Subject: HB3 Goals for Early Childhood and College, Career, or Military Readiness
Date: June 23, 2020

.....

House Bill 3 (HB 3) amends Texas Education Code (TEC) to add Sec. 11.185 and 11.186 to include plans that target early childhood (EC) literacy and math proficiency and college, career, or military readiness (CCMR). School districts are required to set specific targets in these areas which may be incorporated into existing district improvement plan goals. These goals are to span five years with the 2023-24 school year being the final year. The EC goals are to be set using grade 3 STAAR and the CCMR goal is based on the indicators already established for measuring graduates' preparedness for college, the workforce, or the military.

Impact Statement: Align current monitoring matrix and district and campus planning with new HB3 mandates for school improvement.

It is recommended: The Board approve these early childhood and college, career, or military readiness goals.
