School Health Services**

Health Screenings

Dear Parents/Guardian,

Health screenings for all students of McKinney ISD will be during the first semester of school. Screenings will be conducted during _____ class.

Texas State Law requires that the following students be screened:

Vision and Hearing	PK,K, 1 st , 3 rd , 5 th , 7 th All students new to McKinney ISD
Spinal	Girls will be screened two times, once at age 10 and again at age 12 Boys will be screened one time at age 13 or 14
Acanthosis Nigricans	1 st , 3 rd , 5 th , 7 th

Please make sure that your child is at school on the screening days. These screenings help us identify possible health problems that could interfere with your child's success at school.

Please have your child bring any required glasses or contacts to school for health screenings.

Scoliosis screenings will be performed by the campus nurse or an MISD employee certified by the Department of State Health Services (DSHS) for spinal screenings. These screenings require that the student remove his/her shirt only. These screenings will take place in an area that insures privacy. Boys and girls will be screened separately.
