the District's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets (Exhibit A-1) and the Statement of Activities (Exhibit B-1). These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (Exhibits C-1 and C-3) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (following Exhibit D-2) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA and begin with Exhibit F-1. Exhibits labeled Exhibit G, TEA Required Schedules, and Federal Awards, contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

REPORTING THE DISTRICT AS A WHOLE

Government-wide Statements: The Statement of Net Assets and the Statement of Activities

The government-wide statements (Exhibits A-1 and B-1) report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets, Exhibit A-1, includes all of the government's assets and liabilities. The Statement of Activities, Exhibit B-1, accounts for all of the current period's revenues and expenses.

The two government-wide statements report the District's *net assets* and how they have changed. Net assets, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, consider additional non-financial factors such as changes in the District's tax base.

Within the government-wide financial statements of the District, most of the District's basic services are included, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes, grants and state revenues finance most of the activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements (Exhibits C-1 and C-3) provide more detailed information about the District's most significant funds, not the District as a whole. Funds are a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives.

- Some funds are required by State law and bond covenants.
- Other funds are established to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

- *Governmental funds* – Most of the District's basic services are reported in governmental funds. The funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances at the end of the fiscal period. The governmental funds statements provide a detailed, short-term view of the District's general operations and the basic services it provides. The differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are described in reconciliation narratives following each of the fund financial statements. (Exhibits C-2 and C-4)
- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for money raised by student activities and alumnae scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets, Exhibits D-1 and D-2 respectively. These resources are excluded from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purpose.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets. The District's combined net assets were \$81,563,818 on June 30, 2009. (See Table A-1).

Governmental Activities-Changes in Net Assets

- Investment earnings decreased as interest rates fell.
- Expenditures for data processing services decreased in FY 09 due to FY 08 expenditures for the purchase of new software systems for both business and student applications.
- The increases in most expense categories were associated with additional staffing to accommodate student enrollment growth.

Table A-3 presents the cost of each of the District’s largest functions as well as each function’s *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this period was \$242,836,774.
- The amount paid by MISD taxpayers for these governmental activities through property taxes was \$136,040,083.
- Some of the cost (\$10,069,376) was paid by those who directly benefited from the programs or by grants and contributions of \$18,665,190.

The increased cost of services was primarily caused by additional cost necessary to provide services for an increasing student population. Average daily attendance increased by 4.2% from 21,120 in 2008 to 22,000 in 2009.

FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS

As the District completed the year, governmental funds (as presented in the balance sheet on Exhibit C-1) reported a combined fund balance of \$118,111,411 as compared to a fund balance ending June 30, 2008 of \$81,570,268. The primary reason for the increase was the fiscal year 2009 sale of Series 2009 Tax and Refunding bonds in May, resulting in an increase in fund balance in the capital projects fund.

General Fund Budgetary Highlights

During the course of the fiscal year, the District reviews and revises its budget on a monthly basis in accordance with Texas Education Agency Financial Accountability System Resource Guide standards. General Fund revenues for the fiscal year ended June 30, 2009 exceeded budget by \$875,398 due primarily to actual state revenues exceeding projections. Total expenditures for the fiscal year were \$3,422,804 under budget.

At the end of fiscal year 2008, the ending general fund balance of \$53.2 million represented 30.5% of the 2008-2009 final operating budget. At fiscal year-end 2009, the ending fund balance of \$49.5 million represented 27.6% of the 2009-2010 operating budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of 2009, the District had invested \$446,126,134 in a broad range of capital assets, including land, equipment, buildings, and construction in progress. (See Table A-4.) Construction in Progress decreased with the completion of Cockrill Middle School and Phase 2 of McKinney Boyd High School. Buildings and Improvements and Furniture and Equipment increased accordingly. Additional information on capital assets is contained in Note 4, Section D of the Notes to the Financial Statements.

Net capital assets	<u>\$ 446,126,134</u>	<u>\$ 435,262,831</u>	2.50%

At the 2009 year-end, the District had \$481,087,122 in bonds outstanding as compared to \$426,062,281 at 2008 year-end. More detailed information about the District's debt is presented in the Notes to the Financial Statements.

All of the District's bonds except the Series 2009 Bonds presently carry AAA Ratings by virtue of the Texas Permanent School Fund Bond Guarantee Program. The District's underlying ratings (and stand alone ratings in the case of the Series 2009 Bonds) are as follows:

Moody's Investor Services "Aa3"
Standard & Poor's "AA"

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Net taxable appraised value used for the 2010 budget preparation has decreased approximately \$8.0 million, which represents a decrease of less than 1.0% from 2009 values. New construction for 2010 amounts to approximately \$235 million, with a net of \$35 million lost to new exemptions.
- A comparison of budgeted general operating fund spending per pupil (based on fall enrollment) in the 2008-09 fiscal year of \$7,445 to the budgeted 2009-10 spending per pupil of \$7,447 represents a virtually unchanged spending allocation.
- The District's 2010 refined average daily attendance is expected to be approximately 22,668 which represents a 3.0% increase over 2009.

These indicators were taken into account when adopting the general fund budget for 2010. Revenues available for appropriation in the general fund budget are \$174,809,967 an increase of 5.1% over the final 2009 budget of \$166,300,371. The increase in available revenue is generated primarily by an increase in state aid for enrollment growth and teacher salary increase.

The District's 2010 tax rate is \$1.54, an increase of \$.023 all of which relates to the interest and sinking fund tax rate. As noted above, net taxable appraised value has decreased slightly creating a decrease in expected tax collections in the general fund. The net decrease in estimated local revenue is \$1.3 million. State funding will increase approximately \$9.9 million due to increased state aid. The following chart demonstrates the relationship of state and local funding for the past four years along with estimated amounts for 2009-10.

General fund expenditures for 2009-10 are budgeted to increase 2.7% to \$179.1 million. The largest increments are due to increased staffing for student growth, salary increases, and added costs for Lawson Early Childhood Development Center, which opened in August 2009.

2009-2010 Percent of General Fund Budget by Object

The District tax rate will be \$1.54 in 2010, with the debt portion at \$.50 and the M & O portion at \$1.04. The average taxable value of an average residence is expected to decrease slightly from \$201,768 to \$200,492 in 2010.

Historic Tax Rate Comparison

TEA implemented and has annually assigned financial accountability ratings to Texas state school districts since the 2001-2002 fiscal audit. The McKinney ISD has received a ‘Superior Achievement’ rating for all applicable fiscal years, which represents the highest rating that a district can achieve.

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

MCKINNEY INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET ASSETS
JUNE 30, 2009

Total Fund Balances - Governmental Funds	\$	118,111,411
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$516,859,625 and the accumulated depreciation was \$81,596,794. In addition, long-term liabilities, including bonds payable of \$416,887,223 are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net assets.		18,375,608
2 Current year capital outlays of \$24,035,843 and long-term debt principal payments of \$21,542,223 are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net assets.		45,578,066
3 Accrued interest payable on long-term debt is not reflected on the fund financial statements, but is shown on the government-wide financial statements. The effect of showing accrued interest payable is to decrease net assets.		(7,547,350)
4 The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net assets.		(13,139,199)
5 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to decrease net assets.		(79,814,718)

Year Ended June 30, 2009

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

McKinney Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial

statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain claims and judgements are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the “susceptible to accrual” concept, that is, when they are both measurable and available. The District considers them “available” if they will be collected within sixty days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Accounting

The District reports the following major governmental funds:

1. **General Fund** - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund types(s):

Governmental Funds:

1. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Fiduciary Funds:

2. **Private Purpose Trust Fund** - The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds are for scholarships.
3. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is for student groups.

E. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

E. Assets, Liabilities, and Net Assets or Equity (continued)

2. Due From (To) Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded in all affected funds in the period in which transactions are executed in the normal course of operations.

3. Inventories and Prepaid Items

In the General Fund, reported inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	20
Vehicles	10
Office equipment	7
Computer equipment	5

E. Assets, Liabilities, and Net Assets or Equity (continued)

5. Vacation and Sick Leave

Vacations are allowed to be accumulated but do not vest. Therefore, no liability has been accrued in the accompanying basic financial statements. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, a liability for unused sick leave has not been recorded in the accompanying basic financial statements.

6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. As of June 30, 2009, Reserved Fund Balance includes \$496,097 for inventories and \$445,035 for prepaid items in the General Fund and \$63,817 for prepaid items in the Capital Projects Fund. Debt Service Fund reserves total \$16,118,514 for retirement of funded indebtedness as of June 30, 2009. A total of \$48,623,949 has been designated for authorized construction programs in the Capital Projects Fund. The Special Revenue Fund reserves total \$1,090,448 for Food Service. Unreserved Designated Fund Balance includes \$89,032 for JJAEP in the General Fund.

8. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Liabilities, and Net Assets or Equity (continued)

9. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by T.E.A. in the *Financial Accountability System Resources Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a Statewide data base for policy development and funding plans.

10. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets

Exhibit C-2 provides a reconciliation between *fund balance - total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the full accrual basis of accounting." The details of this \$(79,814,718) adjustment are as follows:

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit E-1 and the other two reports are in Exhibit G-4 and G-5.

The following procedures were followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 19, the District prepares a budget for the next succeeding fiscal period beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (continued)

A. Budgetary Data (continued)

2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. The budget was properly amended throughout the year by the Board of Trustees.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

June 30, 2009 Fund Balance

Appropriated budget funds - Food Service Special Revenue Fund	\$ 1,090,448
Nonappropriated budget funds	<u>2,733,974</u>
All Special Revenue Funds	<u>\$ 3,824,422</u>

B. Encumbrance Accounting

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment or Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at June 30 and encumbrances outstanding at that time are either cancelled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at year end.

NOTE 4 DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

A. Deposits and Investments (continued)

At June 30, 2009, the carrying amount of the District's cash, savings, and time deposits was \$(784,319). The bank balance was \$972,932. The District's combined deposits at June 30, 2009 and during the year ended June 30, 2009 were fully insured by federal depository insurance or collateralized with securities pledged to the District and held by the District's agent.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Name of bank American National Bank of Texas.
- b. The market value of securities pledged as of the date of the highest combined balance on deposit was \$ 11,802,134.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$ 1,046,522 and occurred during the month of January.
- d. Total amount of FDIC coverage at the time of highest combined balance was \$ 250,000.

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit; (3) certain municipal securities; (4) money market savings account; (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Fund; (8) Investment pools; (9) guaranteed investment contracts; and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. Custodial Credit Risk - Deposits: In the case of deposits this is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's policy regarding types of deposits allowed and collateral requirements is: the Depository may be a state bank authorized and regulated under Texas law; a national bank, savings and loan association, or savings bank authorized and regulated by federal law;

- a. Custodial Credit Risk - Deposits: (continued)
or a savings and loan association or savings bank organized under Texas law; but shall not be any bank the deposits of which are not insured by the Federal Deposit Insurance Corporation (FDIC). The District is not exposed to custodial credit risk for its deposits, as all are covered by depository insurance and pledged securities.
- b. Custodial Credit Risk - Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District investments are with American National Bank of Texas, Texas Local Government Investment Pool ("TexPool"), and the TexStar Investment Pool ("TexStar"). The pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investments. Local investment pools operate in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940. The Texas Comptroller of Public Accounts exercises oversight responsibility over TexPool. Administration of TexStar is performed by a Board of Directors, which is an administrative agency created under the Interlocal Act. The District is not exposed to custodial credit risk for its investments.
- c. Credit Risk - This is the risk that an issuer of an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for TexPool at year end was AAAm by Standard & Poor's. The credit quality rating for TexStar at year end was Aaa by Moody's Investor Service.
- d. Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the District's investment in external investment pools is less than 60 days.
- e. Foreign Currency Risk - This is the risk that exchange rates will adversely affect the fair value of an investment. The District is not exposed to foreign currency risk.
- f. Concentration of Credit Risk - This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investments issued by the U. S. Government and investments in investment pools are excluded from the 5 percent disclosure requirement. The District is not exposed to concentration of credit risk.

The District's temporary investments at June 30, 2009, were as follows:

B. Property Taxes

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the period following the October 1 levy date. The assessed value of the property tax roll on August 1, 2008, upon which the levy for the 2008-09 fiscal period was based, was \$8,810,628,869. The roll was subsequently increased to a period end assessed value of \$9,084,822,065. Taxes are delinquent if not paid by January 31. Delinquent taxes are subject to both penalty and interest charges plus 15% delinquent collection fees for attorney costs after June 30.

The tax rates assessed for the period ended June 30, 2009, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$1.04 and \$0.477 per \$100 valuation, respectively, for the total of \$1.517 per \$100 valuation.

Total tax collections for the year ended June 30, 2009, were 100% of the period end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2009, property taxes receivable, net of estimated uncollectible taxes, totaled \$3,621,138 and \$1,496,024 for the General and Debt Service Funds, respectively.

C. Due From Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2009, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

There are a number of limitations and restrictions contained in the various general obligation bonds indentures. The District is in compliance with all significant limitations and restrictions at June 30, 2009.

G. Defeasance of Debt

On May 28, 2009, the District issued general obligation bonds (refunding bonds) of \$58,805,000 (par value) with an effective interest rate of 4.60 percent to advance refund a portion of the Unlimited Tax School Building Bonds, Series 1995, 1998, 1999, and 2001 (refunded bonds), with an effective interest rate of 5.04 percent and par value of \$34,595,000 and receive \$24,725,000 in new funds. The refunding bonds were issued at par and, after paying issuance costs of \$223,899 and underwriter's discount of \$335,757, and receiving a premium of \$2,937,235, the net proceeds were \$61,182,579. Of the net proceeds, \$24,740,000 was deposited to the Capital Project Fund. The remaining \$36,442,579 and \$872,010 from the Debt Service Fund was used to purchase U.S. Government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the refunded portion is paid. The advance refunding met the requirements of an in-substance debt defeasance and the refunded bonds were removed from the District's Long-Term Debt Payable.

G. Defeasance of Debt (continued)

As a result of the advance refunding, the District decreased its total debt service requirements by \$2,121,214, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$1,426,818. The District issued the refunding bonds in order to restructure the bond debt and to enable the District to issue additional bonds for the purpose of capital improvements with an approximate annual level debt service.

In prior years, the District defeased previously issued and outstanding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2009, \$70,470,000 of the bonds outstanding (including those defeased in 2009) are considered defeased.

NOTE 5 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2009, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

B. Litigation and Contingencies

The District is currently involved in various litigation. Management believes the District will prevail in each matter.

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2009, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

E. Health Care Coverage

For the year ended June 30, 2009, employees of the District were covered by the TRS active care insurance plan (the plan). The District paid premiums of \$250, per month per employee to the plan and employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to licensed insurer. The plan was authorized by Article 3.51-2., Texas Insurance Code, and was documented by contractual agreement.

Latest financial statements for the Blue Cross Blue Shield are available for the year ended December 31, 2008, are filed with the Texas State Board of Insurance, Austin, Texas and are public records.

F. Pension Plan Obligations

1. Teacher Retirement System of Texas

Plan Description - The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy - Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal year 2007, 2008 and 2009 and a state contribution rate of 6.0% for fiscal years 2007 and 2008 and 6.58% for fiscal year 2009. In certain instances

F. Pension Plan Obligations (continued)

1. Teacher Retirement System of Texas (continued)

the reporting district is required to make all or a portion of the state's 6.00% contribution for fiscal years 2007 and 2008 and 6.58% for fiscal year 2009. State contributions to TRS made on behalf of the District's employees for the years ended June 30, 2007, 2008 and 2009 were \$4,315,828, \$5,113,012, and \$5,816,642, respectively. The District paid additional state contributions for the years ended June 30, 2007, 2008 and 2009 in the amount of \$1,141,924, \$1,640,148, and \$1,855,111, respectively, on the portion of the employees' salaries that exceeded the statutory minimum.

2. Teacher/Employee Recruitment and Retention Program Trust

Plan Description - The District contributes to the Teacher/Employee Recruitment and Retention Program Trust. The Trust is a defined contribution retirement plan. The Trust's annual financial report and other required disclosure information are available by writing the TERRP Plan Administrator, JEM Resource Partners, 4201 Bee Caves Road, Suite C-101, Austin, Texas 78746.

Funding Policy - Under the plan provisions, the District contributes 100% of plan members contributions to their 403(b) or 457 plan, up to one-half of one percent of the plan member's gross annual compensation. District contributions for the year ended June 30, 2009 were \$189,262. Plan members are 100% vested in their account after attaining five credited years of participation in the plan. Upon meeting the requirements of "qualification for unreduced retirement" in accordance with the Teacher Retirement System of Texas, obtaining normal retirement age, or upon death or permanent disability, a plan member shall be 100% vested regardless of years of service.

G. Retiree Health Plan

Plan Description - The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

NOTE 5 OTHER INFORMATION (continued)

G. Retiree Health Plan (continued)

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2007, 2008, and 2009. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2007, 2008, and 2009, the State's contributions to TRS-Care were \$943,547, \$1,078,379, and \$1,205,268, respectively, the active member contributions were \$613,306, \$700,953, and \$783,431, respectively, and the school district's contributions were \$518,951, \$593,094, and \$662,895, respectively, which equaled the required contributions each year. In addition to the pension plan and TRS-Care on behalf, the District is allocated a portion of the Medicare Part D retiree drug subsidy the TRS-Care receives. The amount allocated on behalf for the year ended June 30, 2009 is estimated by TRS at \$269,232.

H. Workers' Compensation Insurance

During the year ended June 30, 2009, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the District is responsible for a certain amount of claims liability as outlined on the District's Contribution and Coverage Summary document. After the District's deductible has been met, the Fund is responsible for additional claims.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.5 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully fund those reserves. As of August 31, 2008, the Fund carries a discounted reserve of \$76,073,881 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2008, member districts will have no additional liability beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each plan year on August 31 and is approved by the Fund's Board of Trustee in February of the following year. The Fund's audited financial statements as of August 31, 2008, are available at the TASB offices and have been filed with the Texas State Board of Insurance in Austin.

 FUND BALANCE AND CASH FLOW CALCULATION WORKSHEET
 FOR THE YEAR ENDED JUNE 30, 2009

UNAUDITED

1	Total General Fund Balance as of 6/30/09 (Exhibit C-1 object 3000 for the General Fund Only)		\$ 49,480,709
2	Total Reserved Fund Balance (from Exhibit C-1 - total of object 3400s for the General Fund Only)	\$ 941,132	
3	Total Designated Fund Balance (from Exhibit C-1 - total of object 3500s for the General Fund Only)	89,032	
4	Estimated amount needed to cover fall cash flow deficits in the General Fund (Net of borrowed funds and funds representing deferred revenues.)	27,304,364	
5	Estimate of one month's average cash disbursements during the regular school session (9/1/09-5/31/10).	14,925,032	
6	Estimate of delayed payments from state sources (58xx) including August payment delays	3,887,885	
7	Estimate of underpayment from state sources equal to variance between Legislative Payment Estimate (LPE) and District Planning Estimate (DPE) or District's calculated earned state aid amount.	-	
8	Estimate of delayed payments from federal sources (59xx)	819,026	
9	Estimate of expenditures to be reimbursed to General Fund from Capital Projects Fund (uses of General Fund cash after bond referendum and prior to issuance of bonds)	-	
10	Optimum Fund Balance and Cash Flow (Lines 2+3+4+5+6+7+8+9)	47,966,471	
11	Excess (Deficit) Undesignated Unreserved General Fund Balance (Line 1 minus Line 10)	\$ 1,514,238	

Explanation of need for and/or projected use of net positive Undesignated Unreserved General Fund Fund Balance:

The excess balance represents approximately 3 percent of the optimum fund balance and cash flow. The balance should be decreased in the 2009-2010 school year as the District adopted a budget which will be financed in part by the use of fund balance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Board of School Trustees
McKinney Independent School District
1 Duvall Street
McKinney, Texas 75069

Members of the Board:

We have audited the basic financial statements of McKinney Independent School District, McKinney, Texas, as of and for the year ended June 30, 2009, and have issued our report thereon dated September 16, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered McKinney Independent School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements but not for the purpose of expressing an opinion on the effectiveness of McKinney Independent School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of McKinney Independent School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principals such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses as defined above.

Compliance

As part of obtaining reasonable assurance about whether McKinney Independent School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of the District's trustees, the audit committee, the administration, the Texas Education Agency, and federal awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH
OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
McKinney Independent School District
1 Duvall Street
McKinney, Texas 75069

Members of the Board:

Compliance

We have audited the compliance of the McKinney Independent School District, McKinney, Texas with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. McKinney Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of McKinney Independent School District's management. Our responsibility is to express an opinion on McKinney Independent School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about McKinney Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on McKinney Independent School District's compliance with those requirements.

In our opinion McKinney Independent School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The administration of McKinney Independent School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered McKinney Independent School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion of the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or a combination of significant deficiencies that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

This report is intended for the information of the District's trustees, audit committee, administration, the Texas Education Agency, and federal awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.
