## SUPERINTENDENT'S MESSAGE

Dear McKinney ISD Student,

We hope that you will share our excitement as you begin the very important planning phase for the upcoming 2022-2023 school year. We present to you this Academic Planning Guide as an informational and instructional tool, in order for you to make the best decisions impacting your educational future. This document is truly a road map to your academic success and is a result of a collaborative effort of the McKinney ISD Learner Support Department, Career and Technical Education Department, and the Department of Counseling. Our desire is that it will provide you and your parent(s) or guardian(s) with a guide that has been specifically designed to help you fully prepare to accomplish your college and/or career aspirations.

We understand that choosing the right courses and graduation plan can be difficult. A detailed description of the four year plan and available endorsements provided by McKinney ISD are included in this planning guide. While this process may seem complex, you should be encouraged to know that we have an entire team of counselors and campus staff ready to help guide you. The academic programs in McKinney ISD are rigorous and relevant to your needs, not only today, but for tomorrow. We encourage you to challenge yourself when choosing courses, and choose a career path that will help you achieve all of your aspirations.

Please carefully review the courses and graduation programs covered in the Academic Planning Guide, and seekinput from your parent(s) or guardian(s). It is important for you to remember that your school counselor is a valuable resource for answers to questions. In addition, McKinney ISD has made available for all 6<sup>th</sup>-12<sup>th</sup> grade students a college and career online planning tool, Naviance, to help students successfully create a four-year high school graduation plan. See your counselor for more details and information. Remember, a counselor's primary responsibility is to be available to you and to help you as you develop a plan that meets your individual needs.

We hope that you will have fun and enjoy the process of planning for what we all desire to be the best of experiences for you. You have the unique privilege of choosing courses and a career path that will help you prepare for *your* future, wherever that journey takes you. So, take your time and choose a graduation plan equipped with courses that will inspire you, challenge you, and set you on a path for success. On behalf of the McKinney ISD staff and Board of Trustees, I wish you success in the upcoming year, and we look forward to doing whatever we can to ensure that you are successful.

Sincerely,

Rick McDaniel, Ed.D. Superintendent

# MISD VISION, MISSION AND BELIEFS

VISION: We are a cohesive, diverse community providing engaging learning experiences for all.

**MISSION:** We will provide engaging learning experiences so students can become effective communicators, quality contributors, and socially responsible citizens.

#### **BELIEFS:**

- Partnerships between students, parents, community members, and staff are foundational to educational success.
- Positive school culture and a safe environment foster growth.
- Everyone has inherent value and deserves to be treated with dignity and respect.
- Learning is an active process requiring engaging tasks and engaging minds.
- Relevant and authentic experiences ignite continuous, deeper learning.
- Meaningful relationships enrich learning.
- Confidence fuels risk taking and higher achievement.
- Financial stewardship ensures a tomorrow for education.

# **MISD GRADUATE PROFILE**

**Effective Communicator:** Comprehends and expresses ideas clearly through various means and modes of communication. Effective communicators can interpret and decode meaning through varied forms including listening, reading, speaking, writing, interpreting and creating graphic images, and mathematical interpretations of symbols.

- Technologically literate
- Collaborative

- Capable listener
- Kind and Respectful
- Financially literate
- Information literate

**Socially Responsible Citizens:** Understands and appreciates cultural differences, their contributions, impact and interrelatedness in a global economy. Socially responsible citizens understand the importance of being a contributing member of a democratic society in a diverse world and will make ethical decisions with the improvement of future societies in mind.

- Ethical
- Globally aware

- Community contributors
- Values equality and justice
- Appreciates diversity
- Reflective

**Quality Contributor:** Continually seeks to achieve quality results and outcomes through individual accountability, leadership, teamwork, and lifelong learning using multiple methods of technologies and resources. Quality contributors are creative, innovative thinkers that can solve complex problems to achieve quality results through meaningful research.

- Critical thinker
- Innovative

• Risk taker

• Creative

- Individually accountable
- Continuous learner

### NON-DISCRIMINATION ASSURANCE

McKinney Independent School District does not discriminate on the basis of race, religion, color, national origin, sex or disability in providing education or providing access to benefits of education services, activities, and programs, including career and technology programs, in accordance with Title VI of the Civil Rights Act of 1964 as amended; Title IX of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, as amended; and Title II of the Americans with Disabilities Act.

This document serves as a guide. The official document will be the current one posted on the MISD website. Any errors do not supersede local Board and/or state Board policies.

### **GENERAL INFORMATION**

This guide assists McKinney ISD students in making course selections and planning their academic futures. We encourage students and parents to read this guide carefully. Counselors are available to work with students, parents, and teachers to select appropriate courses that are challenging and meet graduation requirements. Catalogs, handbooks, and Internet sources are available to students seeking post high-school educational opportunities. These opportunities include two-year and four-year colleges and universities, vocational schools and the armed forces. Financial aid resources and workshops are also available.

For more information, please contact the appropriate school counseling center:

McKinney Boyd High School (469) 302-3400 McKinney High School (469) 302-5700 McKinney North High School (469) 302-4300

### **COURSE DESCRIPTIONS**

Students and parents should work together to explore MISD's course offerings. Course descriptions are arranged by subject and begin on p. 27. Each course description will feature information about the grade level and the required and recommended prerequisites that must be satisfied prior to enrollment in the course. Some courses will require an application, a fee, and/or instructor approval. Not all courses are offered at all campuses. If you choose courses that are not offered at your zoned campus, you must either apply to transfer to that school or provide your own transportation in order to participate.

## **COURSE SELECTION PROCESS**

Each year, students will receive a course selection card, also known as a personal graduation plan. This document will enable the student and parent to set academic and personal goals for the year, indicate desired coursework, and provide alternate elective choices for the student if the first choice selections are unavailable. Course selections should incorporate knowledge of graduation requirements, student interests and abilities, and desired college and career outcomes. Your course selection card will be due to your campus counselor according to the schedule provided by the campus. Please be aware of specific program and application deadlines as well as your campus registration deadlines. In April, students will have an opportunity through the course verification process to indicate any desired changes.

The priority deadline for change requests is May 2, 2022.

### **COURSE APPLICATIONS**

Beginning January 10, you may apply for courses that have an application. Information and links to the forms are available here: <a href="www.tinyurl.com/misdapps">www.tinyurl.com/misdapps</a>. Students are encouraged to apply as soon as possible. Priority consideration will be given to applications received by February 25, 2022.

### SCHEDULE CHANGE GUIDELINES

In order to provide course continuity, enhance student learning and allow accurate projections of course offerings and class size, schedule changes after the deadline are limited to when the student:

- Failed a required course and must make room to repeat the necessary course
- Is erroneously enrolled in a specific course for which they have already earned credit
- Is a senior and needs to drop a course in order to enroll in a course needed for graduation
- Has not completed the necessary prerequisite course to proceed in the enrolled course
- Desires to repeat a failed course in the classroom of a different teacher than they had during the first attempt

Requests for schedule changes meeting the criteria above must be initiated ONLY during the first five days of each semester. Schedule changes will always be subject to course availability.

Requests to exit from weighted courses (Level II and Level III) to academic courses (Level I) are subject to the Weighted Course Agreement. See p. 18 of this guide for more information.

# **ACADEMIC ADVISING EXPECTATIONS**

In accordance with TEC § 28.02121, MISD encourages students to actively plan for the future. The knowledge base and work habits developed over the course of high school lay the foundation for successful pursuit of postsecondary success. While every student's journey is unique, our beliefs, mission and graduate profile shape our academic advising expectations. We believe that the following expectations will provide the most secure base for navigating the changing world of work.

- MISD believes that all students need to be college and career ready. As encouraged in TEC § 28.002 (g), we expect students to continue in core courses each year of high school even if all minimum state graduation requirements have been met. Moreover, we have an expectation for students to complete courses such as Algebra II, Physics and English IV so that they will meet a broader selection of college and university admission requirements and will have a better preparation for success once postsecondary studies have begun.
- Students should select courses with their interests, abilities, outside commitments and personal goals in mind. While varied interests and program participation can be stimulating, students should reflect on the amount of time that is necessary to perform successfully in multiple strands of advanced coursework, extracurricular involvement, volunteer work and other activities. Strong attention to advance planning will help students set goals, make decisions, balance priorities and maximize the benefit of their high school experiences.
- MISD supports several options for students to engage in academic challenges and rigorous learning experiences such as:
  - Advanced Placement or Dual Credit courses to experience a college-level curriculum
  - A sequence of Career and Technical Education courses to explore careers and seek certifications and licensure as available
  - Three or more years of a language other than English to prepare for a global workplace
  - Multiple years of excellent programming in areas like Fine Arts, Computer Science, Athletics and AVID

### Note to middle school parents and students:

Courses taken for high school credit in middle school count for credit but are not figured into GPA and rank at high school. Colleges or NCAA may recalculate your GPA when making admission considerations and may use these classes. Credits taken in middle school may allow for more flexibility in high school planning, but are not meant to reduce high school expectations. For example, taking Algebra in middle school should not be used as a plan to not take a math course senior year. Instead, it should allow students to reach higher levels of math.

### PLANNING YOUR HIGH SCHOOL PROGRAM

Seniors (Grade 12)

#### Start the year with a strong plan for your studies and activities:

- Plan a schedule with rigorous coursework and activities. Colleges do look at senior courses and grades in making admission decisions. Admissions officers will consider many factors when determining the likelihood that an applicant will be prepared to progress academically on the college campus.
- Review your grade point average and your test scores to help you prioritize your time and assist you in planning for your journey beyond high school.

#### **Stay Active:**

- Participate in school-related activities and community service. Institutes of higher learning consider a student's involvement in activities other than academics. Consider working a part time job or participating in an internship. It can be very beneficial to connect with a mentor in your chosen area of study.
- Re-take the SAT/ACT in the fall. Review SAT/ACT scores when available and take again in December if necessary. Don't miss the registration deadline!
- If you plan to go to college in Texas, you are subject to the Texas Success Initiative to demonstrate college readiness. Note that if you meet the requirement for exemption such as through your ACT or SAT score, you must alert your prospective institution. You can learn more about TSI here:

  www.thecb.state.tx.us/TSI

#### Pursue your plan:

- Log in to your Naviance account often! Students can use Naviance tools to research colleges, order transcripts, utilize the common application, stay informed on upcoming college visits to the campus, and learn about scholarships. See your counselor for details.
- Attend College Night in the fall and McKinney Education Foundation (MEF) College Information Seminars to gain information on the college admission and financial planning process.
- If you have the opportunity, visit your top choice colleges. Seniors are allowed two excused absences to visit prospective institutions. Be sure to turn in appropriate documentation from the college you visited. See your counselor or attendance office with any questions.
- Apply to colleges early in your senior year. Many schools have early November deadlines. Institutional scholarship deadlines are December 1<sup>st</sup> in many cases. Use application sites like Apply Texas or Common App to streamline the application process.
- Complete the Free Application for Federal Student Aid (FAFSA) or Texas Application for State Financial Aid (TASFA) in the fall of your senior year. Many institutions will require this in order to be considered for scholarships.

#### Juniors (Grade 11)

### Take on challenges:

- Take rigorous courses and do your best at earning high grades in all classes. When you initially apply to college next year, they will be considering the grades you've earned through the end of your junior year.
- Discuss your grade point average and test scores with your counselor to make wise choices about junior and senior classes and college options. Some colleges or programs may have additional course requirements beyond the state graduation plan. For instance, some engineering programs may require Pre-Calculus and/or Calculus. It is important to research the requirements of your prospective colleges when finalizing course selections. Review and update your four-year plan for graduation.
- Consider taking courses through correspondence, dual credit, summer school or online to make space for additional classes during the school year. Additional credits are impressive to colleges.
- Take three years of language other than English. It demonstrates your desire to be more competitive and prepared for college. This may be a requirement for some university admissions and programs.

#### Prepare for standardized testing:

- Plan to take the PSAT/National Merit Scholarship Qualifying Test in October. The PSAT is administered
  only in October. Use the PSAT score report to study and improve your SAT score. You must register to take
  the exam. The district also offers Blitz camps to improve scores, so take advantage of the additional
  preparation. See your counselor for details.
- Take the SAT or ACT in the spring of the junior year and use your score report to study and improve your score when the SAT is repeated in the senior year. The district also offers Blitz camps to improve scores, so take advantage of the additional preparation.
  - o SAT website <u>www.collegeboard.org</u>
  - o ACT website http://act.org

#### Gather and organize your information:

- Maintain an updated resume and portfolio of accomplishments.
- Log in to your Naviance account often to continue searching for colleges, to keep learning about careers and to seek information about scholarships. See your counselor for details.
- Visit colleges. Many colleges will offer special perks to students that visit. Additionally, an increasing number of intuitions are now offering "virtual tours" and maintain a strong presence on social media. Juniors are allowed two excused absences to visit prospective institutions. Be sure to turn in appropriate documentation from the college you visited. See your counselor or attendance office with any questions.
- Attend MISD College Night in the fall and gather information on colleges and careers.
- Develop a list of five to seven schools that you are planning to apply to in the fall. Look up their application deadlines and other details about admissions.
- If you are planning to participate in college athletics, review the eligibility guidelines of your governing association (NCAA, NAIA, NJCAA, etc.)

### **Sophomores (Grade 10)**

#### **Push yourself to do your best:**

- Plan your schedule thoughtfully to complete required courses for graduation and to satisfy prerequisite courses for electives you want to take in grades 11 and 12. Review and update your four-year plan.
- Review your transcript and verify grade point average and rank. Set a goal for your grades this year.
- Read challenging books on a variety of topics, including non-fiction and biography pieces. Write as often as you are able. Ask questions in your classes and attend tutoring. Form study groups with your peers.
- Take the PSAT in October for practice. The PSAT will help prepare you for the National Merit Scholarship Qualifying Test in the grade 11. You will automatically be registered for the exam.
- Consider taking courses through correspondence, dual credit, summer school or online to make space for additional classes during the school year. Additional credits are impressive to colleges.
- Take three years of language other than English. It demonstrates your desire to be more competitive and prepared for college. This may be a requirement for some university admissions, or admission to certain programs.

#### Narrow your interests and revise your planning:

- Log in to your Naviance account often to keep searching for college and career information. Make it a point to share your interests with your counselor.
- Look for opportunities to interact with mentors in your career interest.
- Research the educational and certification requirements for careers that interest you. Locate colleges and universities that have programs in your desired field of study.

#### Seek leadership roles in your activities or unique ways to contribute to your community:

- Keep an updated resume and portfolio of accomplishments.
- Offer to get involved and follow through with your commitments. Focus on quality work rather than quantity of activity.

### Freshmen (Grade 9)

#### Explore your interests and graduation requirements and confirm your Four Year Plan:

- Select courses that meet graduation requirements but also ensure or increase college readiness skills and/or prepare you for your career focus. Plan to take courses that are relevant to your goals and aspirations each year. Create a four- year plan for graduation in 8th grade to plan courses for freshman year. As you prepare to register for your sophomore year, reassess and adjust your plan as needed. Plan to schedule prerequisite courses for electives you want to take in grades 10, 11 and 12.
- Log in to your Naviance account often to keep searching for college and career information.
- Consider taking courses through correspondence, dual credit, summer school or online to make space for additional classes during the school year. Additional credits are impressive to colleges.

#### Master organization and study skills:

- Get comfortable attending tutoring, participating in study groups, and taking notes during class. It is helpful to learn a system such as Cornell notes to help you tackle challenging concepts.
- Actively develop your vocabulary. Read and write as often as possible.
- KEEP A PLANNER! Break large assignments into a series of manageable steps. Check in with your teacher regularly as you work through your steps. Be sure to look for and write down lesson objectives and information about upcoming assignments.
- Remember that courses and grades determine the grade point average used by the school and colleges. Your rank is based on your grade point average.
- Keep written goals and revise them often. Share your aspirations with your friends and family, your school counselor, your administrator, your teachers and any other important adults in your life.

#### Get connected to the life of the school:

- Participate in school related activities and community service.
- Get involved in coursework that spans multiple years of study. Try to stay committed to your chosen programs so you can build on your knowledge each year.

### **MCKINNEY EDUCATION FOUNDATION (MEF)**

The McKinney Education Foundation is a non-profit education foundation created to centralize, simplify and enhance the process of raising money for and awarding scholarships to deserving graduates in MISD. MEF also has advisors who specialize in higher education admissions to help students apply for and find additional funding for college. Discover more at: <a href="http://www.mmeeff.com/">http://www.mmeeff.com/</a>

### FINANCIAL AID INFORMATION

Students who meet the MISD curriculum requirements for graduation are eligible to apply for financial aid for postsecondary education. To apply for federal and state financial aid, complete the FAFSA available online or via phone app at <a href="https://fafsa.ed.gov">https://fafsa.ed.gov</a>. It is important to apply for financial aid early in the senior year. Priority deadlines may be as early as December 15. Students that are not eligible to fill out the FAFSA may still apply for state aid through the TAFSA application. For additional information about Texas financial aid, visit: <a href="http://www.collegeforalltexans.com">http://www.collegeforalltexans.com</a>. Texas also offers aid through the Hazlewood Act which provides tuition benefits for qualified veterans and dependent children. You may learn more at this website: <a href="https://www.tvc.texas.gov/education/hazlewood-act/">https://www.tvc.texas.gov/education/hazlewood-act/</a>

## ONLINE COLLEGE & CAREER PLANNING TOOLS

McKinney ISD is proud to partner with Naviance to offer a college and career planning portal to all secondary students. Naviance helps students and families connect what students do in the classroom to their life goals, including finding colleges and careers based on their personal skills and areas of interests. The Naviance platform gives schools, parents and students a central location to set goals and priorities for individual students, track their progress, and measure student outcomes across their entire student population in order to improve college and career readiness. Naviance helps students plan a course of action to reach their goals, find resources to prepare academically, and discover their own path.

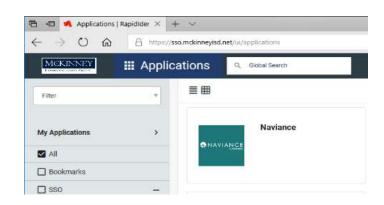

### **Connect Learning and Life**

Naviance enables students to find college and career pathways that are right for them:

- Set personalized goals and keep notes on the 4 Year Plan
- Assess strengths with a suite of career and learning style assessments
- Explore career options based on interests
- Search for colleges and maintain lists of potential college matches

- Review credits earned and view GPA and rank
- Research scholarships and other financial planning information
- Order transcripts and track their submission
- Apply to schools that use the Common Application

Students can access Naviance through the McKinney ISD SSO. Look for the green icon pictured on the right.

### **ADDITIONAL ONLINE RESOURCES**

This list is provided as a service to MISD students and families. There is no intent on the part of MISD to endorse the organizations and web resources listed below nor is this list inclusive of all possible resources. The student and family are free to obtain information from any other source.

# **GRADUATION PLANNING**

Students in Texas earn their diploma by accumulating credit for courses taken in specific areas and by passing the related state mandated assessments.

#### **COURSE CREDIT**

Students receive credit for courses by earning a grade of 70 percent or better. For courses that are one full year, students may earn credit if their average for the year is a 70% or higher. A course may not be repeated once credit has been earned. According to state law, students must attend 90 percent of the days a class is offered to receive credit.

#### STAAR/EOC TESTS

Students will be required to take the State of Texas Assessments of Academic Readiness (STAAR) End of Course Assessments (EOC). For more information about STAAR go to the website at: <a href="http://tea.texas.gov/student.assessment/staar/">http://tea.texas.gov/student.assessment/staar/</a>

#### **ENDORSEMENTS**

To address college and career readiness and postsecondary planning, students are required to plan their program of study to include courses that are connected by an endorsement area. Five endorsements are available:

- Arts and Humanities
- Science, Technology, Engineering and Mathematics (STEM)

- Public Service
- Business and Industry
- Multidisciplinary

An initial endorsement will be chosen in  $8^{th}$  grade and confirmed in  $9^{th}$  grade. For more information on endorsements, see the *McKinney ISD Endorsement Guide*.

#### SAMPLE GRADUATION PLANS

MISD has developed basic sample graduation plans, including endorsements, designed by career and college options. Please take some time to review these career pathways during course registration.

#### **COLLEGE ADMISSION REQUIREMENTS**

MISD encourages students and parents to research admission requirements at prospective institutions to assist in course planning. There can be a difference between the state requirements and the expectations for general college admissions or specific majors.

#### DISTINGUISHED LEVEL OF ACHIEVEMENT

Per the Academic Advising Expectations discussed on p. 4, MISD encourages students to pursue a Distinguished Level of Achievement. We believe this coursework will provide the most secure foundation for postsecondary success. In addition, students must graduate with this credential in order to be eligible for recognition in the Top 10% of their graduating class.

#### PERFORMANCE ACKNOWLEDGEMENTS

In addition to the endorsements mentioned above, students may be eligible to receive a performance acknowledgement for strong achievement in Advanced Coursework, Bilingualism, Advanced Examinations, College Readiness Examinations or Workforce Readiness Examinations. See your counselor for more information.

#### OTHER CURRICULUM REQUIREMENTS

In accordance with TEC §74.38, students in Texas are required to receive instruction in Cardiopulmonary Resuscitation (CPR). In MISD this instruction occurs in Health. Per TEC §74.39, students who enter grade 9 in 2018-19 or later will also receive instruction in proper interaction with peace officers.

#### BENEFITS OF EARNING AN ENDORSEMENT

TEA provides a graduation toolkit found at <a href="http://tea.texas.gov/communications/brochures.aspx">http://tea.texas.gov/communications/brochures.aspx</a>. This toolkit is designed to guide students and families through the benefits of each endorsement to increase the likelihood of preparation and success in college and the workforce. It also includes information on various workforce resources provided through the Texas Workforce Commission. These resources are geared toward assisting students and parents in planning for postsecondary goals.

#### REQUIRED NOTIFICATION REGARDING ALGEBRA II

A student who graduates on the Foundation High School Program without taking Algebra II is not eligible for automatic admission to a Texas public college or university and may not be eligible for certain forms of financial aid. For more information visit: https://tea.texas.gov/Academics/Graduation Information

### **GRADUATION IN MCKINNEY ISD**

The chart below lists courses that should be taken in specific subject areas to earn a high school diploma. Students may elect to graduate with a Foundation plus Endorsement or with a Distinguished Level of Achievement.

Students must also meet expectations for performance in the STAAR EOCs and must complete requirements for an endorsement. Following this chart is a transcript review tool that is designed to help students track their progress in earning credits towards graduation. Students may refer to prior report cards or access a list of grades and credits earned in Naviance.

NOTE: MISD offers a variety of coursework at different levels of academic intensity and rigor. Many of the courses listed below are offered as an academic grade level (Level I) course, as an Advanced, Advanced CTE or Dual Credit (Level II) or as an AP or Advanced CTE (Level III) course. See the course descriptions for more information.

### **EARLY GRADUATION**

Students must apply for early graduation no later than the spring of their junior year. Applicants should obtain credit verification with a counselor to formalize the student's plan for early graduation. Parent and principal approval are required. Students meeting graduation requirements before the scheduled graduation ceremonies may participate in the ceremonies. Students scheduled to complete credits during the summer after graduation may participate in the summer ceremony. Diplomas will be available once summer or correspondence work is posted to the transcript.

### GRADE CLASSIFICATION

Students are classified by grade level based on the number of credits earned. Students are reclassified at the beginning of each school year. A student may be reclassified at the end of the fall semester pending principal approval. Number of credits required for grade classification is as follows:

# **LOCAL CEDIT/NO STATE CREDIT COURSES**

The following courses are local credits that do not count toward state graduation requirements or overall grade point average:

- Office aide
- AVID tutor
- Student government leadership second year and beyond
- Independent Studio

### EMBEDDED COURSEWORK

Students in MISD may earn more than one credit in one period by studying the TEKS associated with two subject areas during the period. Embedded credit is only available if the teacher is certified in both areas. The "bonus" credit will appear on the schedule in a zero or eighth period. The grade earned will appear on the transcript and be calculated into the GPA. See your campus counselor for more information.

### **GPA EXEMPT COURSES**

To encourage students to participate in upper level courses and to retain and recruit students with specific interests, McKinney ISD will allow students to apply for a GPA exempt grading option. This option is helpful for students with a weighted GPA of 4.0 or greater. It is available for Juniors and Seniors only and for any 4.0 (Level I) course listed below. Students may earn up to four credits (eight semesters) through the GPA exempt option and must have completed all graduation course requirements in that area to apply. Courses that have an embedded credit, are only eligible for the GPA exemption to the main course and NOT the embedded credit course. There is an application process and a deadline to request GPA exemption. See your counselor for more information.

#### **Courses Eligible for GPA exemption are:**

- Athletics—Continuous enrollment for 3-4 years in any designated athletic course regardless of sport, does not include PE
- Fine Arts—Continuous enrollment for 3-4 years in band, color guard, choir, orchestra, theatre, dance/drill team
- Career and Technical Education—3rd or 4th course within a career cluster sequence
- Electives—a non-weighted 5<sup>th</sup> science credit (such as Forensic Science, Aquatic Science, Principles of Technology or Advanced Animal Science), Advanced Journalism II, III & IV, Editorial Leadership, Debate III and IV, Student Government Leadership I, AVID III and IV, PALS I and II, JROTC III and IV

### **SUMMER SCHOOL INFORMATION**

Students in MISD may enroll in summer school to remediate credit for a failed course (credit recovery) or may enroll to earn credit in a subject the student has not yet taken (acceleration). Students often choose to accelerate credit to make room in the next year's schedule for desired electives, to study an area of interest or to meet the requirements of an early graduation plan. Courses may be offered in a face to face setting or through a self-paced online system. Face to face classes often have limited capacity for enrollment, so early registration is recommended. Attendance to all scheduled face to face classes is mandatory. Even students taking an online course must be available in person to take the exam at the end of the course. Online courses and courses completed prior to 9<sup>th</sup> grade do not count in the GPA and rank. Face to face classes taken after 9<sup>th</sup> grade count in the GPA and rank.

Information about summer school dates and registration procedures will be released later this spring.

### OTHER SUMMER PROGRAMS

The district may offer additional programs in the summer of 2022 based on student needs. For instance, students that need additional instruction to prepare for the STAAR EOC will have access to instructional support in June. Summer testing will be June 21-24. Other possible summer programs may include Athletics camps, Fine Arts programming, language support courses for newcomers and other enrichment programs.

# ACADEMIC PROGRAMS

MISD offers programs that support students at all academic levels. Students who need support for special education, sheltered English as a Second Language (ESL) class, and gifted and talented may find out more information by contacting the counselors at their home campuses.

ALPHA-GIFTED AND TALENTED PROGRAM offers educational opportunities for gifted and talented students in the four core areas. Identified students are served in separate GT sections, GT clusters in Advanced and AP classes and independent study in areas of the student choice. All students new to MISD must follow the screening/ selection procedures for possible program admission. GT students who transfer from within the district automatically continue program placement. Referral forms for the ALPHA program are made available to all teachers, parents, and students through the administrator, counselor, GT specialist, or on the district website. Read more at: https://www.mckinneyisd.net/curriculum-and-instruction/gifted-talented/

**SPECIAL EDUCATION SERVICES** MISD offers special education services for students from age 3 - 21. Placement in any special-education class depends on eligibility and the decision and placement of the Admission, Review and Dismissal (ARD) Committee. A number of special education programs and classes are offered at the high school level. All special education courses are taken for credit, as are general education courses. Read more at: <a href="https://www.mckinneyisd.net/special-populations/">https://www.mckinneyisd.net/special-populations/</a>

ENGLISH AS A SECOND LANGUAGE (ESL) CLASSES are offered at all MISD secondary campuses. These classes are foundation courses that consist mostly of ELL students. Sheltered courses deliver the grade- appropriate curriculum in a language and vocabulary- rich environment that helps English Language Learners (ELLs) succeed with the grade-level curriculum while continuing to develop their English language proficiency. English is the language of instruction in sheltered classes; however, primary language support is encouraged to ensure that the student fully understands the material. Students must be recommended for sheltered classes based on language proficiency needs. Course offerings may vary by campus depending on number and needs of the ELL population. Read more at: <a href="https://www.mckinneyisd.net/bilingual-esl/">https://www.mckinneyisd.net/bilingual-esl/</a>

## **CORRESPONDENCE COURSES**

All high school students are eligible with prior approval to take correspondence courses and earn credit toward graduation, however, students are expected to consult with their counselor regarding course selection and sequencing. MISD approves courses taken through The University of Texas at Austin (<a href="https://highschool.utexas.edu/">https://highschool.utexas.edu/</a>), Texas Tech (<a href="http://www.depts.ttu.edu/k12/">https://www.pisd.edu/eschool</a>). Counselors have specific information regarding all correspondence courses.

#### **Correspondence Course Guidelines:**

- Prior to enrollment, a student must make a written request to the principal or designee for approval to
  enroll in the course. Credit toward graduation may not be awarded if approval was not granted in writing prior
  to enrollment.
- Correspondence courses cannot be averaged with a semester of coursework taken during the regular school year nor can they be averaged with another correspondence class.
- A senior, who is enrolled in a correspondence course and requires the credit for graduation, will complete the course and submit the grade for recording at least 30 days prior to the graduation date in order to be eligible for graduation at the end of the term.
- A student graduating early must follow the individual graduation contract approved by the principal.
- Grades will not count toward GPA or rank, but will appear on the transcript.
- Most correspondence exams require a proctored exam at the conclusion of the coursework. Please refer to the guidelines provided by the correspondence vendor for ordering the test and arranging a proctor.

### ONLINE COURSES/DISTANCE LEARNING

McKinney ISD offers students in grades 8-12 options for alternative learning settings through tuition-based online/distance learning coursework. Students must request online/distance learning courses from their counselors and complete the contract. Courses may be used for credit recovery or credit acceleration. Students will be enrolled as soon as the online contract is completed. Per Board policy, in order to receive credit, a student shall obtain approval from the principal or designee prior to enrollment into the course. **Counselors have a list of online course offerings.** 

#### **Online Coursework Guidelines:**

- Students taking online courses will follow all the correspondence course guidelines listed above.
- Students will have maximum of six weeks to complete an online course in summer school. A maximum of eighteen weeks will be required during a regular school year.

#### **TxVSN**

Students can also take courses via Texas Virtual Schools Network (TxVSN). The link to Board Policy is <a href="http://pol.tasb.org/Policy/Download/310?filename=EHDE(LEGAL).pdf">http://pol.tasb.org/Policy/Download/310?filename=EHDE(LEGAL).pdf</a>. The TxVSN provides high school courses to supplement regular instructional programs. The high school counselor will register and approve all student course enrollments. Fees may vary by the course and the providing district. The calendar for TxVSN classes is set by the providing district. Students must follow the schedule and guidelines set in each course.

# CONSIDERATIONS FOR ATHLETES IN CORRESPONDENCE OR ONLINE COURSES

Online or correspondence courses taken as a graduation requirement will count toward academic UIL (No Pass/No Play) and maintain the same eligibility calendar provided by MISD. All courses in progress are considered passing until notification is received from the provider. (Note: When completed, courses and grades will appear on the transcript, but will not be included in the GPA). Student athletes who take online coursework may not meet core course requirements for NCAA eligibility. An audit of the course modules and the amount of time spent on each module may be a subject for review by the NCAA Eligibility Center. More information on UIL eligibility is available on p.22.

# **CREDIT BY EXAM (CBE)**

#### IF A STUDENT HAS TAKEN THE COURSE (CREDIT RECOVERY):

A student who has received prior instruction in a course or subject, but did not receive credit for it may, in circumstances determined by the teacher, counselor, principal, and/or attendance committee, be permitted by the district to earn credit by passing an exam on the essential knowledge and skills defined for the course or subject. To receive credit, a student must score at least 70 on the exam. In other instances, the district administration will determine if any opportunity for credit by exam will be offered.

The attendance review committee may offer a student with excessive absences an opportunity to earn credit for a course by passing an exam. A student may not use this exam, however, to regain eligibility to participate in extracurricular activities. For further information, see the counselor.

#### IF A STUDENT HAS NOT TAKEN THE COURSE (ACCELERATION):

A student will be permitted to take an exam to earn credit for an academic course for which the student has no prior instruction. The exams offered by the district are approved by the district's board of trustees and state law requires the use of certain exams, such as College Board Advanced Placement (AP) with a score of three or higher, College Level Examination Program (CLEP) tests with a scale score of 50 or higher, or percentage of 80 or above on any other criterion-referenced test approved by the Board for the applicable course.

The dates on which exams are scheduled during the 2022-2023 school year will be published in appropriate district publications and on the district's website. The only exceptions to the published dates will be for any exams administered by another entity besides the district. In this case, a student and the district must comply with the testing schedule of the other entity. During each testing window provided by the district, a student may attempt a specific exam only once.

A student may not attempt to earn credit by examination for a specific high school course more than two times. If a student fails to earn credit by examination for a specific high school course before the beginning of the school year in which the student would ordinarily be required to enroll in that course in accordance with the school district's prescribed course sequence, the student must satisfactorily complete the course to receive credit. If a student plans to take an exam, the student (or parent) must register with the principal or campus counselor, no later than 30 school days prior to the scheduled testing date.

The district may or may not honor a request by a parent to administer a test on a date other than the published dates. If the district agrees to administer a test during an alternate timeframe, the student's parent will be responsible for the cost of the exam. You may also contact the campus counselor for more information. [For further information, see policy EHDC (LOCAL).]

Study guides are available from Texas Tech at <a href="http://www.depts.ttu.edu/k12/current-students/forms/cbe-review-sheets/">http://www.depts.ttu.edu/k12/current-students/forms/cbe-review-sheets/</a>

Students who take any CLEP test must see campus counselor for district-approved credit. Below is the conversion chart for students who take a College Board Advanced Placement (AP) test without taking the course and score a three or higher. *Note: Grades earned through a CBE will not be calculated into GPA*.

Score of AP Test	Numerical Grade	Letter Grade
3	80	B-
4	90	A-
5	100	A+

# **LEVEL II WEIGHTED PROGRAMS**

#### ADVANCED PROGRAM

An Advanced course curriculum is an enriched, accelerated program based on introducing and developing College Board strategies. It is a Level II weighted course and receives more grade points than an academic Level I course.

Advanced courses expect a greater retention and appreciation of prior knowledge, as well as deeper understanding of the course topics. Advanced courses are designed to prepare for AP courses and teach the skills necessary for success in those courses. Advanced courses may require up to 6 hours of preparation time per course per week and students should expect extensive reading and writing assignments. Enrolling in an Advanced course is highly recommended for students who wish to take Advanced Placement courses in the future.

More information about Advanced coursework is available in the Weighted Course Agreement. **Students and parents** are strongly encouraged to attend the Advanced information meeting when offered at the high school campus.

#### OTHER LEVEL II WEIGHTED PROGRAMS

Certain advanced CTE courses and advanced electives are also Level II weighted courses. See the course descriptions for more information. Dual credit courses are also Level II weighted.

### LEVEL III WEIGHTED PROGRAMS

#### ADVANCED PLACEMENT PROGRAM

Advanced Placement courses are college-level courses that follow the College Board Advanced Placement guidelines. An AP course is a Level III weighted course and receives more grade points than Level I and II courses. Level III classes are the most rigorous courses and are designed to prepare students for the AP exam. **AP courses may require up to 6 hours of preparation time per course per week and students should expect course subject matter and workload at a college level**. Colleges and universities have the option of accepting the AP results for college credit. Exams are graded on a 5 point scale with credit usually given for scores of 3 or higher.

Courses designated as "AP" are college-level courses. Students enrolled in AP courses are required to take the AP exam at the end of the year. MISD covers half of the exam cost and students are responsible for the remaining half. Additional financial assistance with the exam cost is available to families with financial need. For full year classes, payment is due prior to the Fall Break. For one semester spring classes, payment is due before Spring Break. Failure to take the exam on the designated date will result in additional fees for the returned exam and for the alternate exam. Therefore, if a student exits an AP class after the payment deadline, the fee is not refundable. Questions about exam fees should be directed to the Campus Testing Coordinator. If testing is disrupted by a catastrophic event (ie. a pandemic, weather, etc.), we will share information as it is available.

Students not enrolled in AP courses may take the AP exam at their own expense, including AP exams for courses that are not offered in MISD. Students should contact the AP Coordinator as early as possible to discuss test availability and the registration deadline.

If your child receives routine instructional accommodations due to a disability, please contact your campus to discuss the process for applying to receive instructional accommodations on the AP exam. The approval process can be lengthy, but is only completed one time during high school and then applies to all College Board exams including PSAT and SAT tests.

More information about AP coursework is available in the Weighted Course Agreement. Students and parents are strongly encouraged to attend the AP information meeting when offered at the high school campus.

#### OTHER LEVEL III WEIGHTED PROGRAMS

Certain advanced CTE courses and advanced electives are also Level III weighted courses. See the course descriptions for more information.

### WEIGHTED COURSE EXIT GUIDELINES

MISD encourages students to participate in rigorous coursework to prepare for postsecondary success. We open our weighted courses to all students if they meet the prerequisites for the course. However, we recognize that once the school year has begun, for a variety of reasons some students may seek to change from a Level II or Level III course to a course on academic grade level. It is required that prior to requesting a change, that the student and parent discuss the decision with the teacher. Many interventions are available to assist students as they acclimate to the expectations in advanced coursework. Healthy academic struggle can build skills, increase academic self-confidence and build resiliency. Remember that the purpose of adding weighted points to advanced courses is to help reduce the impact of a slightly lower grade on the student's GPA. It should be noted that grades below 70 do not award credit or GPA points. Students must initiate the request to change. In all cases, if the request is approved, schedule changes will be subject to course availability. Note that the change may affect other components of the student's schedule, including lunch, order of classes or assigned teachers.

#### EXIT PROCEDURES—FIRST SEMESTER

- To request a change, students must obtain a weighted course exit form from Naviance and obtain all required signatures. Incomplete forms will not be processed.
- Exit forms must be turned in to the counselor between the 16<sup>th</sup> and 20<sup>th</sup> day of the semester for either a one-semester or two-semester course.
- If a student transfers out of a weighted class, the student's grades will directly transfer to the course the student enters (i.e. a 60 in an AP class becomes a 60 in a non-AP class). The student may be required to attend additional tutoring or complete assignments to become oriented with the activities of the new course.
- At the end of the first quarter, students may request to move to an available corresponding academic course if ALL of the following conditions are met: 1) the student is in an eligible weighted course (Advanced English I, Advanced English II, Advanced Algebra I, Advanced Geometry, Advanced Algebra II, Advanced Pre-Calculus, Advanced World Geography, Advanced Biology or Advanced Chemistry); 2) the student's quarter grade is anticipated to be below 70; 3) the student has attended at least three tutorial sessions and the teacher has documented other instructional interventions that were provided to support the student; 4) the student, parent, and teacher support the change; and 5) the exit form is submitted to the counselor by the last day of first quarter.
- A student may also exit a two-semester course at the end of the first semester. Exit forms must be submitted to the counselor **prior to the last day of the semester**. If a student's average is below a 70 prior to semester exams, students are recommended to request a change to academic level for the second semester.

#### EXIT PROCEDURES—SECOND SEMESTER

- Students beginning the second semester of a two-semester course are expected to remain in the course throughout the remainder of the year.
- AP Psychology, AP Government and AP Economics are one semester AP courses. A student may request to exit these specific courses **ONLY** during the first 5 days of the spring semester.
- To request a change, students must obtain a weighted course exit form from Naviance and obtain all required signatures. Incomplete forms will not be processed. Exit forms must be turned in to the counselor.
- If a student transfers out of a weighted class, the student's grades will directly transfer to the course the student enters (i.e. a 60 in an AP class becomes a 60 in a non-AP class). The student may be required to attend additional tutoring or complete assignments to become oriented with the activities of the new course.

#### **CAMPUS STEERING COMMITTEE:**

A student requesting to exit a weighted course at any other time must receive approval from the campus steering committee. Parents and students may be asked to appear before the committee in person to discuss the situation. **Prior to consideration by the steering committee, the student must:** 

- Attend a minimum of three documented tutorial sessions and the teacher has documented other instructional interventions that were provided to support the student
- Attend a documented student/parent/ teacher conference.
- Obtain a weighted course exit form from Naviance and obtain all required signatures. Incomplete forms will not be processed. This form must be submitted to the counselor.

Regardless of the steering committee recommendation, changes will always be subject to course availability.

### **DUAL CREDIT PROGRAMS OVERVIEW**

McKinney ISD students have the opportunity to take courses that provide both high school and college credit through a partnership between MISD and Collin College. A variety of courses can be taken for dual credit based on student need and college course offerings. **Dual credit courses are Level II weighted courses and students should expect course subject matter and workload at a college level.** 

#### **DUAL CREDIT GUIDELINES:**

- Qualified students will be enrolled simultaneously in McKinney Independent School District and Collin College to receive high school as well as college credit.
- Classes are taught by Collin instructors according to the policies and procedures of the university. These classes do not follow McKinney ISD policies on topics such as parent contacts, accommodations and disability services, grade reporting, development of the semester exam, determining the semester grade and other procedures. Concerns or questions about those procedures should be directed towards the Collin representatives.
- Students must obtain approval by consulting with their counselor prior to initiating enrollment in courses at the community college, as well as satisfying the TSI (Texas Success Initiative) college entrance exam. Students must then complete a separate application and enrollment procedure at the college in order to complete registration for the course. Students should work closely with their counselor to select an appropriate section and time for dual credit classes. Students and parents are strongly encouraged to attend the dual credit information meeting when offered at the high school campus.
- Students must receive a grade of 70 or above to obtain high school credit for the course. Students that earn a letter grade of D (60-69) may be awarded a 70 and earn credit for the course, however they may not be allowed to continue in the dual credit program with Collin College the following semester.
- The community colleges charge tuition and fees for dual credit courses, however students that meet criteria for free or reduced lunch are eligible for a tuition waiver. Students are responsible for all books, fees and tuition.
- Students MUST provide their own transportation to and from facility where the course is taught.
- Students desiring to make a change to a dual credit course will be subject to the withdrawal procedures of Collin College. Additionally, any dual credit student that wishes to withdraw should immediately contact the campus counselor to discuss options to recover the credit.
- Any students who receive accommodations in high school will need to contact Collin College to apply for services through the ACCESS office. See the Collin website for additional information.

### MISD recommends that students pursuing dual credit courses:

• Be on track to graduate within four years of beginning high school and maintain an overall GPA of 3.0.

### You can learn more about the general education core on p. 20 and the technical cohort program on p. 103

### The following courses\* are available for dual credit:

- English Composition/Rhetoric (ENGL 1301 and ENGL 1302)
- World Literature I and II (ENGL 2332 and ENGL 2333)
- College Algebra (MATH 1314)
- Calculus for Business and Social Sciences (MATH 1325)
- Elementary Statistical Methods (Math 1342)
- Earth and Space Science (GEOL 1401 and PHYS 1403)
- U.S. History (HIST 1301 and HIST 1302)
- Principles of Macroeconomics (ECON 2301)
- American Government (GOVT 2305)
- Texas Government (GOVT 2306)
- Art Appreciation (ARTS 1301)
- Communication (SPCH 1321 or SPCH 1311)

- Medical Terminology (HITT 1305& HPRS2301)
- Health Science (NURA 1301, NURA 1160, HPRS 1303)
- Practicum in Health Science PCT (NUPC 1320, NUPC 1160, DSAE 1340, ECRD 1111)
- Practicum in Health Science EMT (EMSP 1371, EMSP 1501 & EMSP 1160)
- Additional dual credit options are available as a part of the Technical Cohort program. See p. 106 for more information.

### **COLLIN COLLEGE GENERAL EDUCATION CORE**

MISD is proud to announce a new opportunity for any interested student to complete the Collin General Education Core while participating in dual credit in high school. This sequence of classes will meet several high school course requirements as well as provide 42 hours of college credit. It is designed to prepare students to complete an Associate of Arts degree from Collin College within two semesters after HS graduation. Many students who plan to transfer from Collin College to complete a Bachelor's degree at a public university in Texas would also benefit by completing the core prior to their transfer.

#### What is the Collin College General Education Core?

The *Texas Education Code* requires all public colleges and universities to have a core curriculum and every degree has a General Education Core requirement. Core curriculum is defined as "the curriculum in the liberal arts, humanities, sciences, and political, social and cultural history that all undergraduate students from a Texas institution of higher education are required to complete before receiving an associate or bachelor's degree." The General Education Core at Collin College is the collection of 42 credit hours of general education courses selected by Collin faculty in eight areas that have been approved by the Texas Higher Education Coordinating Board to build a basic core of knowledge. If a student completes these classes, the designation "Core Curriculum Complete" is placed on the college transcript. The State of Texas guarantees acceptance by a Texas public four-year university of any complete General Education Core transferred from any other Texas public college.

What dual credit classes must be completed in order to finish the Collin College General Education Core? Not all classes that Collin has identified as meeting their core curriculum are offered as a dual credit course. Therefore, students must take the specific classes offered as both dual credit courses and designated General Education Core classes at Collin. Classes that meet this criteria are as follows:

Learning Framework (EDUC 1300)
Art Appreciation (ARTS1301)
Communications (SPCH 1311 or SPCH 1321)
Composition and Rhetoric I/II (ENGL 1301/ENGL 1302)
Earth and Space Science (GEOL 1401; PHYS 1403)
US History (HIST 1301/HIST 1302)

Macroeconomics (ECON 2301) American Government (GOVT 2305) Texas Government (GOVT 2306) World Literature (ENGL 2332) College Algebra (Math 1314)

The chart below is provided as an example sequence, but it is not the only possible path. Students should visit with their counselor to discuss the options for course placement. All dual credit participation is subject to the dual credit information and guidelines shared on p. 19.

Term	9th Grade	10th Grade	11th Grade	12th Grade
Fall		ARTS1301 (3 hours)	ENGL 1301 (3 hours) HIST 1302* (3 hours)	ENGL 2332 (3hours) ECON 2301 (3 hours) GEOL 1401 (4 hours) MATH 1314 (3 hours)
Spring	EDUC 1300 (3 hours)	SPCH 1311 or SPCH 1321 (3 hours)	ENGL 1302 (3 hours) HIST 1301* (3 hours)	ENGL 2333** (3 hours) GOVT 2305 (3 hours) PHYS 1403 (4 hours) GOVT 2306 (3 hours)

<sup>\*</sup> HIST 1301 and 1302 can be taken in any order

To read more about the Collin College General Education Core, please visit <a href="https://www.collin.edu/academics/programs/Core">https://www.collin.edu/academics/programs/Core</a> Academic.html

<sup>\*\*</sup> ENGL 2333 is not required to complete the General Education Core, however, it is required to satisfy the second half of the high school English IV requirement in this example.

### POSTSECONDARY READINESS

Students are encouraged to take standardized tests as part of postsecondary planning. To prepare, we encourage students to become familiar with the options for tests that create opportunities after high school.

**PSAT:** The PSAT is administered during the school day to every 10<sup>th</sup> grade student. We encourage students to link their results into the free online SAT preparation courses. Students are also encouraged to register to repeat the PSAT during 11<sup>th</sup> grade so they may participate in National Merit and other recognition programs. See also: <a href="https://collegereadiness.collegeboard.org/psat-nmsqt-psat-10">https://collegereadiness.collegeboard.org/psat-nmsqt-psat-10</a>

SAT: The SAT is administered during the school day to every 11<sup>th</sup> grade student. Students may choose to take the additional SAT writing component at their own expense. This assessment is considered a college entrance exam and may be requested as part of college admissions. For more information, visit: https://collegereadiness.collegeboard.org/sat

**ACT:** Students are encouraged to take the ACT during 11<sup>th</sup> grade. This assessment is considered a college entrance exam and may be requested as part of college admissions. The ACT is different in structure and timing from the PSAT/SAT. For more information, visit: http://www.act.org/

ASVAB(Armed Services Vocational Aptitude Battery): the Department of Defense sponsors this free aptitude assessment and career interest inventory. The ASVAB is available for students in 10<sup>th</sup>-12<sup>th</sup> grade. See also: https://www.asvabprogram.com/

The Texas Success Initiative program is designed to help your Texas public colleges determine the appropriate placement for students that enroll in college level course work. For more information, visit: www.thecb.state.tx.us/TSI

If your child receives routine instructional accommodations due to a disability, please contact your campus to discuss the process for applying to receive instructional accommodations on standardized tests.

# GRADING AND REPORTING Please additionally refer to the information in MISD board policy EIA (Local) and EIA (Legal)

- The school year is comprised of two semesters, each consisting of approximately 90 days.
- A student will earn credit for a course only if the final grade is 70 or above. For a two-semester (1 credit) course, the student's grades from both semesters will be averaged and credit will be awarded if the combined average is 70 or above. Should the student's combined average be less than 70, the student will be required to retake the semester in which he or she failed.
- According to state law, students must attend 90 percent of the days a class is offered to receive credit.
- Parents and students are encouraged to become familiar with the Home Access Center (HAC): https://hac.mckinneyisd.net/homeaccess/
- Updated progress reports will be available every three weeks in the HAC. Report cards are published at nineweek intervals. Paper copies are available upon request.
- Grades in all subject areas will be defined by two categories:
  - Summative. These grades will comprise 70% of a student's grade average in the course. (Students will complete a minimum 3 summative grades per quarter)
  - Formative. These grades will comprise 30% of a student's grade average in the course. (Students will complete a minimum 10 formatives grades per quarter)

- The District shall permit a student who meets the criteria detailed in the grading guidelines a reasonable opportunity to redo a **summative** assignment when making below:
  - o A 70 in Level III Courses
  - o A 75 in Level II Courses
  - o An 80 in Level I Courses

Summative assessment may only be redone to support mastery learning. The student must notify the teacher of their intent to redo a summative assignment within two school days of the grade being posted in the Home Access Center (HAC) and the redo must occur within a reasonable time.

#### • Retesting Guidelines:

- O Prior to retesting on a summative task, students must attend at least one tutorial with their teacher of an appropriate designee in the department.
- Test corrections are not an adequate indicator of mastery learning. Instead, test corrections would be an expected component of tutorial preparation for the retesting opportunity. Test corrections will not be used to raise the student's score on the assessment.
- For any retakes, the grade will only be used if it is higher than the original grade earned on the assignment. The highest possible grade on any retaken assignment will be 70 in Level III courses, 75 in Level II courses and 80 in Level I courses.
- Only ONE retake/redo is allowable per assignment. Although only one opportunity is offered for redoing a specific assignment, there will be multiple opportunities for students to learn the content and achieve mastery.
- O Students who are absent will follow the student absence guidelines for making up assignments.
- o If the original assessment was given the last week of the grading period and a reasonable opportunity to redo is not available, the grade shall be taken for the next marking period.
- o A final exam will not be allowed to be retaken regardless of the grade received.
- Teachers are required to send written progress notices, make telephone calls, or schedule parent conferences at the close of the third and sixth week of the reporting period if students are failing or are in danger of failing.
- Each teacher will offer tutorials on a regular basis for students who need extra help.

### SEMESTER EXAM EXEMPTION INFORMATION

McKinney ISD does not offer semester exam exemptions. All students are expected to take their final exams.

# **GRADES & UIL ELIGIBILITY Thank**

In regard to UIL eligibility, in accordance with EIA (local), a student shall be permitted "a reasonable opportunity to redo/retake a summative assignment/test as provided in administrative procedures, except that no student shall be permitted to retake a final exam." In support of mastery learning all students will be afforded the opportunity to redo or retake tests. These students should receive an Incomplete "I" until their assignments are retaken and the grade is changed to a numerical value. This is true for the first six-week UIL eligibility check, as well as the future nine-week eligibility checks. Students who are eligible to complete make up assignments after the last day of a grading period, can still make up their assignments (according to local policy) and change their UIL eligibility status. These students should receive an Incomplete "I" until their makeup assignments are completed and the grade is changed to a numerical value. Once the grade is changed to an eligible numerical value, the student will regain UIL eligibility, even if this occurs after the UIL seven-day grace period. This is true for the first six-week UIL eligibility check, as well as the future nine-week eligibility checks.

### **EXTRACURRICULAR PARTICIPATION**

UIL participants should be aware of the following:

- Eligibility requirements for the first six weeks of each academic year's credits are determined by state graduation requirements. Students in grades 9-12 may participate in extracurricular activities at the beginning of the school year if the grade specific eligibility criteria below are met:
  - Beginning the 9<sup>th</sup> grade: Has been academically promoted to the 9<sup>th</sup> grade.
  - Beginning the 10<sup>th</sup> grade: Has earned 5 credits toward state graduation.
  - o Beginning the 11<sup>th</sup> grade: Has earned 10 credits or a total of 5 credits in the last 12 months.
  - Beginning the 12<sup>th</sup> grade: Has earned 15 credits or a total of 5 credits in the last 12 months.
- UIL eligibility is based on semesters of participation and not years in high school.
- A student shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the district or the UIL after a grade evaluation period in which the student received a grade lower than a 70 in any academic class other than those designated courses exempt from "no pass no play":
  - 1. Students are evaluated every three weeks for eligibility status. Loss of eligibility occurs at the end of the first six week's progress report and, thereafter, only at the end of the nine-week grading period. To regain eligibility, all students must be passing ALL courses.
  - 2. All students are eligible during Thanksgiving break, winter break and spring break.
  - 3. The grace period for eligibility is seven calendar days after evaluation, with the exception of holidays.
  - 4. Students lose eligibility from participation in extracurricular activities if, after a grade-evaluation period, the student receives a grade below 70 in any academic class other than an identified honors or advanced class.

# Policy FM (Legal) outlines the advanced courses in MISD that are exempt from the "no pass, no play" rule:

- English Language Arts: AP English Language, AP English Literature, dual credit ENGL 1301, 1302, 2322, and 2333
- Mathematics: AP Calculus AB, AP Calculus BC, AP Statistics, Pre-Calculus, Advanced Pre-Calculus, dual credit MATH 1314 (College Algebra), MATH 1342 (Elementary Statistical Methods) and MATH 1325 (Calculus for Business and Social Sciences)
- **Science:** Advanced Anatomy and Physiology, AP Biology, AP Chemistry, AP Physics 1, AP Physics 2, AP Physics C, AP Environmental Science and dual credit GEOL 1401 and PHYS 1403
- Social Studies: AP World History, AP U.S. History, AP European History, AP Macroeconomics, AP Microeconomics, AP U.S. Government and Politics, AP Psychology, AP Human Geography and dual credit ECON 2301, GOVT 2305, GOVT 2306, HIST 1301 and 1302
- Languages Other Than English: AP Spanish Language, AP Spanish Literature, AP German Language, AP Latin, AP French Language and Languages other than English level IV-VII
- Fine Arts: AP Studio Art: 2-Design, AP Studio Art: 3-Design, AP Studio Art: Drawing, AP Music Theory, dual credit ART1301 Art Appreciation and AP Art History
- Other: AP Computer Science A, AP Computer Science Principles, Computer Science III & IV, Digital Electronics, and other approved dual credit courses in CTE or additional Advanced Placement courses approved by the district.

# TRANSCRIPT EVALUATION GUIDELINES

When a transcript is received from an accredited school within the United States, transfer credit will be awarded for any course recognized by the state of Texas. When letter grades are all that is listed on the transcript, MISD high schools will use the scale below to convert from letter grade to a numeric grade **if one is not available** from the former district. When weighted GPA is calculated, the numeric grades will be subject to the GPA scale detailed on p. 25.

<u>Letter Grade</u>	<u>Numerical</u> <u>Grade</u>	IB Scale	Numerical <u>%</u>
<b>A</b> +	99	7	98
Α	95	6	93
A-	91	5	87
B+	89	4	77
В	85	3	67
В-	81	2	63
C+	79	1	60
C	75		
C-	71		
D (when credit was awarded from transferring district)	70		
D (when credit was NOT awarded from transferring district)	69		
F	65		

#### **Transcripts from Non-Public Schools:**

Students who enroll in McKinney ISD with credits earned in non-public schools may only transfer credit if the non-public school was accredited. Information about the accreditation of non-public schools in Texas as well as a list of approved accreditation bodies is maintained by the Texas Private School Accreditation Commission (TEPSAC). TEPSAC reviews and certifies organizations as meeting the requirements made by the Commissioner of Education and as having standards comparable to 19 TAC Chapter 97. TEPSAC maintains an annually updated list of accredited non-public Texas schools: <a href="http://www.tepsac.org/app/index.html#/search/schools">http://www.tepsac.org/app/index.html#/search/schools</a>. If the non-public school is outside of Texas, only coursework completed at a school accredited by the appropriate regional or national accrediting association will be accepted. Please additionally refer to the information in MISD board policy FD (Local) and FD (Legal) for additional information about credit from non-accredited, non-public schools, including homeschool.

#### **Transcripts from outside the United States:**

Transcripts that require translation into English will not receive a letter grade or numerical equivalency. A "P" for passing will be assigned to designate that credit was earned. The maximum number of transcribed courses per year is eight. Accredited international schools that deliver the majority of the instruction in English or utilize an American-based curriculum, as well as Department of Defense schools, will be reviewed in the same manner as transcripts received from accredited schools from within the United States.

### <u>UNWEIGHTED GPA</u>

MISD reports an unweighted GPA for each student on the transcript. Grade points are awarded based on the following scale, regardless of the level of the course.

#### \* UNWEIGHTED 4.0 GRADE POINT SCALE

Numerical Grade Range	Letter Grade	Points Awarded	Numerical Grade Range	Letter Grade	Points Awarded
90-100	A	4.0	70-79	С	2.0
80-89	В	3.0	0-69	F	0

## WEIGHTED COURSES & GPA SCALE

Classroom grade averages are reported in the familiar 100-point system on the report card. Grade point averages and class rankings are computed using the weighted 4.0 scale. This scale is used to weight the grades obtained in courses of varying levels of difficulty (AP, Advanced/Dual Credit, ISM, selected CTE and Academic). The course level is listed on the course description. Grade points shall be awarded according to the following scale:

### \* WEIGHTED 4.0 GRADE POINT SCALE

Grade	Letter	Level III	Level II	Level I
100	A	6.0	5.0	4.0
99	A	5.9	4.9	3.9
98	A	5.8	4.8	3.8
97	A	5.7	4.7	3.7
96	A	5.6	4.6	3.6
95	A	5.5	4.5	3.5
94	A	5.4	4.4	3.4
93	A	5.3	4.3	3.3
92	A	5.2	4.2	3.2
91	A	5.1	4.1	3.1
90	A	5.0	4.0	3.0
89	В	4.9	3.9	2.9
88	В	4.8	3.8	2.8
87	В	4.7	3.7	2.7
86	В	4.6	3.6	2.6
85	В	4.5	3.5	2.5
84	В	4.4	3.4	2.4
83	В	4.3	3.3	2.3
82	В	4.2	3.2	2.2
81	В	4.1	3.1	2.1
80	В	4.0	3.0	2.0
79	С	3.9	2.9	1.9
78	С	3.8	2.8	1.8
77	С	3.7	2.7	1.7
76	С	3.6	2.6	1.6
75	С	3.5	2.5	1.5
74	С	3.4	2.4	1.4
73	С	3.3	2.3	1.3
72	С	3.2	2.2	1.2
71	С	3.1	2.1	1.1
70	С	3.0	2.0	1.0
69	F	0.0	0.0	0.0

<sup>\*</sup> Refer to MISD Board Policy EIC(LOCAL) and EIC(EXHIBIT) for further details.

<sup>\*\*</sup>All courses are calculated into the GPA except: courses taken prior to 9<sup>th</sup> grade; online and correspondence courses; local credit courses; courses taken on a pass/fail basis rather than a numeric grade or F on a letter scale; credits earned by exam, and courses requested through the GPA exempt policy detailed on p. 13.

### RANKING OF STUDENTS

A student's grade point average (GPA) shall be determined by the total number of weighted grade points earned divided by the number of courses for which grades are recorded on the academic achievement record. All double-blocked courses count twice. Grade points are awarded according to the MISD weighted grade point scale for semester grades through the first semester of the senior year. To determine class rank, grade points for the second semester of the senior year, will be awarded based upon the third nine-week grades.

Valedictorian will be the student who has the highest GPA earned in grades 9-12. The salutatorian will be the student with the second highest GPA earned in grades 9-12. In the event that the student with the first or second highest GPA does not fully qualify, the next highest ranking class member who is fully qualified shall receive the honor.

To be eligible for valedictorian or salutatorian honors, a student shall:

- 1. Meet all requirements for graduation; and
- 2. Have been continuously enrolled in the same high school in the District for the two years immediately preceding graduation; and
- 3. Graduate at the end of the school year. Students who graduated at the conclusion of the first semester or in the summer are not eligible for these honors.

In the event of a tie for valedictorian or salutatorian (exact grade point average is rounded to the fourth decimal place), the tie will be broken by a series of tiebreakers, which are listed below in the order in which the tie breakers will be applied:

- 1. Calculate a weighted GPA for each student involved in the tie using only eligible semester grades earned after completion of grade 10.
- 2. Count the number of Level II and Level III courses taken by each student involved in the tie in grades 9–12. If the tie is not broken after applying these methods, the District shall recognize all students involved in the tie as sharing the honor and title. (Refer to board policy EIC-LOCAL)

## TOP 10% AND AUTOMATIC ADMISSION

Under the Uniform Admission Policy (TEC, §51.803), students that are ranked within the Top 10% of their graduating class are eligible for certain privileges when applying to public colleges in Texas, including automatic admission if they meet the criteria. **Students must graduate with a Distinguished Level of Achievement in order to be eligible for Top 10% recognition.** Additional information is available from the Texas Education Agency: https://tea.texas.gov/Academics/Graduation Information/Automatic College Admission/

### NOTES ON GPA AND RANK

College and universities may develop their own procedures for interpreting grade and rank information. It is not uncommon for those institutions to recalculate the GPA based on an internal formula. For example, some institutions may only consider grades earned in core areas or may utilize a different weighting scale. Check with your prospective institution for more information.

The GPA and rank will be calculated at the end of the school year for students in Grades 9 & 10. Students in Grade 11 will have a rank and GPA calculated at the end of the first semester and the end of the year. Students in Grade 12 will have GPA and rank calculated at the end of the first semester and at the end of the third quarter for final ranking purposes. Students may login to Naviance to check for the most recent GPA and rank.

### NON-DISCRIMINATION ASSURANCE

It is the policy of the McKinney ISD not to discriminate on the basis of sex, handicap, race, color or national origin in its educational and vocational programs, activities or employment as required by Title IX, Section 504 and Title VI.

This document serves as a guide. The official document will be the current one posted on the MISD website. Any errors do not supersede local Board and/or state Board policies.

# 2022-2023 COURSE DESCRIPTIONS

Not all courses are offered at all campuses and are subject to availability.

#### **ENGLISH**

Possible career objectives for students with English/Language Arts training: Actor, Advertising Copywriter, Business Administrator, Court Reporter, Editor, Film, Radio and TV, Columnist, Publisher, Writer, Lawyer, Librarian/Media Specialist, Minister, Newscaster, Salesperson, Teacher, Industry/Business Writer, Critic, Blogger, and Politician

End Of Course (EOC) Exam. Successful performance on the EOC is

ENGLISH III	
Grade Placemen	t: 11
Course #: 0130	Level: I
Prerequisite: Eng	glish II

Credit: 1 unit

**ENGLISH III** is designed so that students engage in activities that build on prior knowledge and strengthen their reading, writing, and oral language skills. Students will read American literature and write on a daily basis. They will read and understand a wide variety of literary and informational texts, compose a variety of written texts with a clear controlling idea, coherent organization, and sufficient detail, know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information, listen and respond to the ideas of others while contributing their own ideas in conversations and in groups, and learn how to use the oral and written conventions of the English language in speaking and writing.

# AP ENGLISH LANGUAGE AND COMPOSITION (AP ENGLISH III)

Grade Placement: 11 Course #: 0131 Level: III Prerequisite: English II

Credit: 1 unit

### AP ENGLISH LANGUAGE & COMPOSITION (AP ENGLISH III)

aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. **Students are required to take the AP exam.** 

# AP ENGLISH LANGUAGE AND COMPOSITION (HUMANITIES III)

Grade Placement: 11 Course #: 0139 Level: III

Prerequisite: identified GT, English II

Credit: 1 unit

#### AP ENGLISH LANGUAGE AND COMPOSITION (HUMANITIES

III) aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. The integrated curriculum model, which will study the major historical and cultural movements and their relationship to literature and the other fine arts, is designed to respond to high ability learners through advanced content and 21st century learning strategies. Students are required to take the AP exam.

#### ENGLISH III SHELTERED

Grade Placement: 11 Course #: 4130 Level: I

Prerequisite: English II; LPAC Approval

Credit: 1 unit

**ENGLISH III SHELTERED** is the EL student's English III class. The course is designed so that students engage in activities that build on prior knowledge and strengthen their reading, writing, and oral language skills. Students will read American literature and write on a daily basis. They will read and understand a wide variety of literary and informational texts, compose a variety of written texts with a clear controlling idea, coherent organization, and sufficient detail, know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information, listen and respond to the ideas of others while contributing their own ideas in conversations and in groups, and learn how to use the oral and written conventions of the English language in speaking and writing. In this course, instruction will be adapted to suit the English proficiency levels of the students.

22-23 ACADEMIC FLAMMING GUIDE	
ENGLISH IV Grade Placement: 12 Course #: 0140 Level: I Prerequisite: English III Credit: 1 unit	ENGLISH IV is designed so that students engage in activities that build on prior knowledge and strengthen their reading, writing, and oral language skills. Students will read British literature and write on a daily basis. They will read and understand a wide variety of literary and informational texts, compose a variety of written texts with a clear controlling idea, coherent organization, and sufficient detail, know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information, listen and respond to the ideas of others while contributing their own ideas in conversations and in groups, and learn how to use the oral and written conventions of the English language in speaking and writing.
COLLEGE PREPARATORY ENGLISH Grade Placement: 12 Course #: 17145 Level: I Prerequisite: students will be placed in this course based on college readiness indicators including PSAT, SAT/ACT, and/or EOC scores Credit: .5 unit This course does not meet NCAA eligibility as a core class.	COLLEGE PREPARATORY ENGLISH is designed in conjunction with Collin College to cover the content of the Collin College developmental (remedial, non-credit) English classes. This is a performance based course designed to develop students' critical reading and academic writing skills through extensive instruction emphasizing skills and techniques related to vocabulary, grammar, comprehension, paragraph elements, essay structure, and critical analysis that apply to both reading and writing. Students will demonstrate comprehension of varied texts through written responses, progressing from advanced paragraphs to well-developed, academic essays. Enrollment is limited to college bound students who have demonstrated that they are at risk of needing to complete developmental English courses in College. Successful completion of this course earns a Texas Success Initiative (TSI) exemption at Collin College.
ENGLISH IV SHELTERED Grade Placement: 12 Course #: 4140 Level: I Prerequisite: English III; LPAC Approval Credit: 1 unit	ENGLISH IV SHELTERED is the EL student's English IV class. This course is designed so that students engage in activities that build on prior knowledge and strengthen their reading, writing, and oral language skills. Students will read British literature and write on a daily basis. They will read and understand a wide variety of literary and informational texts, compose a variety of written texts with a clear controlling idea, coherent organization, and sufficient detail, know how to locate a range of relevant sources and evaluate, synthesize, and present ideas and information, listen and respond to the ideas of others while contributing their own ideas in conversations and in groups, and learn how to use the oral and written conventions of the English language in speaking and writing. In this course, instruction will be adapted to suit the English proficiency levels of the students.
AP ENGLISH LITERATURE AND COMPOSITION (AP ENGLISH IV) Grade Placement: 12 Course #: 0142 Level: III Prerequisite: English III Credit: 1 unit	AP ENGLISH LITERATURE AND COMPOSITION (AP ENGLISH IV) aligns to an introductory college-level literary analysis course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work's structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works. Students are required to take the AP exam.
AP ENGLISH LITERATURE AND COMPOSITION (HUMANITIES IV) Grade Placement: 12 Course #: 0149 Level: III Prerequisite: identified GT, English III Credit: 1 unit	AP ENGLISH LITERATURE AND COMPOSITION (HUMANITIES IV) aligns to an introductory college-level literary analysis course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work's structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works. The integrated curriculum model, which will study the major historical and cultural movements and their relationship to literature and the other fine arts, is designed to respond to high ability learners through advanced content and 21st century learning strategies. Students are required to take the AP exam.

COMPOSITION/RHETORIC I (dual credit) Grade Placement: 11 or 12 (11-12) Course #: 1311 (English III credit) Level: II Course #: 1301 (English IV credit) Level: II Prerequisite: counselor approval, Collin College admission Credit: .5 unit	COMPOSITION/RHETORIC I (dual credit) is a college freshman English course and is an intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. Students must stay in the course the entire semester to receive credit. Students are responsible for all transportation, books, fees and tuition at the college and must pass
COMPOSITION/RHETORIC II (dual credit) Grade Placement: 11 or 12 (11-12) Course #: 1312 (English III credit) Level: II Course #: 1302 (English IV credit) Level: II Prerequisite: Composition/Rhetoric I, counselor approval Credit: .5 unit	the TSI (Texas Success Initiative) college entrance exam to enroll.  COMPOSITION/RHETORIC II (dual credit) Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. Students must stay in the course the entire semester in order to receive credit. Students are responsible for all transportation, books, fees and tuition at the college.
WORLD LITERATURE I (dual credit) Grade Placement: 12 Course #: 2332 (English IV credit) Level: II Prerequisite: Composition/Rhetoric II, counselor approval Credit: .5 unit	ENGL 2332 WORLD LITERATURE I (dual credit) A survey of world literature from the ancient world through the sixteenth century. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Students are responsible for all transportation, books, fees and tuition at the college.
WORLD LITERATURE II (dual credit) Grade Placement: 12 Course #: 2333 (English IV credit) Level: II Prerequisite: ENGL 1302 Composition/Rhetoric II, counselor approval Credit: .5 unit	ENGL 2333 WORLD LITERATURE I (dual credit) A survey of world literature from the seventeenth century to the present. Students will study works of prose, poetry, dramas, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Students are responsible for all transportation, books, fees and tuition at the college.
CREATIVE WRITING Grade Placement: 11-12 Course #: 0779 Level: I Prerequisite: none Credit: .5 unit OR Course: 0106 Level: I Credit: 1 unit	CREATIVE WRITING provides an array of opportunities for creative written expression: poetry, short fiction, vignette, autobiography, dramatic and screen writing are included. Students will perfect their critical-reading skills through reading, discussion and writing assignments. Also they will learn the conventions of critique and collaboration in a workshop setting.

#### **JOURNALISM**

#### **ENDORSEMENT AREA: BUSINESS & INDUSTRY**

Possible career objectives for students with journalism training: Advertising, Freelance Writer, Mass Communications, Paste-up/Layout, Photography, Public Relations, Teacher, Script Writer, Speech Writer, Government, Business Communication, Broadcasting, Graphic Artist, Lawyer, Designer, Proofreader/Editor, Researcher, Technical Writer, Columnist, Salesperson, Magazines, Consultant, Blogger, and Politician

JOURNALISM I	JOURNALISM I is an advanced writing course and a prerequisite for
Grade Placement: 9-12	newspaper, online news and yearbook. Adobe Creative Suite software
Course #: 0761 Level: I	will be used to design all media. Students will study media literacy, the

## EDITORIAL LEADERSHIP

Grade Placement: 11-12

Course #: Newspaper - 0776; Yearbook - 0775

Level: I

Prerequisite: editorial position for yearbook or newspaper, instructor approval for editorial

responsibilities Credit: 1 unit **EDITORIAL LEADERSHIP** duties are to be carried out during the self-directed class time. Staff manuals are also to be developed as part of a portfolio. Specify yearbook or newspaper on registration form.

#### **SPEECH**

## **ENDORSEMENT AREA: BUSINESS & INDUSTRY**

**Possible career objectives for students with speech training:** Advertising, Freelance Writer, Mass Communications, Public Relations, Teacher, Speech Writer, Government, Business Communications, Broadcasting, Lawyer, Researcher, Salesperson, Consultant, and Politician

PROFESSIONAL COMMUNICATIONS Grade Placement: 9-12 Course #: 0970 Level: I Prerequisite: none Credit: .5 unit  BUSINESS AND PROFESSIONAL COMMUNICATION (dual credit) Grade Placement: 9-12 Course #: 1321 Level: II Prerequisite: counselor approval, Collin College admission Credit: .5 unit	PROFESSIONAL COMMUNICATIONS fulfills the graduation requirement for speech and serves as an introductory course for all endorsements in CTE. Students identify, analyze, develop and evaluate communication skills needed for professional and social success in interpersonal, group and professional interactions and presentations.  SPCH 1321 BUSINESS AND PROFESSIONAL COMMUNICATION (dual credit) this course fulfills the speech requirement. Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams, and technologically mediated formats. Additionally, it includes the relationship of communication to organizational conflict, management and international business; practice in conducting and participating in business interviews and presentations. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll.
INTRODUCTION TO SPEECH COMMUNICATION (dual credit) Grade Placement: 9-12 Course #: 201311 Level: II Prerequisite: counselor approval, Collin College admission Credit: .5 unit	SPCH 1311 INTRODUCTION TO SPEECH COMMUNICATION (dual credit) this course fulfills the speech requirement. Introduces basic human communication principles and theories embedded in a variety of contexts including interpersonal, small group, and public speaking. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll.
COMMUNICATION APPLICATIONS Grade Placement: 9-12 Course #: 0785	communication Applications can be integrated or embedded into the curriculum of certain multi-year programs. This course will meet the requirement for speech. This course will challenge students to develop communication skills needed for professional and social success in interpersonal, group and professional interactions and presentations. In order to receive this embedded credit, the campus teacher must have speech certification. Credit will only be awarded during second semester of the specific course designated by the campus as eligible to receive the embedded credit. Embedded credit will be reflected on the transcript and be counted towards GPA as a separate course. Communication Applications is not eligible for GPA exemption.  DEBATE I provides practical experience in argumentation and debate
Grade Placement: 9-12 Course #: 0786 Level: I Prerequisite: none Credit: 1 unit	within individual and team settings. Concepts and skills used to research topics, make decisions and resolve conflicts are explored in depth. Students must be self-motivated and must sign a class contract.

**DEBATE II-IV** 

Grade Placement: 10-12

Course #: II-0787; III-0788; IV-0789 Level: I

Prerequisite: instructor approval

Credit: 1 unit

**DEBATE II-IV** students will prepare for speech competition in debate and speaking events. **Attendance at tournaments is required. Students must sign a class contract.** 

A student in the Debate program may be eligible to receive embedded credit for the course Communication Applications. See the course description on p. 34 and/or the counselor for more information.

#### **MATHEMATICS**

## **ENDORSEMENT AREA: STEM**

Possible career objectives for students with adequate mathematics training: Accounting, Actuary, Architect, Banker, Business, Data Processor, Engineer, Financial Analyst, Physicist, Pre-medicine, Science/Social Science Research, Government Agencies, Statistician, Systems Analyst, Teacher, Salesperson, and Investment

McKinney ISD expects all students take 4 years of mathematic during high school, including Algebra II.

ALGEBRA I	ALGEBRA I includes work with functional relationships and			
Grade Placement: 9	problem solving in real situations, including, but not limited to, such			
Course #: 0200 Level: I	skills as table building, coordinate graphing, algebraic analysis,			
Prerequisite: 8 <sup>th</sup> grade math	equation writing, equation solving, operations with polynomials,			
Credit: 1 unit	factoring and computation. Students have opportunities to develop			
Credit. 1 tillit	logical reasoning by making and justifying generalizations based on			
	experience with fundamental algebraic concepts. Successful			
	completion of this course is required before the student may proceed			
	to further math courses. This course requires an End Of Course			
	(EOC) Exam. Successful performance on the EOC is a			
	graduation requirement.			
ADVANCED ALGEBRA I	ADVANCED ALGEBRA I the curriculum provides a more in-			
Grade Placement: 9	depth study of algebraic concepts through higher thinking processes.			
Course #: 0201 Level: II	Students develop strategies to prepare them for future Advanced			
Prerequisite: 8 <sup>th</sup> grade math	Placement (AP) courses. Successful completion of this course is			
Credit: 1 unit	required before the student may proceed to further math courses.			
	This course requires an End Of Course (EOC) Exam. Successful			
	performance on the EOC is a graduation requirement.			
GEOMETRY	GEOMETRY connects students to the world outside of school			
Grade Placement: 9-11	through a variety of applications and settings. Students have			
Course #: 0210 Level: I	opportunities to develop deductive, inductive, creative and critical			
Prerequisite: Algebra I & successful completion of	thinking skills within a framework, which includes plane and solid			
Algebra I EOC	geometry and studies of other types of geometry. Students also

NCAA eligibility as a core class.	and logarithmic functions. Students will study these functions			
	through analysis and application that includes explorations of patterns			
	and structure, number and algebraic methods, and modeling from			
	data using tools that build to workforce and college readiness such as			
	probes, measurement tools, and software tools, including			
	spreadsheets. This course may not be taken after Algebra II.			

22-25 ACADEMIC FLANNING GUIDE			
ADVANCED GEOMETRY Grade Placement: 9-11 Course #: 0213 Level: II GT Course #: 0214 Prerequisite: Algebra I & successful completion of Algebra I EOC Credit: 1 unit	ADVANCED GEOMETRY the curriculum provides a more indepth study of geometric concepts through higher thinking processes. Students develop strategies to prepare them for future Advanced Placement (AP) courses.		
ALGEBRA II Grade Placement: 9-12 Course #: 0203 Level: I Prerequisite: Algebra I Recommended Prerequisite: Geometry or concurrent enrollment in Geometry Credit: 1 unit	ALGEBRA II is an advanced math course that continues to build upon Algebra I with extensive work in linear, quadratic, polynomial, rational, exponential and logarithmic functions. Problem solving in real situations is a focus. This course prepares students for advanced math and for college algebra.		
ADVANCED ALGEBRA II Grade Placement: 9-12 Course #: 0205 Level: II GT Course #: 0206 Prerequisite: Algebra I Recommended Prerequisite: Geometry or concurrent enrollment in Geometry Credit: 1 unit	ADVANCED ALGEBRA II the curriculum provides a more indepth study of algebraic concepts through higher thinking processes. Students develop strategies to prepare them for future Advanced Placement (AP) courses.		
STATISTICS Grade Level: 11-12 Course #: 22250 Level: I Prerequisite: Algebra I and Geometry Credit: 1 unit	STATISTICS is a course in which students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. Students will connect data and statistical processes to real-world situations. In addition, students will extend their knowledge of data analysis. It is recommended that statistics be taken after Algebra II and or during 12 grade. <i>This course will count as a 4<sup>th</sup> year math</i> .		
QUANTITATIVE REASONING Grade Level: 11-12 Course #: 17207 Level: I Prerequisite: Geometry and Algebra II Credit: 1 unit	QUANTITATIVE REASONING is a course in which students will develop and apply reasoning, planning, and communication to make decisions and solve problems in applied situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry, and discrete mathematics. Advanced Quantitative Reasoning is a fourth mathematics class designed for students who intend to major in non-technical fields of study upon entering college. <i>This course will count as a 4<sup>th</sup> year math</i> .		
COLLEGE PREPARATORY MATH Grade Placement: 12 Course #: 17245 Level: I Prerequisite: Algebra 2, students will be placed in this course based on college readiness indicators including PSAT, SAT/ACT, and/or EOC scores Credit: 1 unit This course does not meet NCAA eligibility as a core class.	COLLEGE PREPARATORY MATH is designed in conjunction with Collin College to cover the content of the Collin College developmental (remedial, non-credit) math courses. Topics include a study of relations, functions, inequalities, algebraic expressions and equations (linear, polynomial, radical, rational), with a special emphasis on linear and quadratic expressions and equations. Enrollment is limited to college bound students who have demonstrated that they are at risk of needing to complete developmental Mathematics courses in College. Successful completion of this course earns a		

Texas Success Initiative (TSI) exemption at Collin College. *This course will count as a 4<sup>th</sup> year math*.

#### PRE-CALCULUS

Grade Placement: 10-12 Course #: 0218 Level: I

Prerequisite: Geometry and Algebra II

Credit: 1 unit

**PRE-CALCULUS** is a detailed study of linear, quadratic, polynomial, rational, exponential, logarithmic and trigonometric functions. Also studied are conic sections, vectors, parametric equations and sequences and series. This course will prepare students for college-level courses.

#### ADVANCED PRE-CALCULUS

Grade Placement: 10-12 Course #: 0219 Level:

II GT Course #: 0217

Prerequisite: Geometry and Algebra

II Credit: 1 unit

**ADVANCED PRE-CALCULUS** follows that of Pre-Calculus but includes the additional studies of power functions, parametric equations, applications of vectors, and a more in-depth study of the Pre- Calculus topics and their applications and extensions. Analysis of problem situations by graphical means will be emphasized.

#### **AP STATISTICS**

Grade Placement: 11-12 Course #: 0250 Level: III GT Course #: 0251

Prerequisite: Geometry and Algebra

II Credit: 1 unit

AP STATISTICS is a rigorous College-Board defined course that introduces students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data, sampling and experimentation, anticipating patterns, and statistical inference.

Statistical methods and measurements are developed in the context of applications. **Students are required to take the AP exam.** 

#### AP CALCULUS AB

Grade Placement: 11-12 Course #: 0220 Level: III GT Course #: 0221

Prerequisite: Pre-Calculus (Advanced Pre-Calculus

preferred). Credit: 1 unit AP CALCULUS AB is a rigorous College-Board defined course. The course includes a study of limits, differentiation, integration and application. Students are expected to have a firm understanding of all functions and their graphs from prior courses, as well as a firm understanding of algebraic, geometric and trigonometric skills.

Students are required to take the AP exam.

## AP CALCULUS BC

Grade Placement: 11-12 Course #: 0223 Level: III GT Course #: 0224

Prerequisite: Pre-Calculus (Advanced Pre-Calculus

preferred) Credit: 1 unit AP CALCULUS BC is a rigorous College-Board defined course in the calculus of functions. The course includes a study of all topics covered in AP Calculus AB with in-depth extensions. Additional topics to be studied include parametric, polar and vector functions, and polynomial approximations and series. Students are expected to have a complete understanding of all functions and their graphs from prior courses, as well as a complete understanding of algebraic, geometric and trigonometric skills. Students who previously completed AP Calculus AB will, in the first semester of AP Calculus BC, repeat content covered in AP Calculus AB. Therefore, students who completed AP Calculus AB are advised to enroll in concurrent Calculus II at Collin College or in AP Statistics. Students are required to take the AP exam.

## **COLLEGE ALGEBRA (dual credit)**

Grade Placement: 10-12 Course #: 1314 Level:

II

Prerequisite: Algebra 2, counselor approval,

Collin College admission

Credit: .5 unit

MATH 1314 COLLEGE ALGEBRA (dual credit) meets at Collin College for one semester. The course is a study of relations and functions including polynomial, rational, exponential, logarithmic and special functions. Other topics include complex numbers, systems of equations and inequalities, theory of equations, progressions, the binomial theorem, proof and applications. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll.

MATH 1325 CALCULUS FOR BUSINESS AND SOCIAL

# CALCULUS FOR BUSINESS AND SOCIAL SCIENCES (dual credit)

Grade Placement: 11-12 Course #: 1325 Level: II

Prerequisite: Pre-Calculus or Advanced Pre- Calculus, counselor approval, Collin

College Admission Credit: .5 unit

# business applications of calculus. Topics include limits, rates of change, differentiation, graphing and optimization, integration and selected applications of calculus, business. Although this course does not have a corresponding AP exam, it is an advanced math course comparable to a college course in business calculus. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll.

SCIENCES (dual credit) provides an introductory study of the

# **ELEMENTARY STATISTICAL METHODS** (dual credit)

Grade Placement: 10-12 Course #: 1342 Level: II

Prerequisite: Algebra 2, counselor approval,

Collin College Admission

Credit: .5 unit

math 1342 Elementary Statistical Methods (dual credit) meets at Collin College for one semester. The course involves the collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of a graphing calculator is required. Lab required and is part of the 3 hour class. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas

Success Initiative) college entrance exam to enroll.

## **SCIENCE**

## **ENDORSEMENT AREA: STEM**

Possible career objectives for students with adequate science training: Biologist, Geologist, Medical Professions, Mining, Museum Curator, Public Health, Environmental Protection, Game Management, Lab Technician, Industrial Chemist, Microbiologist, Physicist, Forestry, Park Services, Research, Teacher, Agriculture, Zoo/Marine Biologist, Pharmacist, Forensic Science, Medical Technician, Engineering, and Meteorologist

## McKinney ISD expects all students take 4 years of science, including Biology, Chemistry and Physics.

BIOLOGY Grade Placement: 9 Course #: 0310 Level: I Prerequisite: none Credit: 1 unit	BIOLOGY In Biology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; biological evolution; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; and ecosystems and the environment. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement.
ADVANCED BIOLOGY Grade Placement: 9 Course #: 0311 Level: II GT Course #: 0319 Prerequisite: none Credit: 1 unit	ADVANCED BIOLOGY covers the same topics as Biology but with more depth to prepare students for AP Biology or a college-level biology course. Higher-level thinking skills and problem-solving strategies will be used not only with course topics but also with tests, labs, projects, and other assignments. Students will use scientific method to design experiments, analyze data and draw conclusions while conducting lab investigations. These skills will prepare students for the rigorous labs in AP/college science courses. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement.
AP BIOLOGY Grade Placement: 9-12 Course #: 0312 Level: III GT Course #: 0314 Credit: 1 unit	AP BIOLOGY is an advanced biology course designed to be the equivalent of a two-semester college introductory biology course. Students using this curriculum framework as its foundation will also develop advanced inquiry and reasoning skills, such as designing a plan for collecting and analyzing data, applying mathematical routines, and connecting concepts in and across domains. Students are required to take the AP exam. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement. This course may be used to meet the 9th grade Biology requirement or as a 4th year science if student has already taken Biology or Advanced Biology.
INTEGRATED PHYSICS AND CHEMISTRY Grade Placement: 9-10 Course #: 0300 Level: I Prerequisite: none Credit: 1 unit	INTEGRATED PHYSICS AND CHEMISTRY In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use scientific methods during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter. Students who choose to take this course MUST take it prior to chemistry and physics, please consult your counselor for details.
AQUATIC SCIENCE Grade Placement: 11-12 Course #: 0350 Level: I Prerequisite: Biology and IPC Corequisite: Chemistry Credit: 1 unit	AQUATIC SCIENCE Aquatic science is the study of topics that include: roles of cycles in an aquatic ecosystem; geologic and fluid dynamics; components of aquatic ecosystems, fresh, salt and estuary; relationships among aquatic habitats and ecosystems; changes within aquatic habitats and environments; and the origin and use of water in a watershed. It is a course in which students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving.

	credit for graduation.			
	creati for graduation.			
ADDHVSICS 1. ALCEDDA DASED	AD DHVSICS 1. ALCERDA DASED is an algebra based introductors			
AP PHYSICS 1: ALGEBRA-BASED Grade Placement: 11	AP PHYSICS 1: ALGEBRA-BASED is an algebra-based, introductory college-level physics course that explores topics such as Newtonian mechanics			
Course #:0335 Level: III	(including rotational motion); work, energy, and power; mechanical waves and			
GT Course #: 0336	sound; and introductory, simple circuits. Through learning, students will			
Prerequisite: Geometry	develop scientific critical thinking and reasoning skills. Twenty-five percent of			
Concurrently enrolled in: Algebra II or Pre-Calculus	instructional time is devoted to hands-on laboratory work with an emphasis on			
Credit: 1 unit	inquiry-based investigations. Investigations will require students to ask			
Carrier 1 Willt	questions, make observations and predictions, design experiments, analyze data,			
	and construct arguments in a collaborative setting, where they direct and			
	monitor their progress. Labs will be embedded in the course. Students are			
	required to take the AP exam.			

#### AP PHYSICS 2: ALGEBRA-BASED

Grade Placement: 12

Course #: 0337 Level: III

GT Course #: 0338 Prerequisite: AP Physics I

Corequisite: Math higher than Algebra II

Credit: 1 unit

# AP PHYSICS C: MECHANICS, ELECTRICITY AND MAGNETISM

Grade Placement: 12

Course #: 0332 Level: III

Prerequisite: Physics and AP Calculus or concurrent

enrollment in AP Calculus

Credit: 2 units

## AP ENVIRONMENTAL SCIENCE

Grade Placement: 11-12 Course #: 0352 Level: III

GT Course #: 0353

Prerequisite: Biology and Chemistry

Corequisite: Physics Credit: 1 unit

#### ASTRONOMY

Grade Placement: 12 Course #: 0355 Level: I

Prerequisite: Biology, Chemistry and

Physics Credit: 1 unit

#### ANIMAL SCIENCE

Grade Level: 11-12 Course #: 0732 Level: I

Prerequisite: Biology and Chemistry

Corequisite: Physics Credit: 1 unit

This course does not meet NCAA eligibility as a core

class.

AP PHYSICS 2: ALGEBRA-BASED is an introductory college-level physics course that explores topics such as fluid statics and dynamics; thermodynamics with kinetic theory; PV diagrams and probability; electrostatics; electrical circuits with capacitors; magnetic fields; electromagnetism; physical and geometric optics; and quantum, atomic, and nuclear physics. Through inquiry-based learning, students will develop scientific critical thinking and reasoning skills. Twenty-five percent of instructional time is devoted to hands-on laboratory work, with an emphasis on inquiry-based investigations that provide opportunities to apply the science practices. Students are required to take the AP exam.

## AP PHYSICS C: MECHANICS, ELECTRICITY AND

MAGNETISM is an in-depth study of mechanics, electricity and magnetism. Methods of calculus are used, where appropriate, in formulating physical principles and applying them to problems. This course forms the first part of the college sequence that serves as the physics foundation for students majoring in the physical sciences or engineering. Each Physics C course includes a hands-on laboratory component comparable to a semester-long introductory college-level physics laboratory. This course is designed to prepare students for both the Physics C (Mechanics) and Physics C (Electricity and Magnetism) AP exams. This course will satisfy the required fourth year of science. Students are required to take the AP exam.

## AP ENVIRONMENTAL SCIENCE The goal of the AP

Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. The AP Environmental Science course includes a strong laboratory and field investigation component. The goal of this component is to complement the classroom portion of the course by allowing students to learn about the environment through firsthand observation. Experiences both in the laboratory and in the field provide students with important opportunities to test concepts and principles that are introduced in the classroom, explore specific problems with a depth not easily achieved otherwise, and gain an awareness of the importance of confounding variables that exist in the "real world." Students are required to take the AP exam.

**ASTRONOMY** students study the following topics: methods of observation, surveying the sky, motion of the earth and planets, ancient astronomy, light and telescopes, the solar system, stellar life cycles, galaxies, cosmology, and space exploration. An emphasis is placed on mathematical calculations. Nighttime and/or morning observations will be required at least once each quarter. *This course will count as a 4<sup>th</sup> year science.* 

ANIMAL SCIENCE meets the needs of students who want to advance their education within the animal systems pathway and prepares the students for careers in the animal science industry. Utilizing appropriate equipment and technology may enhance classroom and laboratory content. Students will apply knowledge of anatomy and physiology to produce and/or manage animals in a domesticated or natural environment and gain knowledge in species specific operations, genetics, livestock operation, processing, marketing, and reproduction. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. *This course will count as a 4th year science*.

ENVIRONMENTAL SYSTEMS	ENVIRONMENTAL SYSTEMS students conduct laboratory and			
Grade Placement: 12	field investigations, use scientific methods during investigations, and			
Course #: 0351 Level: I	make informed decisions using critical thinking and scientific problem			
Prerequisite: Biology, Chemistry and Physics	solving. Students study a variety of topics that include biotic and			
Credit: 1 unit	abiotic factors in habitats, ecosystems and biomes, interrelationships			
	among resources and an environmental system, sources and flow of			
	energy through an environmental system, relationship between carrying			
	capacity and changes in populations and ecosystems and changes in			
	environments. This course will count as a 4th year science.			
EARTH AND SPACE SCIENCE (dual credit)	GEOL 1401 & PHYS 1403 EARTH AND SPACE SCIENCE (dual			
Grade Placement: 12	<b>credit)</b> is a capstone course designed to build on prior scientific and			
Course #: 1401 & 1403 Level: II	academic knowledge and skills to develop understanding of Earth's			
Prerequisite: Biology, Chemistry and	system in space and time. An Earth- systems approach is used to			
Physics, counselor approval, Collin College	investigate and study the themes of Earth in space and time, solid Earth			
admission	and fluid Earth. Students are responsible for all transportation,			
Credit: 1 unit	books, fees and tuition at the college and must pass the TSI (Texas			
	Success Initiative) college entrance exam to enroll.			
FORENSIC SCIENCE	FORENSIC SCIENCE, also known as criminalistics, is the			
Grade Level: 11-12	application of science to criminal and civil laws. Forensic Science is a			
Course #: 0730 Level: I	course that uses a structured and scientific approach to the			
Prerequisite: Biology and Chemistry	investigation and analysis of civil and criminal crimes. Students will			
Corequisite: Physics	learn investigative procedures used to solve crimes and collect and			
Credit: 1 unit	analyze various types of evidence found at crime scenes. Areas of			
	study include glass, hair, fiber, fingerprints, serology, blood typing,			
	blood spatter, DNA, toxicology, firearms, ballistics, pathology,			
	anthropology, odontology, and entomology. Students will also explore			
	the history of forensic science and career options available in the field.			
	This course will count as a 4 <sup>th</sup> year science.			
ADVANCED ANATOMY AND PHYSIOLOGY	ADVANCED ANATOMY AND PHYSIOLOGY extends			
Grade Placement: 11-12	understanding of the structure and function of the human body.			
Course #: 16947 Level: II	Students will explore physiological systems and associated pathologies.			
Prerequisite: Biology and Chemistry	Higher-order thinking is stressed through assessment and synthesis of			
Corequisite: Physics	the anatomical knowledge combined with exposure to clinical analysis			
Credit: 1 unit	and dissections. This course will count as a 4 <sup>th</sup> year science.			

## **SOCIAL STUDIES**

## **ENDORSEMENT AREA: ARTS & HUMANITIES**

Possible career objectives for students with adequate social studies training: Anthropologist, Archivist, Armed Forces, Journalist, Foreign Service, Government Service, Historian, Writer, Psychologist, Sociologist, Archaeologist, Curator, Economic Advisor, Law Enforcement, Cartographer, Intelligence, Teacher, Politician/Political Analyst, Social Worker, and Welfare Programs

WORLD GEOGRAPHY Grade Placement: 9 Course #: 0400 Level: I Prerequisite: none Credit: 1 unit	WORLD GEOGRAPHY students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. Students analyze how location affects economic activities in different economic systems. Students identify the processes that influence political divisions of the planet and analyze how different points of view affect the development of public policies. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment.
ADVANCED WORLD GEOGRAPHY Grade Placement: 9 Course #: 0401 Level: II Prerequisite: none Credit: 1 unit	ADVANCED WORLD GEOGRAPHY students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. Students analyze how location affects economic activities in different economic systems. Students identify the processes that influence political divisions of the planet and analyze how different points of view affect the development of public policies. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. AP World History curriculum & strategies are embedded throughout the course.
AP HUMAN GEOGRAPHY Grade Placement: 9 Course #: 0426 Level: III GT HUMANITIES # 0427 Prerequisite: none Credit: 1 unit	AP HUMAN GEOGRAPHY course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. Students are required to take the AP exam. This course will fulfill one of the 4 social studies credit requirements for graduation if taken in lieu of World Geography.

22-	22-23 ACADEMIC PLANNING GUIDE			
WORLD HISTORY Grade Placement: 10 Course #: 0410 Level: I Prerequisite: World Geography Credit: 1 unit	world History is a survey of the history of humankind with a major emphasis is on the study of significant people, events, and issues from 8000BC to the present. Students will use the process of historical inquiry to research, interpret, and use multiple sources of evidence to study the following topics: the causes and effects of political and economic imperialism and of major political revolutions since the 17th century; the impact of geographic factors on major historic events; the historic origins of contemporary economic systems; the evolution of constitutional governments and the influence of historic documents; the historical development of important legal and political concepts; the history and impact of major religious and philosophical traditions; and the connections between major developments in science and technology and the growth of industrial economies.			
AP WORLD HISTORY Grade Placement: 10 Course #: 0411 Level: III GT HUMANITIES #: 0412 Prerequisite: World Geography or AP Human Geography Credit: 1 unit	AP WORLD HISTORY College Board is in the process of developing the new AP World History: Modern course. The new course will cover the years 1200 CE to present, with time included for students to focus on developing the AP history disciplinary practices and reasoning skills. The essential content will include: trade networks; state building in the Americas; state building in Africa; the ways Buddhism, Christianity, Confucianism, Hinduism, Islam, and Judaism shaped societies in Africa, Asia, and Europe; the emergence of new Hindu and Buddhist states in South and Southeast Asia; the fragmentation of the Abbasid Caliphate and emergence of new Islamic entities; intellectual, scientific, and technological innovations and transfers across states and empires; the rise and expansion of the Mongol Empire; agricultural societies, feudalism, and the manorial system in Europe; political and economic developments in the Song Dynasty; and global travelers. To ensure this course covers the TEKS required to meet the World History graduation requirement from TEA, this course will also include instruction on Development of River Valley Civilizations as well as the Classical and Post-classical Eras. Students are required to take the AP exam.			
ADVANCED AFRICAN AMERICAN STUDIES Grade Placement: 10-12 Course #: 21450 Level: II Prerequisite: World Geography Credit: 1.0 unit	ADVANCED AFRICAN AMERICAN STUDIES is an interdisciplinary course that explores the history and cultural contributions of African Americans. This course will provide students with an opportunity to learn about significant people, events, and issues, especially as they pertain to the broader context of United States social, economic, and political history. The historical content of this course will be taught with relevance to contemporary and current issues in order to ensure a deeper understanding for students. Students will a variety of primary and secondary source materials and media. This course will fulfill one of the 4 social studies credit requirements for graduation if taken in lieu of World History.			
ADVANCED MEXICAN AMERICAN STUDIES Grade Placement: 10-12 Course #: 21460 Level: II Prerequisite: World Geography Credit: 1.0 unit	ADVANCED MEXICAN AMERICAN STUDIES is an interdisciplinary course that explores the history and cultural contributions of Mexican Americans. This course will provide students with an opportunity to learn about significant people, events, and issues, especially as they pertain to the broader context of United States social, economic, and political history. The historical content of this course will be taught with relevance to contemporary and current issues in order to ensure a deeper understanding for students. Students will use a variety of primary and secondary source materials and media. This course will fulfill one of the 4 social studies credit requirements for graduation if taken in lieu of World History.			

	23 ACADEMIC PLANNING GUIDE
Grade Placement: 11 Course #: 0420 Level: I Prerequisite: World History Credit: 1 unit  AP UNITED STATES HISTORY Grade Placement: 11 Course #: 0421 Level: III GT Course #: 0429 Prerequisite: World History Credit: 1 unit	UNITED STATES HISTORY is the study of United States History from 1877 to the present. This course is the second part of a two-year study that begins in Grade 8, where students study the history of the United States through 1877. Students will use critical-thinking skills and a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context to study the following topics: the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civilrights; the impact of geographic factors on major events and eras; the impact of constitutional issues on American society; the dynamic relationship of the three branches of the federal government and the efforts to expand the democratic process; the relationship between the arts and popular culture and the times during which they were created; and the impact of technological innovations on American life. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement.  AP UNITED STATES HISTORY focuses on developing students' abilities to think conceptually about U.S. history from approximately 1491 to the present and apply historical thinking skills as they learn about the past. Seven themes of equal importance — identity; peopling; politics and power; work, exchange, and technology; America in the world; environment and geography; and ideas, beliefs, and culture — provide areas of historical inquiry for investigation throughout the course. These require students to reason historical developments in different times and places. Students are required to
U.S. HISTORY I (dual credit) Grade Placement: 11 Course #: H1301 & H1302 Level: II Prerequisite: World Geography or AP Human Geography AND World History, counselor approval, Collin College admission Credit: .5 unit each	take the AP exam. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement.  HIST 1301 & HIST 1302 U.S. HISTORY I (dual credit) focuses on development of American characteristics and institutions, including the forging of a new society from European, African and American cultures. Emphasis is on colonial and early national periods through the Civil War and Reconstruction. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course requires an End Of Course (EOC) Exam. Successful performance on the EOC is a graduation requirement.
UNITED STATES GOVERNMENT Grade Placement: 12 Course #: 0430 Level: I Prerequisite: U.S. History Credit: .5 unit	UNITED STATES GOVERNMENT focuses on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. This course is the culmination of the civic and governmental content and concepts studied from Kindergarten through required secondary courses. Students will study the following topics: the major political ideas and forms of government in history; the U.S. Constitution and its underlying principles and ideas; the role of government in the U.S. free enterprise system; the impact of individuals, political parties, interest groups, and the media on the American political system; the importance of voluntary individual participation in a constitutional republic; the rights guaranteed by the U.S. Constitution; and the relationship between governmental policies and the culture of the United States.
AP UNITED STATES GOVERNMENT AND POLITICS Grade Placement: 12 Course #: 0431 Level: III GT Course #: 0439 Prerequisite: U.S. History Credit: .5 unit	AP UNITED STATES GOVERNMENT AND POLITICS will give students an analytical perspective on government and politics in the United States. This course includes both the study of general concepts used to interpret U.S. government and politics and the analysis of specific examples and requires familiarity with the various institutions, groups, beliefs, and ideas that constitute U.S. government and politics. Students will become acquainted with the variety of theoretical perspectives and explanations for various behaviors and outcomes. Students will use critical thinking, organizational, independent reading and writing skills throughout this course. Extensive outside preparation for class is required. Students are required to take the AP exam.

	GOVT 2305 AMERICAN GOVERNMENT (dual credit) is an		
AMERICAN GOVERNMENT (dual credit)	` '

#### LANGUAGES OTHER THAN ENGLISH

Endorsement area: Arts & Humanities

Possible career objectives for students proficient in languages other than English: Airline Personnel, Armed Forces, Foreign Office/Service, Communications, Counseling, Employment Services, Import/Export, Interpreter, Lawyer, Marketing, Minister, Sales Industry, Technical Expert, Anthropologist, Business Caseworker, Construction, Customs, Food Services, International Banking, Law Enforcement, Librarian, Missionary, Publisher, Teacher, and Tour Guide

MISD offers five languages other than English: American Sign Language, French, German, Latin and Spanish. The following descriptions for each level describe the skills of language study: listening and receptive; reading; speaking and expressive; and, writing.

**LOTE LEVEL 1-Novice Low to Novice High** 

AMERICAN SIGN	FRENCH I	GERMAN I	LATIN I	SPANISH I

Students on the Novice Level can identify the general topic and some basic information in both very familiar and everyday contexts by recognizing practiced or memorized words, phrases, and simple sentence sin texts that are spoken, written or signed. They can communicate in spontaneous spoke, written or signed conversations on both very familiar and everyday topics, using a variety of practiced or memorized words, phrases, simple sentences, and questions. Students on the novice level can present information on both very familiar and everyday topics using a variety of practiced or memorized words, phrases, and simple sentences through spoken, written, or signed language. Students of classical language such as Latin read and comprehend proficiency-level appropriate texts. The communicative skills of listening, speaking, and writing are used to enhance the interpretive mode of reading. At the end of Level 1, students of classical languages should reach a Novice High to Intermediate Low proficiency level in reading, a Novice Low to Novice Mid proficiency level in listening, a Novice Low to Novice Mid proficiency level in writing.

**Listening and Receptive.** At the novice level students can understand key words, true aural cognates, and formulaic expressions that are highly contextualized and highly predictable, such as those found in introductions and basic courtesies. Novice level students understand words and phrases from simple questions, statements, and high frequency commands. They typically require repetition, rephrasing, and/or a slower rate of speech for comprehension. They rely heavily on extra-linguistic support (i.e. visuals) to derive meaning.

**Reading.** At the novice level, readers can understand key words and cognates, as well as formulaic phrases that are highly contextualized. Novice level readers are able to get a limited amount of information from highly predictable texts in which the topic or context is very familiar. Readers at the novice level may rely heavily on their own background knowledge and extra-linguistic support to derive meaning. (not applicable for students of ASL)

**Speaking and Expressive.** Novice level students can communicate short messages on highly predictable every day topics that affect them directly. They do so primarily through the use of isolated words and phrases that have been encountered, memorized and recalled. Novice level students may be difficult to understand even by the most sympathetic interlocutors accustomed to non-native speech/expressions. **Writing.** Writers at the novice level are characterized by the ability to produce lists and notes, primarily by writing words and phrases. They can provide limited formulaic information on simple forms and documents. These writers can produce practiced material to convey very simple messages. In addition, they can transcribe familiar words and phrases, copy letters of the alphabet to reproduce basic characters with some accuracy. (not applicable to ASL)

Students on the Intermediate Level can understand the main idea and some pieces of information on familiar topics from sentences and series of connected sentences with texts that are spoken, written, or signed. They can participate in spontaneous spoken, written, or signed conversations on familiar topics, creating sentences and series of sentences to ask and answer a variety of questions. Students on the intermediate level can communicate information, make presentations, and express their thoughts about familiar topics, using sentences and series of connected sentences through spoken, written or signed language. Students of classical language such as Latin read and comprehend proficiency-level appropriate texts. The communicative skills of listening, speaking, and writing are used to enhance the interpretive mode of reading. At the end of Level 2, students of classical languages should reach am Intermediate Low to Mid proficiency level in reading, a Novice Mid to Novice High proficiency level in writing. At the end of Level 3, students should reach an Intermediate High to Advanced Low proficiency level in reading, a Novice High proficiency level in listening, a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in speaking.

**Listening and Receptive.** At the intermediate low level, students can understand the main idea and some pieces of information on familiar topics from sentences and series of connected sentences within texts that are spoken or signed. They can identify a topic and relate information from simple sentences in short informational podcasts or videos, for example, and in short conversations.

**Reading.** At the intermediate low level, readers can understand short, non-complex texts that convey basic information and deal with basic personal interest or knowledge, although some misunderstandings may occur. Readers at this level may get some meaning rom short connected texts featuring description and narration, dealing with familiar topics. (not applicable to ASL)

**Speaking and Expressive.** At the intermediate low level students can participate in conversations on familiar topics, speak or sign in complete sentences and series of sentences to ask and answer a variety of questions. They can request and provide information in conversations on familiar topics by creating simple sentences and asking appropriate follow-up questions. Intermediate low students communicate information, make presentations and express their thoughts about familiar topics, using sentences and series of connected sentences through spoken written or signed language. They can present information about their life, activities and events using simple sentences.

**Writing.** Writers at the intermediate mid can write short, simple communications, compositions, and requests for information in loosely connected texts about personal preferences, daily routines, common events, and other personal topics. Their writing is framed in present time but may contain references to other time frames. The writing style closely resembles oral discourse. Products at the intermediate mid writing level are best defined as a collection of discrete sentences and/or questions loosely strung together. There is little evidence of deliberate organization. Intermediate mid writers can readily be understood by natives used to the writing of non-natives. (not applicable to ASL)

Spanish III Credit: 1 unit Students are required to take the AP exam.

Advanced Mid proficiency level in reading, a Novice high proficiency level in listening, a Novice Mid to Novice High proficiency level in speaking, and a Novice Mid to Novice High proficiency level in writing. **Listening.** At the intermediate high level, students can follow the main message in various time frames, in straightforward, and sometimes descriptive, paragraph-length informational texts. They can usually follow the main story and actions expressed in various time frames in paragraph-length fictional texts. Listeners can usually understand the main idea and flow of events expressed in various time frames in conversations and discussions.

**Reading.** At the intermediate high level, students can follow the main message in various time frames in straightforward, and sometimes descriptive, paragraph-length informational texts. They can usually follow the main story and actions expressed in various time frames in paragraph-length fictional texts. Readers understand the main idea and flow of events expressed in various time frames in conversations and discussions.

**Speaking.** At the intermediate high level students can exchange information in conversations and some discussions on a variety of familiar and some concrete topics that they have researched, using connected sentences that may combine to form paragraphs and asking a variety of questions, often across various time frames. They can interact with others to meet their needs in a variety of situations, sometimes involving a complication, and asking a variety of questions, often across various time frames. Speakers on the intermediate high level can explain preferences, opinions, and emotions and provide advice on a variety of familiar and some concrete topics that they have researched. Intermediate high students can tell stories about school and community events and personal experiences, using a few short paragraphs, often across various time frames. They can state their point of view on familiar or researched topics and provide reasons to support it and give a detailed presentation on a variety of familiar topics and some concrete topics they have researched.

**Writing.** Writers at the intermediate high can write short, simple communications, compositions, and requests for information in loosely connected texts about personal preferences, daily routines, common events, and other personal topics. Writers develop presentations on a variety of familiar topics and some concrete topics they have researched, using a few short paragraphs, often across various time frames. Products at the intermediate high writing level are best defined as paragraph length writing samples. There is evidence of deliberate organization. Intermediate high writers can readily be understood by natives used to the writing of non-natives.

		take the AP exam.	

Students on the Advanced Level can understand the main message and supporting details on a wide variety of familiar and general interest topics across various times frames from complex, organized texts that are spoken, written, or signed. They can maintain spontaneous spoken, written, or signed conversations and discussions across various times frames on familiar, as well as unfamiliar, concrete topics, using series of connected sentences and probing questions. Students on the advanced level can

deliver detailed and organized presentations on familiar as well as unfamiliar concrete topics, in paragraphs and using various time frames through spoken, written, or signed language.

**Listening.** At the advanced low to mid level, students can understand the underlying message and most supporting details across major time frames. Listeners understand the main message and most supporting details across major time frames in conversations and discussions, and follow the flow of ideas and some nuances from different viewpoints in conversations and discussions (high).

**Reading.** At the advanced low to mid level, readers can understand the underlying message and most supporting details across major time frames in descriptive informational texts. Listeners can follow the main story and most supporting details across major time frames in fictional texts, and follow the flow of ideas and some nuances from different viewpoints in most fictional texts (high).

**Speaking.** At the advanced low to mid level students can maintain discussion on a wide variety of familiar and unfamiliar concrete topics of personal and general interest, and sometimes academic, social or professional topics by using probing questions and providing detailed responses across major time frames. Advanced mid students can interact and negotiate to resolve an unexpected complication that arises in a familiar situation, providing detailed explanations and offering a variety of resolutions across major time frames. Speakers on the advanced low and mid level can maintain extended conversations by supporting, reacting to, and comparing preferences and opinions and expressing advice and emotions in detail across major time frames, and by asking probing questions. Speakers can tell stories based on concrete experiences in academics, social, and professional topics of interest, using organized paragraphs across major time frames. They can give complex, detailed narrations beyond the concrete, often addressing abstract experiences or hypothetical issues(high).

Writing. Writers at the advanced low to mid level can present an argument with supporting evidence, based on a variety of concrete academic, social and professional topics of interest, using organized paragraphs across major time frames. They can clearly and accurately present an argument with supporting evidence on complex, concrete issues, and often deal with related issues hypothetically (high). Writers at the advances low to mid level deliver presentations and elaborate on a variety of concrete academic, social and professional topics of interest, using organized paragraphs across major time frames. They can deliver cohesive presentations on a variety of complex concrete topics related to community interests and some specialized fields, and often deal with related issues hypothetically (high).

## **TECHNOLOGY APPLICATIONS**

## **ENDORSEMENT AREA: STEM**

FUNDAMENTALS OF COMPUTER SCIENCE	FUNDAMENTALS OF COMPUTER SCIENCE is an introductory
Grade Placement: 9-12	computer science course that empowers students to use their
Course #: 21230 Level: I	communication, problem solving, and reasoning skills, which are the
Prerequisite: none Credit: 1 unit	foundation of computer science, to create authentic digital projects.
	Students will learn about programming, web development, animation,
	games, cybersecurity, and computing tools used to solve real-world
	problems.
ADVANCED COMPUTER SCIENCE	ADVANCED COMPUTER SCIENCE is an advanced level approach to
Grade Placement: 9-12	programming, problem solving and analysis. This course is designed for
Course #: 0231 Level: II	those students who wish to prepare for AP Computer Science A. Students
Prerequisite: Algebra I	will use various software applications as well as the Java programming
Credit: 1 unit	language throughout the course. Program logic and flow will be
	emphasized. Coding topics covered will include variables, lists, Boolean
	expressions, decision making, loops and methods.
AP COMPUTER SCIENCE PRINCIPLES	AP COMPUTER SCIENCE PRINCIPLES introduces students to the
Grade Placement: 9-12	foundational concepts of computer science and challenges students to
Course #: 0237 Level: III	explore how computing and technology can impact the world. The course
Prerequisite: Algebra 1	will allow students to develop computational thinking vital for success
Credit: 1 unit	across multiple disciplines. The course is unique in its focus on fostering
	students to be creative and encouraging students to apply creative processes
	when developing computational artifacts. Students design and implement
	innovative solutions using an iterative process similar to what artists,
	writers, computer scientists, and engineers use to bring ideas to life. This
	course satisfies the prerequisite for taking the AP Computer Science A
	course. Additionally, this course will prepare students for the AP Computer
	Science Principles exam. Students are required to take the AP exam.
AP COMPUTER SCIENCE A	AP COMPUTER SCIENCE A is an advanced level approach to problem
Grade Placement: 9-12	solving and analysis using Java. This course is equivalent to a first semester,
Course #: 0233 Level: III	college level course in computer science. Additionally, this course will
Course #: 19233 Level: not counted in GPA	prepare students for the AP Computer Science A exam. Students are
Prerequisite: Algebra I Credit: 2 units	required to take the AP exam.
Students must concurrently enroll in 0233 and 19233	
COMPUTER SCIENCE III: LEVEL III	COMPUTER SCIENCE III: LEVEL III JAVA PROGRAMMING
JAVA PROGRAMMING	Students will study advanced data structure programming and problem
Grade Placement: 11-12	solving in Java. This course is equivalent to a second semester computer
Course #: 16235 Level: III	science course at the college level. Additionally, students will practice
Prerequisite: AP Computer Science A	problem-solving algorithms for programming contests as well as other
Credit: 1 unit	advanced topics not covered by the AP Computer Science A course.
COMPUTER SCIENCE IV: LEVEL III	COMPUTER SCIENCE IV ADVANCED Students will pursue
INDEPENDENT STUDIES	independent study topics for the purpose of completing a large project each
Grade Placement: 12	semester.
Course #: 16237 Level: III	
Prerequisite: Computer Science III	
Credit: 1 unit	
DIGITAL COMMUNICATION IN THE 21st	DIGITAL COMMUNICATION IN THE 21st CENTURY will challenge
CENTURY	students to use computer literacy skills to adapt to emerging technologies
Grade Placement: 11-12	used in the global marketplace. By providing technical assistance to
Course #: 17959 Level: I	stakeholders in the learning community, students will develop personal and
Prerequisite: application & demonstrated	interpersonal skills to prepare for a rapidly evolving workplace. Students
proficiency in basic computer literacy knowledge and	that participate in this program will be expected to demonstrate critical
skills	thinking, problem solving skills and positive work behaviors. <i>This course is</i>
Credit: 1 unit	offered at MHS only. A student in this program may be eligible to receive
	embedded credit for the course Communication Applications. See the course description on p. 34 and/or the counselor for more information.
	This course is offered at MHS only.
	This course is offered in 191115 they.

# **CAREER AND TECHNICAL EDUCATION (CTE)**

#### CERTIFICATIONS AND/OR LICENSES OFFERED IN MISD

Listed below are possible certifications offered in MISD via Career & Technical Education programs. Students wishing to obtain certifications will be required to pay the fees.

MISD also has a partnership with Collin College to offer additional technical credit cohort options, which may include additional certification opportunities. Please refer to the information beginning on p. 106.

Not all courses are offered at all campuses. If you choose courses that are not offered at your campus, you may need to apply for a transfer to the appropriate school or you may be required to provide your own transportation. All CTE courses must enroll a minimum of 15 students for the class to be offered.

## PUBLIC NOTIFICATION OF NONDISCRIMINATION IN CTE PROGRAMS

## **Agriculture, Food & Natural Resources**

- Beef Quality Assurance
- Level 1Texas State Florists Association
- OSHA (Occupational Health and Safety Association) Certificate: 30 Hour Training
- Quality Counts
- Knowledge Based Exam, Level One Certification, and Level Two Certification through the Texas State Florists' Association

## **Architecture & Construction**

- OSHA (Occupational Health and Safety Association) Certificate: 30 Hour Training
- AWS Welding Certification

## **Arts, AV Technology & Communications**

- Adobe Certified Associate Illustrator
- Adobe Certified Associate Visual Communications
- Adobe Certified Associate Video Communicator
- Adobe Certified Flash
- Adobe Certified Dreamweaver
- Adobe Certified InDesign

## **Business Management & Admin, Marketing & Finance**

- Microsoft Office Specialist (MOS)
- A\*S\*K\* Fundamental Marketing Concepts
- A\*S\*K\* eMarketing Associate
- OSHA (Occupational Health and Safety Association) Certificate
- Adobe Suite Certifications pending camps

## **Education & Training**

- CPR
- Educational Aide I (once employed with a district)

## **Health Science**

- American Heart Association Basic Life Support (BLS) for Healthcare Providers
- American Heart Assoc Heartsaver First Aid (FA)
- Certified Nurse Aide (CNA)
- Fascial Movement Taping (Beginner) through RockTape
- Functional Movement Screening (FMS)
- NASM Certified Personal Trainer, NASM Corrective Exercise Specialist
- Sterile Processing/IV (Intravenous) Certification
- Emergency Medical Technician, Basic (EMT-B) Certification
- HAZMAT Certification
- OSHA (Occupational Health and Safety Association) Certificate

## **Human Services**

- 24 Hr Pre Service Training for Daycare Worker
- Cosmetology License
- CPR

## Law, Public Safety, Corrections & Security

- Basic Telecommunicator
- Level 2 Security
- Municipal Jailer
- CPR/First Aid

## Science, Technology, Engineering & Mathematics

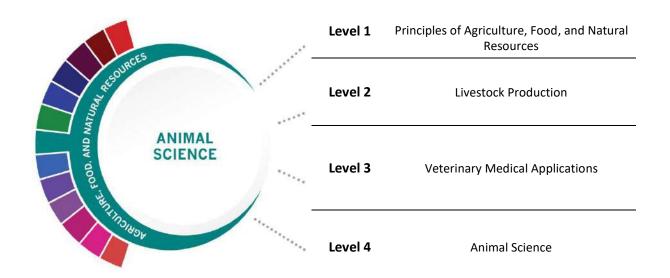

- National Instruments Certified LabView Assoc Developer
- Auto desk Rivet and Inventor Certified user

## **Transportation, Distribution & Logistics**

MISD does not offer any certifications in this area that are earned while the student is still in high school. However, our programs will prepare students to learn about the industry certification options which can be pursued following graduation:

- Airframe Power & Plant FAA
- Student Pilot Certificate
- Sport Pilot Certificate
- Private Pilot Certificate
- Rotax Repair
- LSA Repair
- Airline Transport Pilot
- Commercial Pilot

# AGRICULTURE, FOOD, AND NATURAL RESOURCES

HIGH SCHOOL/ INDUSTRY CERTIFICATION	CERTIFICATE/ LICENSE*	ASSOCIATE'S DEGREE	BACHELOR'S DEGREE	MASTER'S/ DOCTORAL PROFESSIONAL DEGREE
Licensed Veterinary Technician	Pet Groomer	Food Science and Technology	Animal Sciences	Genetics
Feedyard Technician in Cattle Care and Handling	Veterinary Technician	Veterinary Studies	Agriculture	Veterinary Medicine
Certified Veterinary Assistant	Licensed Breeder	Biotechnology Laboratory Technician	Biology	Biological and Physical Sciences

WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES		
Exploration Activities: Work Based Learning Activities:		
Texas FFA	Texas FFA Agri-Science Fair 4H Volunteer at a local farm or veterinary office FFA Supervised Agriculture Experience (SAE)	

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches CTE learners how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

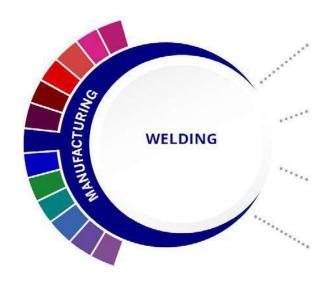

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Animal Science program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020

#### PRINCIPLES OF AGRICULTURE, FOOD PRINCIPLES OF AGRICULTURE, FOOD AND NATURAL AND NATURAL RESOURCES **RESOURCES** enhance the agricultural comprehension of young adults. (Intro to Agriculture) Entry level course designed for students interested in animal science, crop science, leadership and public speaking, and metal fabrication Grade Placement: 9-12 Course #: 0905 Level: I technologies. Students enrolled in this course may participate inlivestock shows, contests, and other leadership development activities. Prerequisite: none Credit: 1 unit A student in the AG program may be eligible to receive embedded credit for the course Communication Applications. See the course description on p. 34 and/or the counselor for more information. This course is offered at MBHS and MHS only. Students must provide their own transportation. LIVESTOCK PRODUCTION LIVESTOCK PRODUCTION introduces the common veterinary skills Grade Placement: 10-12 and procedures used on livestock, anatomy of livestock, genetics and reproduction, and diseases that can affect all livestock. This course is Course #: 17906 Level: I Prerequisite: Principles of Agriculture, Food and required for those who have an interest in the Animal Systems pathway. Natural Resources This course is offered at MBHS and MHS only. Students must provide Credit: 1 unit their own transportation. VETERINARY MEDICAL APPLICATIONS VETERINARY MEDICAL APPLICATIONS develops and expands (Intro to Vet Med) the knowledge and techniques pertaining to Veterinary Technical Grade Placement: 11-12 Assistant area. This course is designed as a laboratory-oriented course Course #: 0908 Level: I that allows students hands-on experience within the area of diagnostic Prerequisite: Principles of Agriculture, Food and testing, client records, employer/employee relationship and techniques Natural Resources, Biology or Chemistry and used in surgical practices. This course is offered at MBHS and MHS only. Students must provide their own transportation. Livestock Production Credit: 1 unit AGRICULTURE MECHANICS & METAL TECHNOLOGIES AGRICULTURE MECHANICS & METAL TECHNOLOGIES develops proficiency in many welding skills. Students will be expected to (Welding I) use the cutting torch and MIG welders and weld in several positions, Grade Placement: 9-12 which include flat, horizontal and vertical. The course develops an Course #: 0913 Level: I understanding of tool operation, electrical wiring, plumbing, carpentry Prerequisite: application and metal working techniques. This course is offered at MHS only. Credit: 1 unit Students must provide their own transportation. AGRICULTURE FACILITIES DESIGN & FABRICATION AGRICULTURE FACILITIES DESIGN & **FABRICATION** introduces and develops principles of electricity, Geographic Information (Welding II) Systems (GIS), working with concrete, water-management systems, Grade Level: 10-12 masonry, drywall and roofing materials. This course is offered at MHS Course #: 0914 Level: I only. Students must provide their own transportation. Prerequisite: Welding I and application Credits: 1 unit AGRICULTURAL POWER SYSTEMS

(Welding III) Grade Level: 11-12 Course # 0713 Level: I

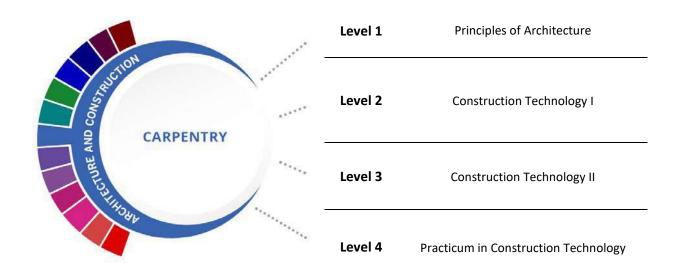

Prerequisite: Agricultural Mechanics & Metal

Technologies and Agriculture Facilities Design &

Fabrication Credits: 2 units **AGRICULTURAL POWER SYSTEMS** prepares students for careers in agricultural power, structural, and technical systems. Students should attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the workplace; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations. To prepare for success, students should have opportunities to learn, reinforce, apply, and transfer their knowledge and technical skills in a variety of settings. This course is designed to develop an understanding of power and control systems as related to energy sources and agricultural machinery. This course is offered at MHS only. Students must provide their own transportation.

PRACTICUM IN AG, FOOD & NATURAL	PRACTICUM IN AG, FOOD & NATURAL RESOURCES
RESOURCES	course is a paid or unpaid capstone experience for students participating
(Welding IV)	in a coherent sequence of career and technical education courses in the
Grade placement: 11-12	Agriculture, Food, and Natural Resources cluster. Each student is
Course # 0778 Level: I	required to have 10 hours per week in class requirements that come from
Prerequisite: Welding III	laboratory experiences. This course is offered at MHS only. Students
Credit: 2 units	must provide their own transportation.
FLORAL DESIGN	FLORAL DESIGN Exposes students to the basic techniques of floral
(Floral Design I)	design. This class is project based with many large and small projects
Grade Placement: 9-12	used to evaluate the progress of the student. Hands-on activities involve
Course #: 0910 Level: I	the students in techniques required in the floral industry. Students have
Prerequisite: none	the option of taking the Knowledge Based Exam TSFA Certification;
Credit: 1 unit	testing fee is the student's responsibility. <i>This course is offered at</i>
Fee required	MBHS only. Students must provide their own transportation. With
	appropriate teacher certification, this course may satisfy the Fine Arts
	requirement for graduation.
FLORAL DESIGN II	FLORAL DESIGN II In this course, students build on the knowledge
(Advanced Floral Design)	from Floral Design I and are introduced to more advanced floral design
Grade Placement: 11-12	concepts, with an emphasis on specialty designs and specific occasion
Course #: 17831 Level: I	planning. Students have the option to take the Level 1 and Level 2 TSFA
Prerequisite: Floral I, Knowledge Based	Certifications. The testing fees for these certifications are the student's
Exam TSFA Certification, and application	responsibility. Students can also gain their OSHA 30 Hour certification as
Credit: 1 unit	a part of this course at no cost to the student. This course is offered at
Fee required	MBHS only. Students must provide their own transportation.

# ARCHITECTURE AND CONSTRUCTION

Work Based Learning Exploration Activities: Activities:			
Shadow a carpenter or millwright. SkillsUSA	Obtain an NCCER certification in Millwright Level 1 or Carpentry Level 1		

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Carpentry program of study explores the occupations and educational opportunities related to constructing, installing, or repairing structures and fixtures made of wood, such as concrete forms (including frameworks, partitions, joists, studding, rafters, and stairways). This program of study may also include exploration into installing, dismantling, or moving machinery and heavy equipment according to layout plans, blueprints, or other drawings.

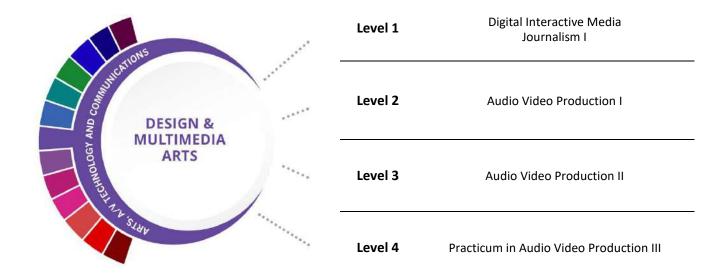

The Architecture and Construction Career Cluster focuses on designing, planning, managing, building, and maintaining the built environment. Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management.

Successful completion of the Carpentry program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020

22-23 ACADEN	IIC PLANNING GUIDE
PRINCIPLES OF ARCHITECTURE Grade Placement: 9 Course #: 17703 Level: I Prerequisite: application Credit: 1 unit	PRINCIPLES OF ARCHITECTURE provides an overview to the various fields of architecture, interior design, construction science, and construction technology. Achieving proficiency in decision-making and problem solving is an essential skill for career planning and lifelong learning. Students use self-knowledge, educational, and career information to set and achieve realistic career and educational goals. Jobspecific, skilled training can be provided through the use of training modules to identify career goals in trade and industry areas. Safety and career opportunities are included, in addition to work ethics and jobrelated study in the classroom such as communications; problem solving and critical thinking; Information Technology Applications; systems; safety, health, and environmental; leadership and teamwork; ethics and legal responsibilities; employability and career development; technical skills; introduction to hand tools; introduction to power tools; basic rigging; and reading technical drawings.
INTERIOR DESIGN Grade Placement: 10-12 Course #: 17917 Level: I Prerequisite: English I & Algebra I Credit: 1 unit	INTERIOR DESIGN is a technical course that addresses psychological, physiological, and sociological needs of individuals by enhancing the environments in which they live and work. Individuals use knowledge and skills related to exterior environments, construction and furnishings to make wise consumer decisions, increase productivity and prepare for careers in the interior design field.
CONSTRUCTION TECHNOLOGY I (Construction I) Grade Placement: 10 Course #: 200921 Level: I Prerequisite: application Credit: 1 unit	and skills specific to those needed to enter the work force as apprentice rough and/or finish carpenters, rebar installers, drywall, painting, roofer, mason, and/or building maintenance technicians or prepare for a postsecondary degree in construction management, architecture, and/or engineering. Students acquire knowledge and skills in safety, tool usage, building materials, formwork, framing, rebar installation, drywall, painting, roofing, and masonry. At the conclusion of this course the student will have the opportunity to take various Industry and/or OSHA certification tests. The testing fee is the student's responsibility. <i>This course is offered at MHS only. Students must provide their own transportation.</i>
CONSTRUCTION TECHNOLOGY II (Construction II) Grade Placement: 11 Course #: 200922 Level: I Prerequisite: Construction Technology Credit: 2 units	ADVANCED CONSTRUCTION TECHNOLOGY will provide students advanced knowledge and skills specific to those needed to enter the work force as an apprentice carpenter, drywall, painter, roofer, mason, rebar installer, structural steel erector, industrial and/or construction welder, building maintenance technicians, or prepare for a postsecondary degree in construction management, architecture, or engineering. Students build on the knowledge base from Construction Technology and are introduced to HVAC, electrical, plumbing, and Structural steel skillsets. At the conclusion of this course the student will have the opportunity to take various Industry and/or OSHA certification tests. <i>This course is offered at MHS only. Students must provide their own transportation.</i>
PRACTICUM IN CONSTRUCTION TECHNOLOGY (Construction III) Grade Placement: 11-12 Course #: 200923 Level: I Prerequisite: Advanced Construction Technology Credit: 2 units	Practicum in Construction Technology is an occupationally specific course designed to provide classroom technical instruction or on-the-job training experiences. Safety and career opportunities are included in addition to work ethics and job-related study in the classroom. This course will provide more of a hands on application of construction processes. This course is offered at MHS only. Students must provide their own transportation.

Registered Nurses	\$68,682	17,493	26%
Nurse Practitioners	\$107,827	977	50%
Nurse Anesthetists	\$154,856	357	23%

LEARNING OPPORTUNITIES			
Work Based Learning Exploration Activities: Activities:			
Health Occupation Students of America (HOSA)	Volunteer at a community wellness center, hospital, assisted living center, or nursing home.		

The Nursing Science program of study introduces students to the knowledge and skills related to patient care. CTE learners may learn about or practice caring for patients, routine procedures such as monitoring vital signs, development and implementation of care plans, maintenance of medical records, and disease or pain management. Students may focus on the healthcare system and research system

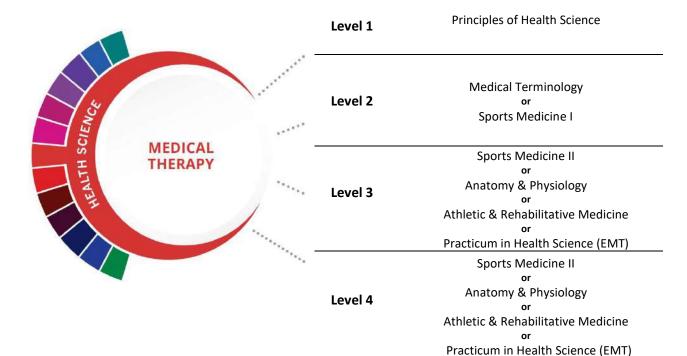

The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate

Successful completion of the Nursing Science program of study will fulfill requirements of a Public Service endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020

Health Occupation Students of America (HOSA)	Lab internship, Job shadow, Clinical rotations			

The Medical Therapy program of study focuses on the study of biology and medicine in order to introduce students to the knowledge and skills necessary to be successful in the healthcare field in occupations such as, Respiratory, Occupational, Physical, or Speech Therapy. CTE learners may also practice patient care and communication.

The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, and communicate

#### PRINCIPLES OF HEALTH SCIENCE

Grade Placement: 9-12 Course #: 0943 Level: I

Prerequisite: none Credit: 1 unit PRINCIPLES OF HEALTH SCIENCE is an overview of roles of various members of the healthcare system and their educational requirements and issues affecting the delivery of healthcare. Additional concepts explored include the healthcare system, the continuum of care, levels of care, length of stay, healthcare providers, legal and ethical aspects of healthcare, reimbursement, healthcare policy determination and health insurance and managed care. This course will satisfy the health credit for the district. Upon successful completion of this course, students may apply to MISD clinical programs. Students participating in the dual credit sequences for Health Science may seek the HSTE 1271 credit from Collin College after earning 6 college units.

#### **MEDICAL TERMINOLOGY (dual credit)**

Grade Placement: 10-12

Course #: 1315 & 1316 Level: II Prerequisite: counselor approval,

Collin College admission

Credit: 1 unit

HITT1305 & HPRS2301 MEDICAL TERMINOLOGY (dual credit) Students will study medical terms through word origin and structure. This course provides an introduction to abbreviations and symbols, surgical and diagnostic procedures, and medical specialties. Students will also study the pathology and general health management of diseases and injuries across the lifespan, including etiology, symptoms, and the physical and psychological reactions to diseases and injuries. This course is offered online through Collin College. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll.

#### **HEALTH SCIENCE (CNA) (dual credit)**

Grade Placement: 11-12 Course #: 19945 Level: II

Prerequisite: Principles of Health Science, application, counselor approval, Collin

College admission Credit: 2 units NURA 1301, NURA 1160 & HPRS 1303 HEALTH SCIENCE (CNA) This course focuses on public health and the aging process and development of skills in quality assessment and care of the geriatric client. In addition to classroom activities, students will train at a local long-term facility in preparation for the Texas Certified Nurse's Aide exam. The second half of the course provides for the development of multi-occupational knowledge and skills related to a wide variety of health careers. Academic coursework is supplemented with participation in clinical rotations at various clinical sites. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course is offered at MNHS; it is the student's responsibility to provide their own transportation to and from MNHS and job training sites. This course has limited enrollment.

# PRACTICUM IN HEALTH SCIENCE (EMT) (dual credit)

Grade Placement: 12 Course #: 0946 Level: II

Prerequisite: Principles of Health Science, application, counselor approval and Collin College admission, must be 18 by 12/15/22.

Credit: 2 units

EMSP 1371, EMSP 1501 & EMSP 1160 (EMT) (dual credit) Introduction to Emergency Medical Services including: history, organization and function, legal aspects, and ethics. Overview of human anatomy and physiology, patient assessment, airway control, and infection control techniques. Preparation for certification as an Emergency Medical Technician (EMT). Lab required. A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. The EMT curriculum is based on the National EMS Educational Standards. This course is offered at MNHS only; it is the student's responsibility to provide their own transportation to and from MNHS and jobtraining sites. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course has limited enrollment.

#### PRACTICUM IN HEALTH SCIENCE (ATHLETIC & REHABILITATIVE MEDICINE)

Grade Placement: 11-12 Course #: 22701 Level: II

Prerequisite: Principles of Health Science and/or Sports Medicine I, application

Credit: 2 units

## PRACTICUM IN HEALTH SCIENCE (ATHLETIC & REHABILITATIVE MEDICINE) is a course that teaches

REHABILITATIVE MEDICINE) is a course that teaches students about musculoskeletal anatomy, exercise physiology, bioenergetics, biomechanics, posture, exercise techniques, and rehabilitation and performance enhancement. Students will also study basic orthopedic injury evaluation and considerations for working with individuals with chronic health conditions. Additionally, the students will learn injury prevention techniques through the Functional Movement Screen (FMS) and basic Fascial Movement Taping through RockTape. In addition to classroom learning, students will have the opportunity to train at local fitness facilities, physical therapy clinics, and orthopedic offices, in preparation for the National Academy of Sports Medicine Certified Personal Trainer examination. This course is offered at MNHS only; it is the student's responsibility to provide their own transportation to and from MNHS and job training sites. This course has limited enrollment.

enrollment.

# PRACTICUM IN HEALTH SCIENCE (PATIENT CARE TECHNICIAN) (dual credit)

Grade Placement: 12 Course #: 18979 Level: II Fall: DSAE 1340, ECRD 1111 Spring: NUPC 1320, NUPC 1160

Prerequisite: CNA, application, current immunization records and criminal history check counselor approval and Collin College

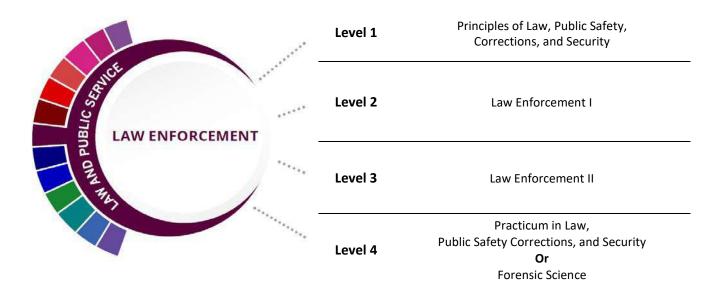

admission Credit: 2 units

#### PRACTICUM IN HEALTH SCIENCE (PATIENT CARE

**TECHNICIAN)** (dual credit) This course provides advanced knowledge and clinical skills necessary for employment in the healthcare industry.

Students will study EKG and phlebotomy principles in preparation for certification as a Patient Care Technician (PCT). Students will explore industry standards and techniques with an emphasis on patient safety and care. Students will also participate in clinical rotations to apply their skills. Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course has limited

## **LAW ENFORCEMENT**

HIGH SCHOOL/ INDUSTRY CERTIFICATION	CERTIFICATE/ LICENSE*	ASSOCIATE'S DEGREE	BACHELOR'S DEGREE	MASTER'S/ DOCTORAL PROFESSIONAL DEGREE
Non- Commissioned Security Officer Level II	Law Enforcement Officer	Criminal Justice/Safety Studies/Law Enforcement Administration	Criminal Justice/Safety Studies/Law Enforcement Administration	Criminal Justice/Safety Studies/Law Enforcement Administration
Emergency Telecommunicator	Private Investigator/ Security Guard	Criminal Justice/ Police Science	Criminal Justice/ Police Science	Natural Resources Law Enforcement and Protective Services
	Code Enforcement Officer	Corrections	Juvenile Corrections	
	Certified Law Enforcement Planner	Criminalistics and Criminal Science	Cyber/ Computer Forensics and Counterterrorism	

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

Occupations	Median Wage	Annual Openings	% Growth
Police and Sheriff's Patrol Officers	\$60,112	5,241	13%
Probation Officers and Correctional Treatment Officers	\$44,054	793	9%
Correctional Officers and Jailers	\$40,186	4,683	9%
Immigration and Customs Inspectors	\$78,104	1,236	9%
First-Line Supervisors of Police and Detectives	\$91,312	253	25%

WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES			
Work Based Learning Exploration Activities: Activities:			
Texas Public Service Association; criminal justice clubs	Attend court hearings and other legal procedures		

The Law Enforcement program of study teaches CTE learners about the development of, adherence to, and protection of various branches of law. Students will learn how to appropriately and legally respond to breaches in the law according to statutory rules and regulations as well as investigate how and why the breaches occurred.

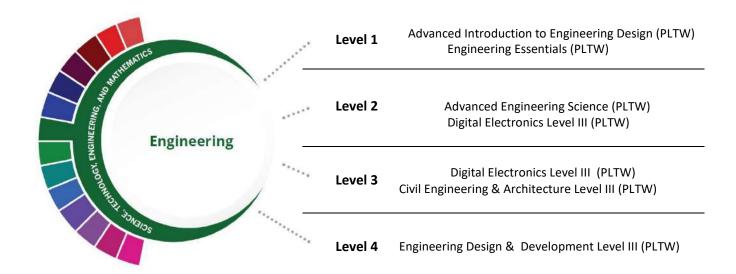

The Law and Public Service Career Cluster focuses on planning, managing, and providing legal services, public safety, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services.

Successful completion of the Law and Public Service program of study will fulfill requirements of the Public Service Endorsement. Revised - July 2020

PRINCIPLES OF LAW, PUBLIC SAFETY, CORRECTIONS AND SECURITY Grade Placement: 9-12 Course #: 17965 Level: I Prerequisite: none Credit: 1 unit	PRINCIPALS OF LAW, PUBLIC SAFETY, CORRECTIONS AND SECURITY introduces students to professions in law enforcement, security, corrections, and fire and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, security and corrections.
LAW ENFORCEMENT I Grade Placement: 10-12 Course #: 0966 Level: I Prerequisite: Principles of Law, Public Safety, Corrections and Security Credit: 1 unit	LAW ENFORCEMENT I is an overview of the history, organization, and functions of local, state and federal law enforcement. This course includes the role of constitution law, the United States legal system, criminal law, law enforcement terminology and the classification and elements of crime. Students will apply knowledge and skills through field-based experiences, classroom projects and activities such as handcuffing, misdemeanor traffic stops, felony traffic stops, building searches, domestic crisis interventions and driving while intoxicated investigations.
LAW ENFORCEMENT II Grade Placement: 11-12 Course #: 0967 Level: I Prerequisite: Law Enforcement I, background check, application Credit: 1 unit	LAW ENFORCEMENT II is designed to provide the students the knowledge and skills necessary for a career in law enforcement. The course includes the ethical and legal responsibilities of law enforcement personnel, operation of police and emergency telecommunicator equipment and courtroom testimony. Students will take the knowledge learned in Law Enforcement I to a higher level. Students will apply knowledge and skills through hands-on, field based experiences using classroom projects and activities. Student will also gain experience in Computer Aided Dispatching (CAD) through the use of simulation software and equipment as well as through direct observation of people employed in this field. Students will use simulated radio communications systems and participate in simulated 911 calls. Upon completion of this course students will receive the Basic Telecommunicator Certification through IAED (\$50 fee for certification).
Practicum in Law, Public Safety, Corrections and Security (Law Enforcement III) Grade Placement: 12 Course # 0719 Level: I Prerequisite: LE II, background check, application Credit: 2 units Some Fees Required	Practicum in Law, Public Safety, Corrections and Security The practicum course is designed to give students a practical application of previous studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. This may include rotations and or internships. This course is offered at MHS only. Students must provide their own transportation.

## **ENGINEERING**

HIGH SCHOOL/ INDUSTRY CERTIFICATION	CERTIFICATE/ LICENSE*	ASSOCIATE'S DEGREE	BACHELOR'S DEGREE	MASTER'S/ DOCTORAL PROFESSIONAL DEGREE
Autodesk Certified Professional or User (ACU)- Inventor	Engineer, Professional	Electrical and Electronics Engineering	Electrical and Electronics Engineering	Electrical and Electronics Engineering
Certified SolidWorks Associate (CSWA)	Fluid Power Systems Designer	Drafting and Design Technology/ Technician, General	CAD/CADD Drafting and/or Design Technology/ Technician	Mechanical Engineering
Certified Engineering Technician-Audio Systems	Certified Biomedical Auditor	Engineering Technology	Bioengineering and Biomedical Engineering	Bioengineering and Biomedical Engineering
	Certified Cost Estimator/ Analyst		Construction Engineering Technology/ Technician

McKinney Independent School District

ENGINEERING ESSENTIALS is a full-year course designed to be a high school student's first exposure to the PLTW Engineering program. Students explore the work of engineers and their role in the design and development of solutions to real-world problems. The course introduces students to engineering concepts that are applicable across multiple engineering disciplines and empowers them to build technical skills through the use of a variety of engineering tools, such as geographic information systems (GIS), 3-D solid modeling software, and prototyping equipment. Students learn and apply the engineering design process to develop mechanical, electronic, process, and logistical solutions to relevant problems across a variety of industry.

# (PLTW) ADVANCED INTRO TO ENGINEERING DESIGN (IED), the foundation course in a series of Project Lead the Way pre-engineering courses, is designed to introduce the student to the field with emphasis on the concept of developing a 3-D model or solid rendering of an object, beginning with hand sketching and advancing to 3-D modeling software. The course will emphasize the design development process of a product and how a model of that product is produced, analyzed and evaluated using a computer-aided design system. Various design applications will be explored with discussion of possible careers. This science, technology, and math integrated program focuses on engineering design processes while helping students develop skills that better prepare them for a rigorous academic college curriculum.

(PLTW) ADVANCED ENGINEERING SCIENCE is part of the Project Lead the Way pre-engineering sequence and will guide students toward an understanding of the field of engineering and engineering technology while developing skills that better prepare them for a rigorous academic college curriculum. Applying the principles of various technology systems and manufacturing processes helps students learn how engineers and technicians use science, technology and math in an engineering problem-solving process to benefit people. The course includes concerns about social and political consequences of technological change. This course can count as a science credit for graduation. Please see your high school counselor for appropriate science sequence.

(PLTW) DIGITAL ELECTRONICS LEVEL III is part of the Project Lead the Way pre-engineering sequence. Students will study the application of electronic logic circuits and devices and apply Boolean logic to the solution of problems. Students will test and analyze simple and complex digital circuitry. Students will design circuits, export their designs to a printed circuit auto routing program that generates printed circuit boards and construct the design using chips and other components. This course can count as a math credit for graduation. Please see your high school counselor for appropriate math sequence.

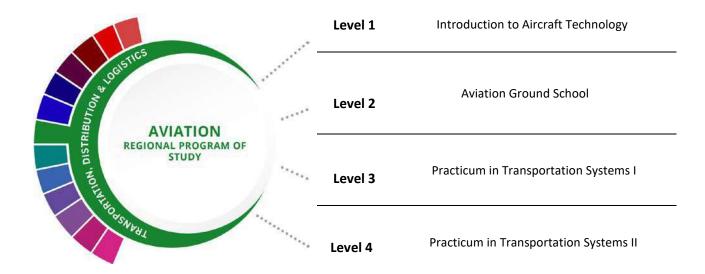

(PLTW) CIVIL ENGINEERING AND ARCHITECTURE LEVEL III will introduce students to the interdependent fields of civil engineering and architecture. Students learn project planning, site planning and building design.

#### (PLTW) ENGINEERING DESIGN AND DEVELOPMENT

LEVEL III— in the Capstone course, students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. Students perform research to choose, validate & justify a technical problem. After carefully defining the problem, teams design, build & test their solutions while working closely with industry Professionals who provide mentoring opportunities. Finally, student teams present and defend their original solution to an outside panel.

ROBOTICS I	ROBOTICS I students will demonstrate knowledge and skills
Grade Placement: 9-12	necessary for the robotic and automation industry. Through
Course #: 0729 Level: I	implementation of the design process, students will transfer advanced

Credit: 2 unit Fee required

# PRACTICUM IN TRANSPORTATION SYSTEMS II

(Aviation IV) Grade Level: 12

Course# 22717 Level: I

Prerequisite: Aviation III & application

Credit: 2
Fee required

## INTRODUCTION TO AIRCRAFT TECHNOLOGY is the first

course in the Aviation Academy Program. Students will discover the components of the transportation infrastructure. Performance requirements will include academic and technical skills. In this introductory aviation course, students gain knowledge and skills in the safe application, design, production, and assessment of products, services, and systems surrounding the aviation industry. This knowledge includes the history, laws and regulations, and common practices used in the logistics of transportation systems focusing on aircraft transportation.

AVIATION GROUND SCHOOL is the second course in the Aviation Academy Program preparing students for a career as an aviation professional. This course is a study of the basics in flight, including aerodynamics, aircraft systems, weight and balance, charts, navigation, flight planning, regulations, and weather. Successful completion of the course completes requirements to take the Federal Aviation Administration Private Pilot Knowledge exam. Students who are at least 16 years old may receive their student pilot certificate. At the conclusion of year II, students will apply to the Aviation Academy to take the next two years of the McKinney ISD program.

#### PRACTICUM IN TRANSPORTATION SYSTEMS I is the

third course in the McKinney ISD Aviation Academy Program that will result in preparation to become a certified Pilot or Aircraft Repairman/ Mechanic. This course is designed to provide training for entry-level employment in the Logistics, Planning, and Management Systems surrounding aviation. This course will apply the theory of operation, repair, and maintenance of aircraft airframe, power plant, and avionics systems. Aircraft services include knowledge of the function, diagnosis, and service of the electrical, electronic, hydraulic, pneumatic, airframe, mechanical, and power plant components of aircraft as governed by federal aviation regulations. Students may also have the opportunity for 1 hour of flight time with a certified instructor. This course will have limited enrollment number. It is the student's responsibility to provide their own transportation to and from designated campuses and McKinney airport.

PRACTICUM IN TRANSPORTATION SYSTEMS II is the final course (with the McKinney ISD Aviation Academy Program) in a four-course sequence that will result in the ability to begin the pathway towards a career in the aerospace/aviation industry. Possible paths include post-secondary education (ie. professional pilot, air traffic control, flight dispatch, airport management) or employment within the industry (ie. mechanics, line operations, guest relations, manufacturing). To help focus their professional skills and career direction, this course provides opportunities for students to "job shadow" with professionals working daily in the aviation industry. Students will be subject to random drug testing. The expense of this program is the responsibility of the student. Students will spend the majority of this class at the airport. This course will have limited enrollment numbers. It is the student's responsibility to provide their own transportation to and from

designated campuses, McKinney airport and/or job training site.

	graduation.

#### ART APPRECIATION (dual credit) ARTS1301 ART APPRECIATION (dual credit) is a general Grade Placement: 9-12 introduction to the visual arts designed to create an appreciation of the Course #: 1350 Level: II vocabulary, media, techniques, and purposes of the creative process. Prerequisite: counselor approval and Collin Students will critically interpret and evaluate works of art within formal, College admission cultural, and historical context. Students are responsible for all Credit: .5 unit transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course will count as an elective only and will not satisfy the fine art requirement. LEARNING FRAMEWORK (dual credit) EDUC1300 LEARNING FRAMEWORK (dual credit) A study of Grade Placement: 9-12 the: 1) research and theory in the psychology of learning, cognition, and Course #: 201300 Level: II motivation: 2) factors that impact learning, and 3) application of Prerequisite: counselor approval and Collin learning strategies. Theoretical models of strategic learning, cognition, College admission and motivation serve as the conceptual basis for the introduction of Credit: .5 unit college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned Students are responsible for all transportation, books, fees and tuition at the college and must pass the TSI (Texas Success Initiative) college entrance exam to enroll. This course will count as an elective only and will not satisfy the fine art requirement.

#### LEADERSHIP EDUCATION (JROTC)

**ENDORSEMENT AREA: PUBLIC SERVICE** 

https://www.schools.mckinneyisd.net/mhs/mcjrotc-4/

Possible career objectives for students with Leadership Education training: Executive Leadership, Management, Ambassador, Civilian Service, Government, Public Relations, Logistics, Operations, Consultant, Politician/Political Analyst/Political Strategist, Analyst, Historian, Project Coordinator, or thousands of other civilian-parallel Military Occupational Specialties within the Armed Services

#### ENROLLING IN LEADERSHIP EDUCATION

Students wishing to participate in the Leadership Education courses are required to join the Junior Reserve Officers Training Corps (JROTC) program, currently offered only at McKinney High School (MHS). Students who wish to participate in JROTC must be enrolled as students of MHS. Thus, all students participating in JROTC must be students of McKinney High School. Students not currently enrolled at MHS or not zoned to attend MHS, must complete an application for a programmatic transfer to MHS and include the JROTC Letter of Eligibility signed by the student's current Principal/Principal's designee as part of the application for programmatic transfer. To be eligible to participate in JROTC, students must complete the JROTC Letter of Eligibility and provide a physical from a medical doctor certifying the student is healthy enough to participate in JROTC. Students must have health insurance or purchase health insurance in order to participate in JROTC. Students will present proof of health insurance as part of the JROTC Letter of Eligibility.

#### CONTINUING IN LEADERSHIP EDUCATION

Participation in Leadership Education courses and JROTC is a privilege. Students admitted into Leadership Education courses/the JROTC program must maintain satisfactory academic, disciplinary and attendance standards. Students failing to maintain satisfactory academic, disciplinary and attendance standards may be removed from JROTC and Leadership Education courses upon the request of the JROTC Instructor. If the student is attending McKinney High School based on a programmatic transfer for JROTC, the student's transfer to MHS may be revoked upon request from a McKinney High School Administrator.

Students may not be placed in Leadership Education courses without the approval of a JROTC Instructor. (Exception: Students who complete an LE course at MHS in good standing or who enroll at MHS in good standing with current placement in a JROTC program or Leadership Education course are automatically approved for enrollment in the Leadership Education course at MHS.) Students in JROTC are required to wear their uniform at least once per week. Wearing of the uniform must comply with the standard the program of the student and the parent who has agreed to allow their student to participate in the program.

LEADERSHIP EDUCATION I (JROTC I) Grade Placement: 9-12 Course #: 0695 (with PE) Level: I 0696 (without PE) Prerequisite: Application Credit: 1 unit	LEADERSHIP EDUCATION I is the study of origins of leadership, ethics, morals and values. Students examine their own leadership beliefs through activities in introspection and situational analysis along with military leadership traits. Patriotism, citizenship, basic rights, physical fitness, personal health, hygiene and nutrition are key components of LE1. Other topics studied include public service, general military subjects including rank and structure, chain of command, first aid, marksmanship and the history of the Marine Corps. Personal professional appearance and the wearing and care of uniforms and equipment are also an ongoing focus of the introductory LE course.
LEADERSHIP EDUCATION II (JROTC II) Grade Placement: 10-12 Course #: 0697 Level: I Prerequisite: Completion of JROTC I Credit: 1 unit	LEADERSHIP EDUCATION II is the study of the objectives of leadership, responsibilities and accountability of leaders, and the motivational principles and techniques of leaders. The role of the Officer and NCO as leaders is studied. An in-depth analysis of the Freedom Documents, US flag, the American Seal and other symbols of freedom and citizenship are a focus in this course along with principles of National Defense, Branches of Gov't, political systems and current events. Students enrolled in LE2 will learn advanced knowledge in ongoing topics of focus including communication (written and oral), health and personal hygiene, wear and care of the uniform, land navigation, the UCMJ, marksmanship, organizational leadership, career exploration and topics of American war history.
LEADERSHIP EDUCATION III (JROTC III) Grade Placement: 11-12 Course #: 0698 Level: I Prerequisite: Completion of JROTC II Credit: 1 unit	LEADERSHIP EDUCATION III is an advanced course in leadership education studies. The focus in this course is on leading organizations and teams. Leaders will learn to conduct individual and team training, inspections, and performance evaluations. Students will analyze and study various leadership styles. Other topics include advanced study of the roles of the President and Congress in national defense during and in between wars, Personal Finance, College and Career preparation, public service, Reward Systems (medals and ribbons), advanced marksmanship safety and range operations, advanced land navigation techniques and equipment, military career pathways, and the history and rank structure of other Armed Services.
LEADERSHIP EDUCATION IV (JROTC IV) Grade Placement: 12 Course #: 0699 Level: I Prerequisite: Completion of JROTC III Credit: 1 unit	LEADERSHIP EDUCATION IV (LE4) is the culminating course in the Leadership Education pathway. Students in this course will study organizational conflict and resolution topics including sexual harassment, fraternization and equal opportunity. The role of the leader in leading effective and efficient organizations is a primary focus in this course. Leaders focus on management, research, instruction, wellness, morale, and the roles and responsibilities of others. Transition to post high school is an area of intense focus and preparation. Students will take the ASVAB test, prepare their resume, conduct mock interviews, research college entrance requirements and other career interest studies. To better understand the differences between civilian law and the military system of law, students will conduct a mock trial based on the Uniformed Code of Military Justice (USMJ).

#### MISD INTERDISCIPLINARY STUDIES/MENTORING SEMINAR (ISM)

# ADVANCED INTERDISCIPLINARY STUDIES AND MENTORING (ISM)

Grade Placement: 11-12

Course #: 16901 (First year) Level: II Course #: 0901 (Second year) Level: II

Prerequisite: Application

Credit: 1 unit

#### ADVANCED MISD INTERDISCIPLINARY STUDIES AND

MENTORING (ISM) allows students an opportunity to explore fields of study outside the offered high-school courses. Students who want to register for ISM go through a selection and application process the spring of their 10<sup>th</sup> or 11<sup>th</sup> grade year. Once approved by the ISM Committee, students select careers or topics of study. They develop a research portfolio that has a collection of resources including interviews and observations with people who work in their chosen topic field. Students work on time management, communication, goal setting, and presentation skills. Second semester, they work with mentors on a regular basis to gain real-world experience. Students are expected to generate original ideas, participate in extensive research, complete a written analysis of their research, and design original products or innovative performances. Students are expected to make formal presentations of their projects before professionals in that field.

A student in the ISM program may be eligible to receive embedded credit for the course Communication Applications. See the course description on p. 34 and/or the counselor for more information.

#### **ENDORSEMENT AREA: ARTS & HUMANITIES**

#### **MUSICAL ARTS**

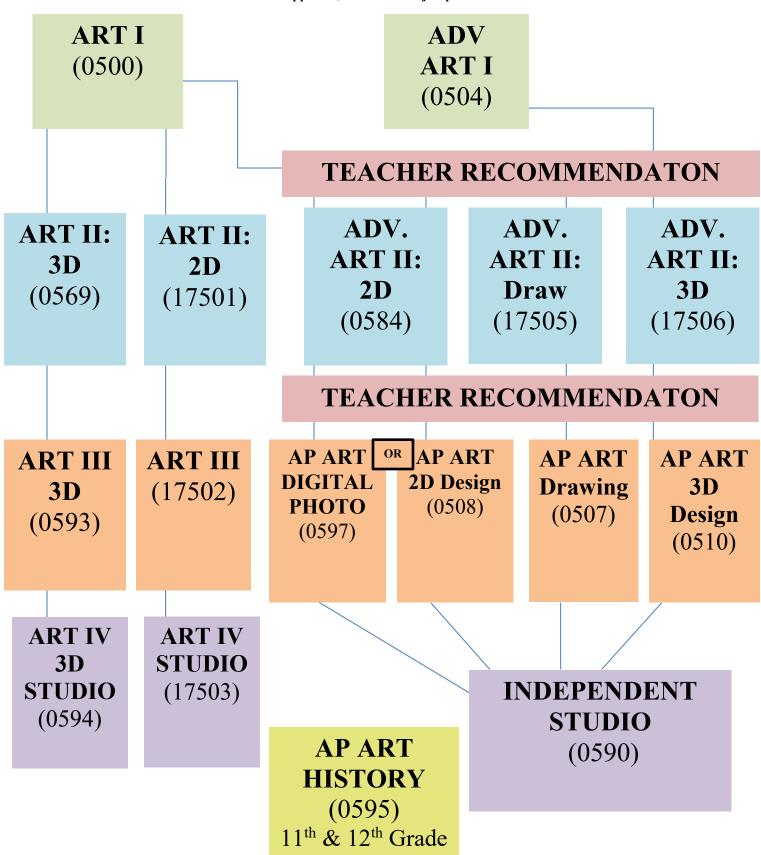

**Possible career objectives for students with interest in the fine arts- MUSIC:** Music study develops many wide-ranging skills that are valued in a variety of careers. Studying music enhances both independence and teamwork, self-expression and listening, preparedness and patience. In addition to careers such as medicine, engineering, law, etc., music students may be interested in performing, teaching, audio engineering, broadcasting, conducting, composing, arts management, music technology, or another of many occupations in the music field.

BAND I-IV Grade Placement: 9-12 Course #: Level I -0991; Level II -0992; Level III-0993; Level IV-0994 All course numbers Level: I Prerequisite: audition and director approval. Each year serves as a prerequisite for the next year. Credit: 1 unit fine arts; .5 unit PE during the fall semester for 1st and 2nd year	BAND I-IV Students enrolled in band will be placed in an ability-based ensemble as determined by director upon completion of the required audition. Participation in marching band is required. Scheduled performances and rehearsals outside of the school day are a part of the graded requirements for band courses for both the marching and concert band seasons. Students will receive PE credit for marching band during fall semester of the first and second year and a fine arts credit for the entire year for all four years.
COLOR GUARD Grade Placement: 9-12 Course #: Level I-0565; Level II-0566; Level III-0567; Level IV-0568 All course numbers Level: I Prerequisite: audition and director approval Credit: .5 unit fine arts; .5 unit PE during the fall semester for 1st and 2nd year.	COLOR GUARD is a part of the high-school band program and is a semester-long course that participates in marching band in the fall Semester. All students are welcome to audition for the color guard including non-band members. All students acquire skills in several varieties of equipment including flag, rifle and saber. Students will receive PE credit for marching band during the fall semester of the first and second year and a .5 fine arts credit for the fall semester for all four years.
WINTER GUARD Grade Placement: 9-12 Course #: Level I-0585; Level II-0586; Level III-0587; Level IV-0588 All course numbers Level: I Prerequisite: must have participated in Color Guard in the fall semester or director approval Credit: .5 unit fine arts	WINTER GUARD is a part of the high-school band program and is a semester-long course that takes place in the spring semester. All students are welcome to participate in winter guard including non-band members. All students acquire skills in several varieties of equipment including flag, rifle and saber. Students will participate in various Winter Guard competitions throughout the spring semester. Students will receive .5 fine arts credit for spring semester.
JAZZ ENSEMBLE Grade Placement: 9-12 Course #: Level I-0514; Level II-0515; Level III-0516; Level IV-0517 All course numbers Level: I Prerequisite: audition and director approval Credit: 1 unit	JAZZ ENSEMBLE focuses on the study of jazz, rock, funk, fusion, Latin and big band-literature. Improvisation, jazz theory and jazz history will also be studied. Concurrent enrollment in a concert band class is required. Members must enroll for the entire school year.
ORCHESTRA I-IV Grade Placement: 9-12 Course #: Level I-0547; Level II-0548; Level III-0549; Level IV-0550 All course numbers Level: I Prerequisite: audition and director approval. Each year serves as a prerequisite for the next year. Credit: 1 unit	ORCHESTRA I-IV Students enrolled in orchestra will be placed in an ability-based ensemble as determined by the director. Course offerings include only string instruments: violin, viola, cello and acoustic string bass. Playing proficiencies, demonstrated by each student, are used to determine orchestra placement. Scheduled performances and rehearsals outside the normal class period are a part of the graded requirements for orchestra courses.
CHOIR I-IV Grade Placement: 9-12 Course #: Level I-18530; Level II-18531; Level III-18532; Level IV-18533 All course numbers Level: I Prerequisite: audition, director approval, previous middle school choir experience preferred but not required Credit: 1 unit	CHOIR I-IV Students enrolled in choir will be placed in an ability-based ensemble as determined by director upon completion of an audition.  Auditions take place either in the spring semester of previous school year or at the time of enrollment in choir. Student ability placement is based primarily on vocal tone and sight-reading skills, with singers being placed in appropriate ensembles based on those skill levels. Scheduled performances and rehearsals outside the normal class period are a part of the graded requirements for choir courses.

VOCAL JAZZ ENSEMBLE Grade Placement: 9-12 Course #: Level I-18534; Level II-18535; Level III -18536; Level IV -18537 All course numbers Level: I Prerequisite: audition and director approval Credit: 1 unit	VOCAL JAZZ ENSEMBLE is an Advanced Level 4 mixed vocal jazz ensemble. Concurrent membership in one of the larger choirs is required of all vocal jazz students. Students are required to participate in a vigorous concert schedule throughout the year. This class has limited enrollment.	
AP MUSIC THEORY Grade Placement: 11-12 Course #: 0539 Level: III Prerequisite: fine arts instructor approval, students should be able to read music, pass entrance exam Credit: 1 unit	AP MUSIC THEORY is recommended for students that are interested in pursuing music as a major in college. The course will provide students with a learning experience equivalent to that of an introductory college course in music theory. The course will develop a student's ability to recognize, understand, describe and analyze the basic materials and processes of music that are heard or presented in a score. It is recommended that students have prior training in music either through private lessons (vocal or instrumental), participation in an ensemble, or an introductory rudiments/theory course. It is also recommended that students participate in a music ensemble while taking the course.  Students are required to take the AP exam.	

## **MISD Visual Art Courses Progression Chart**

\*With instructor approval, a student can jump from core to Advanced

#### **VISUAL ARTS**

AP STUDIO ART: DRAWING Grade Placement: 10-12 Course #: 0507 Level: III Prerequisite: Advanced Art II (2-D) Drawing, and/or instructor approval Credit: 1 unit	AP STUDIO ART: DRAWING is designed for the art students who wish to pursue college-level studies in art. It explores formal, expressive and representational issues involved in artwork with specific focus mark making. The course requires up to 24 high-quality portfolio items by the beginning of May. Students are required to submit an AP studio Portfolio which is their Advanced Placement exam. Lab Fee may be required.
AP STUDIO ART: 2-D DESIGN Grade Placement: 10-12 Course #: 0508 Level: III Prerequisite: Advanced Art II (2-D), and/or instructor approval Credit: 1 unit	AP STUDIO ART: 2-D DESIGN is designed for the art students who wish to pursue college-level studies in art. It explores formal, expressive and representational issues involved in 2-D Design artwork with specific focus on traditional media. The course requires up to 20 high-quality portfolio items by the beginning of May. Students are required to submit an AP studio Portfolio which is their Advanced Placement exam. Lab Fee may be required.
AP STUDIO ART: 2-D DESIGN PHOTO/DIGITAL Grade Placement: 10-12 Course #: 0597 Level: III Prerequisite: Advanced Art II (2-D), and/or instructor approval Credit: 1 unit	AP STUDIO ART: 2-D DESIGN PHOTO is designed for the art students who wish to pursue college-level studies in photographic art or digital mass media communications. It explores contemporary and 21st century visual communication methods and avenues with a specific focus on digital visual representations. The course requires up to 20 High-quality portfolio items by the beginning of May. Students are required to submit an AP studio Portfolio which is their Advanced Placement exam. Lab Fee may be required.
AP STUDIO ART: 3-D DESIGN Grade Placement: 10-12 Course #: 0510 Level: III Prerequisite: Portfolio, and/or instructor approval Credit: 1 unit	AP STUDIO ART: 3-D DESIGN is designed for the art students who wish to pursue college-level studies in art. It explores specific, formal, and expressive in 3-D media. The course requires up to 20 high-quality portfolio items by the beginning of May. Students are required to submit an AP studio Portfolio which is their Advanced Placement exam. Lab Fee may be required.
INDEPENDENT STUDIO Grade Placement: 10-12 Course #: 0590 Prerequisite: Concurrent Enrollment in AP Studio Art: 2-D, 3-D, or Drawing Credit: 1 local unit	INDEPENDENT STUDIO will offer essential time for students to complete assignments for their AP studio Art portfolios. This class will offer teaching guidance including critiquing artwork so the students can meet the high standards of the AP portfolios. Students must be concurrently enrolled in an AP STUDIO ART Course. Lab Fee may be required.
AP ART HISTORY Grade Placement: 11-12 Course #: 0595 Level: III Prerequisite: none Credit: 1 unit	AP ART HISTORY is a chronological survey of architecture, painting, sculpture and photography of the Western tradition and selected works from some cultures beyond the European tradition. The sequential presentation of the artwork studies in the course begins in the Prehistoric period and ends with Post-Modernism. Student will study the artworks in a historical context addressing any issues such as politics, religion, any issues such as politics, religion, patronage, gender, function and ethnicity; and in a visual context. Students will develop and practice clear writing skills and the language of art analysis. Students are required to submit an AP studio Portfolio which is their Advanced Placement exam. Lab Fee may be required.
PARTNERS ART Grade Placement: 10-12 Course #: Level II-17501; Level III-17502; Level IV-17503 All course numbers Level: I Prerequisite: Art I, application, and interview Credit: 1 unit	PARTNERS ART is a success-oriented visual arts education program featuring supervised peer tutors and individualized learning and instruction. Through a variety of activities, all students will learn to create and appreciate visual arts. This course addresses the unique physical and mental needs of students with disabilities in a setting that allows for positive interaction with partner peers. Partner students must work with their special buddy, be encouraging at all times, and handle materials appropriately for activities. <i>Students must apply for this course.</i>

#### THEATRE ARTS

#### **ENDORSEMENT AREA: ARTS & HUMANITIES**

Possible career objectives for students with talent in the fine arts - THEATRE/DANCE: Actor, Costume Design, Lighting/Sound Technician, Producer, Set Designer, Theatre Manager, Choreographer, Lawyer, Critic, Broadcaster, Dancer, Playwright, Public Relations, Film/Stage Director, Teacher, Commercials, Politician, and Vocal Coach

#### MUSICAL THEATRE

Grade Placement: 10-12

Course#: I-0600; II-0601; III-0602; IV-0603

All course numbers Level: I

Prerequisite: Instructor approval and previous enrollment in any theatre, choir or dance course. Co-Requisite: Concurrent enrollment in Theatre Production I-IV or Theatre II-IV is required

Credit: 1 unit

MUSICAL THEATRE is an introduction to the disciplines of musical theatre. Creative acting exercises, basic vocal technique and dance will be explored and culminate with a class performance. This course will help prepare students for a career in musical theatre. Students will review the history of musicals, assess different career options and receive training in audition techniques and resume preparation. Additionally, the course will also provide instruction on the three main elements of music theatre song, drama and dance--and create a framework in which these are blended into an individualized performance style. Fee may be required. Significant work outside of the regular class period is required.

#### THEATRE DIRECTING

Grade Placement: 11-12 Course #: I-0560; II-21561 All course numbers are Level: I Prerequisite: Instructor approval.

Co-Requisite: Concurrent enrollment in Theatre

Production II, III, IV or Technical IV

Credit: 1 unit

**THEATRE DIRECTING** is a varsity-level course in stage production that concentrates on the process of directing a production from beginning preproduction, casting, production and postmortem. Each student will direct a show presented to the public.

#### THEATRE & MEDIA COMMUNICATIONS

Grade Placement: 9-12 Course #: I-0556; II-0559 All course numbers are Level: I

Prerequisite: none Credit: 1 unit THEATRE & MEDIA COMMUNICATIONS provides students with a rigorous and relevant experiential study of theatre along with video and audio design. Creation and analysis of student performances will be balanced with explorations into contemporary practices in digital media. Students will learn how to bridge traditional stagecraft with current technology applications to create new media, such as animations, digital images, multimedia presentation, digital video, websites and interactive performances. Student work will culminate in a capstone project that investigates an issue relevant to the student and uses a digital stage to address a problem within the community or to effect a change. This project will provide students with the opportunity to learn and practice creative research skills, develop a narrative, engage an audience and connect an online community to their project.

A student in the Theater & media Communication program may be eligible to receive embedded credit for the course Communication Applications. See the course description on p. 34 and/or the counselor for more information.

#### PARTNERS THEATER

Grade Placement: 10-12

Course #: Level II-0575; Level III-0576;

Level IV-0577

All course numbers Level: I

Prerequisite: Theater I, application, and

interview Credit: 1 unit PARTNERS THEATER is a success-oriented theater arts education program featuring supervised peer tutors and individualized learning and instruction. Through a variety of activities, all students will learn to practice and appreciate theater arts. This course addresses the unique physical and mental needs of students with disabilities in a setting that allows for positive interaction with partner peers. Partner students must work with their special buddy, be encouraging at all times, and handle materials appropriately for activities. *Students must apply for this course.*

14237 & 14238	process. Students participating in McKinney ISD cheerleading are
14239 & 14240	REQUIRED to have a yearly physical and complete all appropriate
All course numbers Level: I	paperwork prior to participation in tryouts, practices, and games.
Prerequisite: tryout and instructor approval	Cheerleaders must be able to attend practices and games before
	school, after school, and weekends. Students may receive PE credit
	for this course.
	1.4

#### PHYSICAL EDUCATION

In physical education courses students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity and access to an active lifestyle. The student exhibits a physically active lifestyle and understands the relationship between physical activity and health throughout the lifespan.

#### Physical Fitness Assessment – Fitnessgram

In the 82<sup>nd</sup> Legislative 2011, HB 400 was passed as a part of SB 8, limiting a school district's required annual physical fitness assessment to students in grade three or higher who are enrolled in a course that satisfies the curriculum requirements for physical education, including substitutions, equivalents and waivers. The Fitnessgram assessment instrument will contain criterion-referenced standards specific to a student's age and gender based on the physical fitness level required for good health. Good health components will include an aerobic capacity, body composition, muscular strength, muscular endurance and a flexibility assessment.

FOUNDATIONS OF PERSONAL	FOUNDATIONS OF PERSONAL FITNESS is to motivate students
FITNESS	to strive for lifetime personal fitness with an emphasis on the health-
Grade Placement: 9-12	related components of physical fitness. The knowledge and skills taught
Course #: 14321 Level: I	include the process of becoming fit, as well as achieving some degree of
Prerequisite: none	fitness. The concept of wellness or striving to reach optimal levels of
Credit: .5 unit	health is the cornerstone of this course and is exemplified by one of the
	course objectives: students designing their own personal fitness
	program. Target areas of study are: understanding the principles of
	physical fitness, flexibility, muscle fitness, cardiovascular fitness,
	aerobic activity and nutrition. This course may only be taken one time.
ADVENTURE/OUTDOOR EDUCATION	ADVENTURE/OUTDOOR EDUCATION develops competencies in
Grade Placement: 9-12	outdoor educational activities that provide opportunities that are
Course #: 14311 Level: I	enjoyable as well as challenging. Outdoor education learning takes
Prerequisite: none	place both indoors and outdoors to enable students and teachers to
Credit: .5 unit	interact in an environment free from the limitations of the classroom.
	Activities include adventure education, camping, fishing, orienteering
	and swimming. First aid (CPR certification), boater safety and some
	aspects of outdoor recreation. This course may only be taken one time.
AEROBIC ACTIVITIES	AEROBIC ACTIVITIES introduces students to a variety of fitness
Grade Placement: 9-12	activities designed for a lifetime of physical fitness by emphasizing
Course #: 14271 Level: I	muscular endurance training for the upper body, lower body and
Prerequisite: none	abdominals. Students will learn flexibility exercises, understand and

Course # 0653 Level: I	to all basic dance principles and fitness education by way of the
Prerequisite: None	conditioning and movement of dance. This class requires specific attire
Credit: 1 unit PE	and may require one out of school performance. Students will not get a
	Fine Arts credit for this course.
FUNCTIONAL FITNESS II	FUNCTIONAL FITNESS II is an elective course. This TEA-
Grade Placement 10-12	Approved Innovative Course is designed for students who enjoyed their
Course # 17001 Level: I	PE classes and wish to continue their fitness journey. This course asks
Prerequisite: 2 semesters of physical education or	students to build upon skills learned in previous courses, moving
equivalent credit	beyond body weight activities and basics in weight-lifting and
Credit: 1 unit	gymnastics. Class sizes are smaller, permitting the coach to provide
	direct one-on-one instruction while pushing towards higher goals.
	Workouts are all measurable, scalable and performed within a specified
	time domain. This course does not satisfy the PE requirement and will
	award elective credit only.

#### PHYSICAL EDUCATION SUBSTITUTIONS:

MISD students are allowed, under Board Policy, to substitute certain physical activities for the 1.0 required units of physical education. Such a substitute shall be based on the physical activity involved in:

- 1. \*Drill Team 1 full credit for year 1
- 2. \*Cheerleading
- 3. \*Marching Band .5 credit fall semester year 1 and year 2
- 4. Color Guard .5 credit fall semester year 1 and year 2
- 5. Athletics
- 6. Off-Campus PE (see p. 104)
- 7. \*JROTC

<sup>\*</sup>Note – Students may be enrolled in one of these courses simultaneously with an athletic class but will not receive an additional PE credit. See additional information under the Athletic section on p. 105.

#### **OFF CAMPUS PE**

State credit shall be awarded for physical education for appropriate private or commercially sponsored physical activity programs conducted either on or off-campus upon approval of district administration.

Such approval may be granted under the following conditions:

- A. Olympic-level participation and/or competition that includes a minimum of 15 hours per week of highly intensive professional, supervised training. The training facility, instructors, and the activities involved in the program must be certified by the superintendent to be of exceptional quality. <u>Students qualifying and participating at this level may be dismissed from school one hour per day.</u>
- B. Private or commercially sponsored physical activities that include those certified by the superintendent to be of high quality and well supervised by appropriately trained instructors. Student participation of at least 5 hours per week is required. Students certified to participate at this level, MAY NOT be dismissed from any part of the regular day.
- C. The activity must be one that McKinney ISD does not offer at the specific level requested.

The student must participate a minimum of four days during the week (Monday through Friday) plus an additional day that may fall on either the weekend or during the week. Participation must always be under the direct supervision of the instructor. No off-campus program will be allowed if located more than 25 miles from the McKinney ISD Administration Building

#### **Off-Campus PE:**

Course#: Year One: 14331& 14332 Year Two: 14333 & 14334 Year Three: 14335 & 14336 Year Four: 14337 & 14338

Level: Not included in GPA Prerequisite: Application each year Credit: 1 PE unit 1<sup>st</sup> year; 2<sup>nd</sup> year and after receive elective credit

Fee required

Off-Campus PE The purpose of the Off-Campus Physical Education Program is to accommodate students who are making a serious effort to develop capabilities and to allow those students to be involved in a program that provides training exceeding that offered in the school district. The student taking this course for physical education credit may NOT be enrolled in another physical education class or athletics while participating in the Off-Campus Physical Education Program. A maximum of 4 credits can be earned towards state high school graduation requirements. A student interested in this program should contact his/her campus counselor for application and guidelines concerning off-campus physical education. The grade earned will appear on the transcript and award state credit but will not be included in the GPA.

#### HEALTH

## HEALTH

Grade Placement: 9-12 Course #: 0760 Prerequisite: none Credit: .5 unit **HEALTH** is a district-required course for graduation. Students learn health concepts recommended for comprehensive health instruction. This semester course includes instruction in mental health, family and social health, the life cycle, body systems, personal health and physical fitness, nutrition, medicines and drugs, diseases and disorders, community and environmental health, consumer health and safety and emergency care.

#### **ATHLETICS**

Athletics is intended for students interested in playing competitive sports. Athletic participation is a privilege, not a right, and student athletes are held to a higher standard of conduct. Any questions concerning participation should be addressed to the specific coach or campus athletic coordinator.

NOTE: UIL rules specifically prohibit students from being enrolled in more than one physical education and/or athletic class; Exception: PE Class: Adventure/Outdoor Education; PE Substitute: JROTC, Cheerleading, Drill Team, Marching Band.

The following sports are available at the high school level:

Baseball Basketball Cross Country Diving
Football Golf Powerlifting Soccer

Softball Swimming Tennis Track and Field

Volleyball Wrestling

Students should request the specific sport they wish to play rather than "Athletics." Most sports are offered as year long courses. Students that wish to participate in more than one sport must contact the coach of each sport to discuss the request. Students must have a period of Athletics on their schedule in order to participate.

Grade Placement: 9-12

Course Numbers: see counselor

Level: I

Prerequisite: coach's approval and/or tryout

process

Credit: .5 unit state physical education

credit per semester (up to a maximum of 4 credits)

- Students participating in McKinney ISD athletics are REQUIRED to have a yearly physical and complete all appropriate paperwork prior to participation in tryouts, practices, and games.
- Physicals must be dated on or after April 1, 2022 for participation in athletics for the 2022-2023 school year. Physicals must be completed on the official UIL physical form. MISD athletics will provide three opportunities for students to receive a physical at a cost of \$20 in April and May. Student athletes meeting all of the free or reduced lunch requirements will be given the opportunity to receive a physical for free or at a reduced rate.
- Athletes must be able to attend practices and games before school, after school, and Saturdays.
- All students involved in extracurricular activities are required to be involved in the MISD Random Student Drug Testing Program. All students involved in extracurricular activities follow co-curricular guidelines that hold students to a higher standard regarding personal conduct.
- According to UIL rules, student athletes must maintain a 70 average in all of their classes to remain eligible for competition. See p. 22 for more information.
- This information is subject to change based on health guidance.

## **COLLIN COLLEGE TECHNICAL COHORT**

The Collin College technical cohort program is designed to provide an incredible opportunity for students preparing for a career in a technical field.

Students that participate in this cohort program are expected to make a commitment to take at least two courses at the technical campus each semester of BOTH the junior and senior year of high school.

After high school graduation, students will have an opportunity to complete an Associates of Applied Science (A.A.S.) within one additional year of study.

This cohort program is distinct from our standard dual credit options detailed on p. 19-20 of this document in several ways:

- Participation is based on course availability, college application, and counselor approval. Candidates will be expected to have passion for the career field, good attendance and capacity to commit to the cohort model. Previous experience or skills are not required.
- Starting on January 10, students may access application materials at www.tinyurl.com/misdapps
  - O Students will be required to attend an information meeting to discuss the specific details of the program in March.
  - Enrollment is limited for these courses. Students that meet the application criteria will be added to a
    pool of eligible students and then enrollment will proceed by lottery. A waiting list will be
    established for additional enrollment if spaces become available.
- Participants will attend classes at the state of the art Collin Technical Campus located at: 2550 Bending Branch Way, Allen, Texas 75013 (off 121 and Alma) and will be required to provide their own transportation.
- Students will be responsible for all tuition and fees. In addition, students will be required to provide personal protective equipment (such as protective eye goggles or steel toed shoes). Students will have access to state of the art tools and equipment on the technical campus site.
- Depending on the cohort selected, students may be required to report earlier in the day or stay later in the day to meet the program requirements.
- It is possible to take additional dual credit coursework from our standard dual credit offerings if desired. See page 19-20 for more information.
- For more information visit: https://www.collin.edu/campuses/technical/

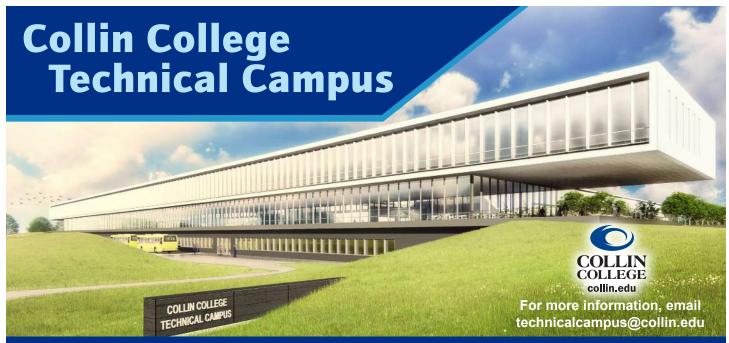

## Courses will be offered in the following high-demand career fields:

- Biomedical Equipment Technology
- Industrial Automation
- Electronic Engineering Technology
- Computer-Aided Drafting and Design (CADD)
- Construction Management
- Heating, Ventilation and Air Conditioning (HVAC)

- Welding Technology
- Computer Networking
- IT Security
- Automotive Service Technician
- Collision Repair
- Real Estate
- Culinary Arts

**Note to Seniors:** While this program is designed to be taken during the junior and senior year of high school, it is possible to apply as a senior and complete the first year of the program prior to graduation. Students in this scenario would complete any remaining hours towards certifications or degrees after graduation.

## Review the Information Flyer for Each Program On the Following Pages:

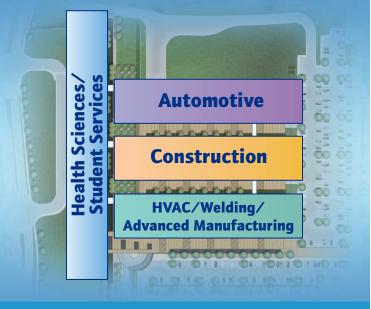

When completed in fall 2020, the Technical Campus will be a comprehensive campus offering students multiple paths to success in high-demand, high-wage career fields including automotive, construction, health care, information technology and manufacturing.

# FAST FACTS

- The Technical Campus will be located along Hwy. 121 between Exchange and Alma.
- It will be a 340,000 square-foot three-story facility on a 32-acre site.
- The campus will serve up to 7,100 students when fully occupied.
- The campus's "trade bars" are dedicated to major career concentration areas.
- "Learning yards" located between trade bars provide exterior spaces for cross-discipline work and project-based learning.
- Students will learn on the same equipment they will find when they start work.

- Collin College's comprehensive master plan calls for developing programs to train future employees for highneed, high-growth and high-wage occupations in North Texas.
- Industries like construction, advanced manufacturing, HVAC, automotive service technician, collision repair, and health care are booming in **Collin County.**
- Students will be educated for careers and can graduate without incurring high student loan debt.
- Strategic partnerships with local school districts will expand dual credit and career and technology education programs without duplicate costs.
- High school students will be able to enroll in dual credit CTE programs and graduate with industry-recognized certifications and college credits toward an associate of applied science degree.

# **High Demand Programs** at the Technical Campus

- Advanced Manufacturing Biomedical **Equipment Technology, Electronic Engineering Technology, and Industrial Automation**
- Architecture and Construction –Computer-Aided Drafting and Design, Construction Management, HVAC, and Welding **Technology**
- Health Sciences Health Professions: Certified Nurse Aide, Electrocardiograph Technician, Patient Care Technician, and Phlebotomy Technician
- Science, Technology, Engineering and Math Information Technology Cybersecurity and Computer Networking
- Logistics and Transportation Automotive Service Technician and Collision Repair

## **COLLIN COLLEGE**

## TECHNICAL CAMPUS

# Computer-Aided Drafting and Design (CADD)

#### Develop the blueprint for your future. As a

Computer-Aided Drafting and Design professional you will use specialized software to create blueprints, plans, or schematics showing how a structure should be created. Use your skills in aeronautics, civil engineering, architecture, process pipelines, mechanics, or electronics fields.

#### **CADD Program**

High-tech industries are continually creating new career opportunities in exciting, highly-specialized fields. A degree in Computer-Aided Drafting and Design (CADD) can provide you with both an educational foundation in CADD and insight into current industry practices. Get hands-on training and learn the skills a designer, CADD operator, architect, or engineer needs for a successful career.

13139-20PB

# Biomedical Equipment Technology

Modern medicine runs on technology and someone has to keep that technology in top working order.

Graduates of Collin College's Biomedical Equipment Technology program have the training and experience to ensure lifesaving medical technology is in top working order. This career is perfect for people with an interest in the growing health care field but who do not want to work with patients. Top employers include hospitals, medical offices, and large clinics which provide tests for patients.

### Careers in Biomedical Equipment Technology

Medical Equipment Repairers Average Salary: \$53,400 17% growth

Other careers include engineering, sales or service for equipment manufacturers.

Data for Collin County obtained from JobsEQ and O\*Net Note: Average salary for occupation as of 2018 and job growth projected from 2019-2026

#### **About Collin College's Program**

The Biomedical Equipment Technology degree program at Collin College provides entry-level employment training for students interested in careers in the biomedical equipment industry. The program includes 15 hours of general education courses and 45 hours of courses directly applicable to Biomedical Equipment Technology.

Collin College is an equal opportunity institution and provides educational and employment opportunities without discrimination on the basis of race, color, religion, sex, age, national origin, disability, veteran status or other legally protected class.

# **Electronic Engineering Technology**

#### In a world full of advanced technology,

electronics engineering technicians are a critical component in keeping that tech on track. Electronics engineering technicians build, test, service, and repair electronics, including programming and designing device functions. Students in Collin College's Electronic Engineering Technology program learn about electronics types, circuit design, transistors, electrical voltage, and more so that they have the knowledge and skills to keep the world's technology running efficiently.

### Careers in Electronic Engineering Technology

**Electronics Engineering Technician Average Salary: \$72,200 12% growth** 

Data for Collin County obtained from JobsEQ and O\*Net Note: Average salary for occupation as of 2018 and job growth projected from 2019-2026

#### **About Collin College's Program**

Collin College's Electronic Engineering Technology program curriculum and laboratory equipment have been formally evaluated and endorsed by an advisory committee consisting of members of the electronics industry, so you can be sure you are learning the skills you will need to earn a job once you graduate college. Theory and hands-on laboratory design and analysis experiments are emphasized in the classroom.

### **Industrial Automation**

### Automation makes manufacturing more efficient, improving production in most processes.

Electro-mechanical technicians make sure that machines used in that automation are efficient as well. From servicing and testing robots and unmanned equipment to designing processes to achieve maximum output for an assembly line, these technicians use the knowledge of industrial automation to ensure smooth production lines. Collin College's Industrial Automation program will prepare you to enter that field in the most efficient way possible.

#### **Careers in Industrial Automation**

Electro-Mechanical Technicians
Average Salary: \$56,600
11% growth

Data for Collin County obtained from JobsEQ and O\*Net Note: Average salary for occupation as of 2018 and job growth projected from 2019-2026

#### **About Collin College's Program**

Collin College's Industrial Automation program is designed with applied electronics in mind. Students will develop ladder logic for use with advanced programmable logic controllers (PLC) functions, compose a ladder logic program to demonstrate an advanced industrial control application, and apply advanced programming techniques for specialized applications. Students will be able to explain the function and operation of various motor control devices and explain PLC terminology.

Collin College is an equal opportunity institution and provides educational and employment opportunities without discrimination on the basis of race, color, religion, sex, age, national origin, disability, veteran status or other legally protected class.

# Heating, Ventilation, and Air Conditioning (HVAC)

Looking for a new in-demand career that offers a secure future with a great salary? Want to work for a company or own your own business? Love to fix things and work on machines? Want an opportunity to use your hands and work outside as well as indoors? Heating, Ventilation, Air Conditioning (HVAC) may be the perfect job field for you.

#### Collin College's HVAC Program

Learn to work in the residential HVAC industry installing and servicing air conditioning units, gas and electric furnaces and heat pump systems. Collin College's program offers you the opportunity to gain hands-on experience as you earn certificates and work toward your associate degree.

Learn about Environmental Protection Agency guidelines and standards that apply to the HVAC industry. Identify and use HVAC equipment, components, and tools while learning about their functions within the industry. Master common mechanical, electrical, and electronic components such as compressors, switches, thermostats, motors, and fans. Practice all of the techniques you learn with heat pumps, heating units, a/c units, refrigeration units and more with hands-on instruction in Collin College facilities.

#### **Coursework includes preparation for:**

- EPA 608 Federal Exam Certification
- 410A Safety Certification
- Air Quality (or Green) Certification
- EPA 609 Automotive Certification
- Preventive Maintenance (PM) Certification
- State of Texas Registered Technician

Collin College HVAC courses are academic credit courses. This makes them eligible for financial aid and military benefits, as well as the Texas Workforce Commission programs.

### **Welding Technology**

#### Welders bring the world together, literally.

From petroleum production and metal fabrication to the aerospace industry and new economy green manufacturing, welders are key to many industries because they have the skills to help build and repair the machines of tomorrow. Skilled welders can choose to work at Fortune 500 companies, travel to exotic locations for jobs as independent contractors or run their own shops. Your future as a welder can begin with an education from Collin College.

#### **Careers in Welding**

Welders, Cutters, Solderers, and Brazers Average Salary: \$42,800 18% growth

Data for Collin County obtained from JobsEQ and O\*Net Note: Average salary for occupation as of 2018 and job growth projected from 2019-2026

#### **About Collin College's Program**

The Welding Technology Program provides students with the skills required for entry-level welder positions, preparing them to work using multi-process welding including tungsten inert gas (TIG), metal inert gas (MIG), stick/shielded metal arc welding (SMAW), flux-core, and oxy-fuel. The program emphasizes knowledge and skills required to work with modern industrial welding equipment, and students will gain certificates upon completion of each course.

### Real Estate Management

Find your dream career in Real Estate. The buying, selling, leasing, and management of real estate is fundamental to all residential, commercial, and agricultural activity in the United States. Licensed real estate professionals can use their entrepreneurial drive to create a thriving business. Some graduates pursue careers as professional real estate investors. Their knowledge can also be applied in full-time positions within corporations, non-profit organizations, or governmental agencies as in-house real estate experts.

#### **Career Outlook**

Real Estate Agent
Average salary: \$79,000 | 21.2% growth

Real Estate Broker
Average Salary: \$83,900 | 21.1% growth

Real Estate Manager Average Salary: \$83,800 | 21.5% growth

#### **About Collin College's Program**

The Real Estate Management Associate of Applied Science degree and Real Estate Salesperson certificate are designed to prepare students for careers as real estate professionals. In as little as one semester, students can acquire the education necessary to obtain a Texas real estate license and begin a new career. Students will have the opportunity to work with highly-qualified faculty with a wide variety of backgrounds in the real estate industry.

#### **Program Features**

All courses taken for the Real Estate Salesperson certificate also apply to the Associate of Applied Science (AAS) degree. A Real Estate Salesperson certificate qualifies you to take the real estate license exam from the Texas Real Estate Commission to obtain a Sales Agent license. The AAS degree in Real Estate Management from Collin College provides the additional education necessary to obtain a Real Estate Broker license or pursue a bachelor's degree.
